

SETTING THE STYLES.

How Changes in the Fashions Are Brought About. GARMENTS AND MATERIALS.

Accessories the Animated Frames for Designs—Stylish Stripes and Plaids—Harmonious Combinations—Fashionable Headgear—Beating Visiting Costumes.

Special Correspondence of The Evening Star.

New York, December 4, 1891.

HERE IS A WIDE spread notion that accessories set the fashions, and that accessories are the originators of modes...

TO turn from general to particulars, there does not seem to be any marked change in the market. There's a fall in those lacy sleeves which have held their own for so long.

One of the prettiest visiting costumes that I have seen this season was a very common thing in black tulle or mull, garnished with lace flounces or ruffles or bias bands of velvet.

It is the name way with a woman. It is a man dressed most carefully when he is going among women and a woman puts on her most glorious gown when she is going among men.

HOW WOMEN DRESS.

The Styles of the Day From a Man's Point of View. WHAT HE DOESN'T LIKE.

Why and When Men and Women Like to Wear Good Clothes—The Society Young Man's View on Modern Fashions—The Admirable Long Skirt and Peaked Sleeves.

Written for The Evening Star.

METALS OF MANY KINDS.

THERE IS GOING TO BE A BIG display of metals at the world's fair in Chicago. It ought to be most interesting to every one who realizes what an illustration of human progress will be thus afforded.

Prof. Clark, of the National Museum, says that the first crucible is one-half oxygen, 5 per cent iron and 7 per cent aluminum.

There are a number of metals known which have not come into commercial use as yet because they are too costly.

FROM A FUGITIVE'S GRAVE.

THE ACCIDENTAL DISCOVERY OF THE BODY OF MR. ROBERT L. LIVINGSTON IN THE OLD PRESBYTERIAN CHURCH—ITS REMOVAL TO THE LIVINGSTON MANSION—A SEARCH OF THE LIVINGSTON PAPERS.

ACTING UNDER THE DIRECTION OF MR. SMITH TOMPKINS, the Washington representative of the family, an undertaker last week removed from the old Presbyterian grave yard the remains of the wife of Hon. Robert L. Livingston, a distinguished member of one of the noblest families that ever resided in this country.

After a most illustrious career the chancellor expired in February, 1815, at his seat at Clermont, and the family vault, as before mentioned, contains his body and that of his wife. In 1876 an American lady residing in France presented to the New York Historical Society a portrait of the chancellor, painted by John Vanderlyn, a famous American artist.

SMITH TOMPKINS AS A PEDAGOGUE. How He Tried His Hand at Teaching School, With Only Moderate Success.

MR. LIVINGSTON'S DEATH. Mrs. Livingston died in 1814 while on a visit to Washington. This incident recalls to mind the history of this celebrated family.

THE S. S. ATLANTA WAS LYING IN THE HISTORIC HARBOR OF YORKTOWN, VA.

ON THURSDAY LAST, almost within the shadow of the lofty monument that marks the spot where Cornwallis gave over his sword to Gen. Washington; and though no one on board could enjoy the day at his home, as all would have preferred to do, it was still a day pleasantly passed.
