**AND STILL THEY COME.**  
 Although the biennial encampment of the Knights of Pythias is now fairly under way, both the 6th street depot and the Baltimore and Ohio depot today present scenes of bustle and activity. The crowds of citizens which were very much in evi-

**Pythians and Visitors Have Been Arriving in Great Numbers Today.**  
 The officers of the Indiana brigade held a meeting last evening in their headquarters tent. Considerable routine business was disposed of, but nothing of importance outside of purely brigade matters was touched upon. The question of the encampment of Indianapolis for the encampment in 1898 was informally discussed, but no action looking to the appointment of committees was taken. It was brought out in the meeting last night that Indianapolis will have the support of ten of the strongest brigades encamped here in her efforts to secure the next encampment, Louisville, so the Indiana men claim, has practically dropped out of the race, leaving Minneapolis and St. Paul as the only formidable rivals of the hoosier capital. The Grand Lodge of Indiana is out in a circular letter, in which the various advantages which would accrue to the order if Indianapolis is selected as the next meeting place are set forth in detail. The letter is signed by Jas. M. Hatfield, grand chancellor, and Frank Bowers, G. K. R. S.

**Indianapolis is the most centrally located of any city in the United States** which may extend an invitation, the pensioners say. Continuing, the Indianians urge that Indianapolis is "only twenty miles from the center of population of the United States, according to the government survey. It is also in the very center of a great network of railroads, leading to all points of the great west, and is therefore more accessible than any other city. Sixteen different through railroad lines enter the city, which, with connections at terminal points in other states, can be found in the United States, and every accommodation is afforded the traveling public by the managers of the various railroad lines. The finest railroad system in the world is to be found in Indianapolis, for the reason that the distance between two Indianapolis and the greater number of localities from which the representatives of our great order come is shorter and more direct, without change, than that to other cities; besides we have greater competition among the railroads.

It is possible that hold another meeting tonight to discuss more fully their plan of campaign to bring about the selection of Indianapolis as the next meeting place of the Grand Lodge of the Knights of Pythias.

**WELCOME TO KOPF HOT SAUSAGE**

A Homely Welcome.  
 Since yesterday have diminished noticeably in numbers, but the reception committees and messengers are still on duty and do not lack for work.

During yesterday afternoon and last night both depots resembled immense beehives, for almost without intermission sir knights in divisions and battalions rolled in, and to martial music moved off to quarters. Swarms of citizens also alighted from every train. Undoubtedly the largest contingent to reach Washington at any one time during the night was a crowd from the south that arrived at 11:30 o'clock. At 5:30 a.m. today a colored excursion of great magnitude came into town. Shortly after 7 o'clock there was a rush which kept the reception committees and the two scores of messengers decidedly busy. Philadelphia added several hundred people to the floating population of Washington by train load at 11:35 a.m., and New York city at 1:40 o'clock this afternoon made its presence known. A crowd from Danville, Va., and vicinity struck town at 2:30, and at 2:45 a detachment from the west gilded in, while New York sent hundreds more people over on two trains, which arrived at 3:10 and 3:15 p.m., respectively. A crowd from Richmond reached the city at 3:40 o'clock.

The trains carrying Pythians due this afternoon and tonight are as follows: 4:25 Chicago and the west; 4:35 p.m., Chicago limited; 6:45 p.m., Philadelphia; 7:42 p.m., Baltimore accommodation; 7:50 p.m., Quantico accommodation; 7:50 p.m., Niagara Falls, Chicago and the west; 8:45 p.m., New York; 8:45 p.m., New York; 10:25 p.m., New York; and 11:10 p.m., Jacksonville.

Large delegations of knights and civilians are also almost constantly arriving at the Baltimore and Ohio depot, the majority coming from Maryland, while Ohio and Pennsylvania are furnishing large numbers. At midnight a New York delegation, comprising three infantry divisions and one mounted division, accompanied by horses and a band, came in. The Pittsburgh train reached here this morning, fifteen hours late, having been delayed by a wreck at Petrolia.

In spite of the fact that such a large number of visitors have arrived, the committee has accommodations at its disposal for thousands more. This is probably due to the fact that a large portion of the newcomers are quartered with friends and relatives in Washington. At the 6th street depot Messrs. Levy, Donnelly and Turner extend an invitation to the encampment in the comfort committees, daily since Friday morning from 7 a.m. till 12 m., while Mr. John H. Mitchell has been tireless in his efforts in looking out for the work at both depots. In addition to supplying accommodations the committees have accomplished valuable work in furnishing information of every description to thousands who have sought it. The committees will remain on duty at the depots until 4 p.m. each, at which hour the parade is scheduled to start.

**CLAIMS OF INDIANAPOLIS.**

**THE AVENUE WILL BE A Blaze of Light.**  
 The committee on illumination of Pennsylvania avenue have been very persistent in their endeavors to make their branch of the work successful, and there is every reason to believe to-morrow night will come with a grand display upon the avenue from the Capitol to the treasury. The business men along the avenue are embracing the idea with considerable enthusiasm, and in spite of the change, tomorrow night will be a radiant one on the avenue. Old Sol will have hid his face behind the darkness of night, but the blaze of lights formed by the use of electricity, gas and candles will almost turn night into day. The committee has personally interviewed many of the merchants, and they have promised to create as large a display as possible. Immense quantities of gas jets, lanterns in various shapes and incandescent lights and large electric globes will be among the interesting novelties.

It is possible that Marion Division of Indiana may not compete in the drill tomorrow. It is stated that they have lost a track, and this loss will handicap them.
