

motion and communication was declared to be less important than the ownership of the newspapers by the people.

Miss Willard, "to manufacture by the newspaper just as scientifically as cloth is woven by the loom."

It was urged that a committee be appointed by the convention to ascertain in how many cases buildings in this country states strong drink is sold, either covertly or openly.

The personal statement was made that state announcements indicate for me loyalty to the pledges assumed by our leaders is likely to be false, in the future as in the past.

"I have not turned populist," said Miss Willard, "though I hope that populists and prohibitionists may be agreed and walk together before long."

On other topics Miss Willard said: "The practical method of relieving the labor market of the competition of women is to make their wages the same as the wages of men."

Miss Willard did not believe in compromises. She said: "Half-way measures blur the straight line of ethical perception and set back movements that can only be carried to success by out and out methods."

"It is idle to talk of personal liberty. The day is long enough to allow anybody a corporal's guard among the intelligent and thoughtful. The trend of socialistic thought, which makes the good of the community the end of all things, is a movement, has so far outranked the unbridled action of the individual, that in England there is already being formed a national union in this country within the fire limit of our large cities. In Germany, to cut down a tree is an offense against the state, and the value of the trees as a whole is greater to the people than the interest of any one person in any one tree. In France, no striking of the sense of beauty that no one is allowed to make an alteration in his house till the day has been passed by the authorities appointed by the city. It is of more importance that Paris, as a whole, should be beautiful than that the personal whim of any individual should be gratified at the door or window that he prefers should be considered. On the principle that every protected from possible injury, the law is based the rationale of every law on any statute book."

In the course of her address Miss Willard referred to the Non-partisan W. C. T. U. and sent it greetings with the wish that the two great leagues may come together. This expression was applauded by the convention with hearty applause.

Again when Miss Willard spoke of the denouncement of a Breckinridge and the denunciation of a Tammany ring, the applause was tremendous.

The meeting of the Ladies Henry Somerset evoked a storm of applause.

After a rising vote of thanks to Miss Willard, she reached a ten o'clock night at the tent of the convention.

Corresponding Secretary's Report. "The National Women's Christian Temperance Union is a great organization giving in this year of grace, to our country, to our majority. While nearly all churches, missionary and charitable societies mourn a deficit in finances and the consequent crippling of their work, we come to our annual meeting with increased membership, every bill paid, and a more overflowing treasury than any previous year has shown."

LATE NEWS BY WIRE

Disgraceful State of Affairs in the Indian Territory. BANDITS ESTABLISH A REIGN OF TERROR

Organized Bands Plunder and Murder at Will. MARSHAL'S POWER WEAK

LITTLE ROCK, Ark., November 16.—In the opinion of Maj. C. B. Moore, a prominent attorney of this city, who has just returned from a trip to the Indian territory, where Bandit Bill Cook and his reckless followers hold sway, the situation in the territory is indescribable. There is practically no such thing as the enforcement of the law, and the bandits are virtually unmolested in their appalling depredations.

ST. ASAPH, Va., November 16.—The attendance at the St. Asaph track this afternoon was by far the largest of the meeting. The track was in splendid condition. The card was an excellent one, and twenty-three bookmakers, an increase of six over yesterday, did a very large business.

DR. McCOSH DYING. The Venerable Educator Passing Away Calmly and Tranquilly.

PRINCETON, N. J., November 16.—Dr. James McCosh passed a quiet night, but is gradually sinking, and has not long to live. Professor Hunt offered prayer for the venerable doctor at morning chapel, after which Dr. Francis Patton made a few remarks, in the course of which he said: "The doctor is a man of great character, and is dying of weakness resulting from old age. The doctor is very low, and in all probability will not survive the night of the day. He approaches the gates of heaven in calm and peaceful, with Christian fortitude and an unshaken faith."

THE ATTACK ON PORT ARTHUR. Expected to Be Made Yesterday or Today.

CAN'T BE CONSTRUCTED NOW. A number of applications have been made of late for a sewer to be constructed under the assessment system in alley in square 28, Georgetown. Today Capt. Beach, in his report to the Commissioners, says that the sewer cannot be constructed, for the reason that the health officer is unable to certify that the sewer is necessary for public health, safety or comfort, and for further reasons that the owners of the balance of the property, which would be assessed for this sewer, object to its construction under the assessment system.

Infected Animals to Be Killed. The chief of the bureau of animal industries recently made an inspection of the herd of cattle at the Washington Asylum and found that nine of them had been slaughtered once and the stable inspected. The bureau allowed \$150 for the cows destroyed. The slaughter of these animals was found necessary for the following reasons: There was danger of the attendants contracting tuberculosis from inhaling the dust arising from the herd; the danger to the consumers of milk, because although the instructions are to boil this milk before using, there is always a possibility that careless help may not carry out these instructions in all cases. New animals brought into the stable while the diseased ones are there will contract the disease, and in that manner it will be kept up indefinitely. It is not consistent to require individual owners to isolate their herds in a healthy condition while herds belonging to the District are in such a deplorable condition. The Commissioners are acting upon the recommendation issued an order for the killing of the animals.

Building Permits. The building permits today were as follows: John F. Burke, one brick building at 1514 1/2 street northwest, cost \$4,000. J. N. Reesor, one frame dwelling on Little Falls road, to cost \$1,000. E. Kubel, one brick private stable in the rear of 10 C street northeast, to cost \$200. R. E. Columbus, one brick dwelling, 2223 R street northwest, to cost \$7,500.

Opposed the Project. The Commissioners this afternoon gave a public hearing to those interested in the opening of an alley in square 72. Mr. M. I. W. Kelly was the only one present. He opposed the project.

Miscellaneous. The Commissioners have appointed James Lamb patrol wagon driver.

FINANCE TRADE

Speculation Without Significant Feature. OUTSIDE INVESTORS NOT DRAWN IN

Manhattan the Feature of the Railways. GENERAL MARKET REPORTS

NEW YORK, November 16.—The professional element was practically unassisted in its efforts to make values in today's stock market. The day's trading was, therefore, void of any significant feature and lacked purpose. The occasional covering of short contracts, marked prices up fractionally from an irregular opening, but attracted no new business. The loaning rate on nearly all active stocks is all that stands between the aggressiveness of the bear party and lower prices. The street has been disappointed in its efforts to attract the attention of outside investors, and the unfavorable comparison between present prices and those of a week ago is directly attributable to this cause. The after-election flurry was unwarranted by the actual conditions and the investment public was not to be deceived into purchasing stocks from pools at advances resulting from manipulation movements.

Manhattan was again the feature of the railway lists, selling down 1-3-4 per cent. further attacks from the bear element. Alton was all the way up, and the Erie property. The inroads into the company's earnings, resulting from surface competition and the supposed liquidation of long stock, are the reasons usually given for the decline. The coal situation has not changed, and the market for foreign exchange opened firm with a rise of 1-3-4 in advance of those demanded yesterday.

A fair demand from both bankers and importers is reported. The market for gold imports were characterized as preposterous by bankers, as the movement of gold from the other side could only be effected at a loss of nearly 30 per cent to the local importer.

The week's operations at the subtreasury have resulted in a gain of nearly \$700,000. The banks, and the currency movement, are expected to result from the interior currency movement. The shipments of currency have been principally to southern points.

The market rallied during the last hour from previous low prices, and the pressure to sell steadily lessened. Final figures were irregular, but in the main steady.

FINANCIAL AND COMMERCIAL. The following are the opening, the highest and the lowest prices for the day reported by the New York stock market today.

Stocks. Open. High. Low. Close. American Sugar, 67 1/2, 68 1/2, 67 1/2, 67 1/2. American Sugar, 67 1/2, 68 1/2, 67 1/2, 67 1/2.

A Boy Thrown in Front of a Street Car. Shortly after 1 o'clock this afternoon a horse attached to one of Schneider and Berens' bakery wagons became unmanageable at the corner of North Capitol and P streets northwest. Patrick Dennigan, a white boy, eleven years old, living at 226 O street northwest, who was in the wagon, was thrown in front of the car.

No More Smallpox. There was one suspicious case of small pox reported to the health office this morning, but whether or not it is genuine is not yet known. Dr. Woodward stated to a Star reporter this afternoon that he feels confident that the threatened contagion has been stamped out. He bases this opinion on the fact that the period for possible incubation from the cases that developed about two weeks ago has passed. The only sources of danger, according to Dr. Woodward, are the cases of small pox that those patients being enclosed in private houses, not in the hospital. Every precaution is being taken to isolate these cases, and no person and no article is allowed to leave the houses in question.

The Late Wm. J. Stephenson's Estate. The late Wm. J. Stephenson's estate, as pointed by Judge Hagner administrator of the estate of her late husband, William J. Stephenson, who was president of the Metropolitan Railway Company. According to Mrs. Stephenson the personal estate of the deceased consisted of a large amount of furniture and a half interest in stocks and bonds belonging to Stephenson & Bro., amounting to \$125,000. The administrator is required to give bond in the sum of \$20,000.

The Corcoran Estate. In the suit in equity, July 28 last, by William Corcoran and heirs against William Corcoran Eustis and others, to interpleat the will of the late Wm. Corcoran, the defendants today made answer. Wm. Corcoran Eustis states that he believes it was the intention of his grandfather in the second item of the will to give Mrs. Corcoran and Mrs. Charles H. Eustis, who had deceased, \$5,000 each. Marie Louise Hitchcock and Thomas Hitchcock, Jr., aver that they should be paid to each of certain legatees.
