

Couriers of Spring At PERRY'S.

COME in and see the new EMBROIDERIES. They are beautiful. No matter whether you have got used for them now or not—see them while they are all together—before some anxious hand lay hold of them and pluck the prettiest. They are "just over." The first of the spring fashions to land. The first of the first—the choicest of all. Won't you appreciate that the designs we show are a digest of all that are created. We go carefully—selecting thoughtfully. Order exclusively. Different from everybody's. Better, we think. What do you think? All we need now is your approval.

This is only the beginning—as the year grows older the stock will be added to. But, as all these patterns are "limited," they cannot be duplicated here. That is one reason why we want you to keep an eye on each "edition." What would suit best may be in this first lot—and the first to go.

If You Were Given a Dollar

In exchange for 60c. you would no doubt think the exchange a profitable one—for you. We don't profess to carry on our business by snapping a dollar greenback for 50c. in silver, but we do, in nearly the same result is accomplished when we offer TOMORROW

10 China Closets

Natural Oak = \$8 English Oak = \$8

Actually cost us \$13.25

These Closets have 5 shelves, glass doors and sides, shelves are grooved, polished brass finishes, railing on top, are 5 feet 6 inches in height and 4 feet in width. This is not one of the so-called bargain other furniture houses may advertise and which leaves the purchaser a sadder and sadder man for person, but it is a genuine mark down, owing to a lack of briskness in this particular department. Our reason for adopting this radical course is that we wish to improve the quality of furniture buying public of the District of Columbia that ours shall be the center toward which the eyes of seekers after big Furniture, Carpet and Upholstery values may be profitably turned. The moral of this is keep your eye on this space.

It Pays To Kick!

—when you are not treated right—never let anybody walk over you or palm something off on you that you don't want. Don't let the grocer "bulldoze" you into accepting an inferior flour when you have expressly ordered "Ceres." He doesn't make as much profit on it as an inferior flour, but you get more for your money in buying

Ceres Flour

—than in buying any other flour in the world.

Inferior flours are begged to imitate Ceres—do not be fooled! Look inside for the circular, signed in autograph by Wm. M. Galt & Co., and bearing the imprint of two gold medals.
