

SPECIAL NOTICES.

THE WASHINGTON HUMANE SOCIETY, ROOMS 10 and 12 second floor, CORCORAN BUILDING, 1400 F. ave. S.W. will thank CITIZENS who will report any DESTRUCTION of any of the following animals...

Art's beautified Mantels & Fireplaces. Our showing of Mantels and Fireplaces is responsible for the high demand to come now better than ever...

Renovate your wheel with an application of our SELF-DRIVING BICYCLE ENAMEL. No letter made by a wheel. Will make a new looking wheel out of your old one.

Expansionsists. anti-expansionists will approve of the "Wernicke" because, which is made as complete as any desired. It's a system of units when one unit is filled another is ready to take its place.

Leave your books behind in the city. We'll re-bind and keep them until you're ready to take them to the boat.

UMBRELLA for the WAGON. Here's a good, strong Wagon Umbrella for \$1.50. Improved fastenings. Drivers, you can't find a better Umbrella for the money!

I Made \$1,000 on the first 500 letters mailed. So writes the principal of Wood's Commercial College in a letter to Process-Preparer Letters.

Hundreds of Roofs that were given up as gone have been saved by our rubber roof paint and made to last 5 years longer.

Easton & Rupp, 421 11th St. Men's Furnishings. Lowered prices are the order of the day. Judge the other reductions by these:

NEGLES FOR COMFORT! A shirt that's cool and comfortable is bound to look like that. There's nothing as comfortable as a shirt that's cool and comfortable.

TEEL'S, 1329 F St. Let us make you a sample shirt to order. Judge the other reductions by these:

Plumbing and Gas Fitting. We are now ready for your repair work in Plumbing, Heating, and Gas Fitting.

You need a Tonic. Such as a tonic to help you through the exhausting heat of summer. It is the purest whisky made, and acts as a tonic and stimulant.

ELECTRIC FANS. Extremely Low Prices. Special prices in lots. JOHN C. RAU, Contractor for Electric Work and Supplies.

Delegations Have Asked Permission to Present Names. Several delegations have asked permission to call at the White House this week in regard to the vacancy caused by the resignation of Judge Walter S. Cox.

Arrested for Alleged Theft. Malachi Ballard, colored, was arrested this morning by Policeman Sullivan on a charge of stealing a horse and vehicle belonging to J. H. Dabney, the undertaker.

Now that the roof gardens are in vogue it seems that at least the drama has been ready elevated.

THE NEW MODEL BASIN

Determining the Resistance of a Full-Sized Vessel. Experiments to be Made at the Navy Yard—Result of the Construction Bureau's Efforts.

The value of towing experiments upon small scale models of ships for the purpose of determining the resistance of a full-sized ship from that of the small model was demonstrated by the late Mr. William Froude, who at his own expense started a small tank for such experimental work at Torquay, England, about 1870.

The construction bureau of our Navy Department has appreciated for many years the value of an experimental basin, but it was for a long time unable to secure an appropriation for the purpose.

The basin is located in the southeast corner of the Washington navy yard. The building is 500 feet long and about 50 feet wide inside. The water surface of the basin is slightly shorter than the building.

The basin is filled from the water system of Washington, which holds 1,000,000 gallons. Two electrical centrifugal pumps are provided, the larger of which will empty the tank in about four hours.

The smaller pump is a four-inch pump used for draining the last water from the basin and also for pumping the water from outside the basin to avoid the possibility of undue pressure upon it in case it is left empty for some time.

The nature of the ground was such as to render the construction of a thoroughly light and stable basin somewhat difficult, but owing to the small space available at the Washington yard, it was necessary to locate it upon its present site.

The bottom of the basin proper is made up of a layer of broken stone upon which is a thin layer of concrete, then a half-inch of Neuchâtel asphalt, then about 9 inches of concrete in 16-foot lengths.

The heavy side walls are 6 feet thick at the bottom, 6 feet deep and about 4 feet 6 inches thick on the top, not counting the molded stone coping. They are in 40-foot lengths, with a square key between adjacent lengths filled with Bermudez asphalt.

The shallow part of the tank at the southern extension is also carried on piling, as it actually overhangs the water.

The contractors for the building and the tank in about four hours. The smaller pump is a four-inch pump used for draining the last water from the basin and also for pumping the water from outside the basin to avoid the possibility of undue pressure upon it in case it is left empty for some time.

TAKOMA PARK JUBILANT

Result of Election Yesterday a Cause of Great Rejoicing. The citizens of Takoma Park, Md., consider that they have occasion to rejoice today on their own account, as well as to celebrate the nation's birthday anniversary, owing to the fact that the election held yesterday resulted in favor of the bonding of the town for the purpose of putting in water works and sewers along the populated streets of the Maryland portion of the town.

Ever since June 5, when the town council passed the ordinance allowing the vote of the people to be held July 3 as to whether they would adopt the water works and sewer system, an active campaign has been going on, and at one time during the past month it looked pretty blue for the projectors, but after the movement had been explained thoroughly things began to look better, and the voters, excited in the evening of eighty-six votes for the measure and fourteen votes against it.

The one hundred voters cast constituted the voters of the town, and at no time since the park has been established has it exceeded that number. The polls were open from 10 o'clock in the morning until 6 p. m. in the evening, and considerable activity was displayed throughout the day. There had been no regular political campaign, but the excitement, as has been the custom in the town, and the residents are, as a rule, so elated over the result of yesterday's election that the absence of definite plans for the observance seems not to be noticed.

Last night was the regular time for the monthly meeting of the town council, and also showed the appreciation of the town. CONTINUED HIGH TEMPERATURE. Probably Showers and Cooler Weather Wednesday. Forecast till 8 p. m. Wednesday—For the District of Columbia, Delaware and Maryland, increasing to heavy rain tonight, with continued high temperature; showers and cooler Wednesday night; high southerly winds, increasing.

Weather conditions and general forecast for the District of Columbia, Delaware and Maryland, increasing to heavy rain tonight, with continued high temperature; showers and cooler Wednesday night; high southerly winds, increasing.

The pressure continues high off the Atlantic and north Pacific coasts, and a high pressure area has developed over Manitoba, Ontario, and the Ohio valley; from New Mexico to Ontario. Showers have fallen in this trough, in the Missouri valley and on the south Atlantic coast. The temperature has remained stationary in all districts.

Showers and cooler may be expected in the Ohio valley, and the Ohio valley; fair and continued high temperature in the Atlantic states, except showers on the south Atlantic coast. On Wednesday the unsettled condition will extend to the Atlantic coast, giving showers and cooler weather at night or Thursday.

Light to fresh southwesterly winds will prevail over the District of Columbia, Delaware and Maryland, with a high temperature in the southern winds on the middle Atlantic coast and variable winds on the south Atlantic coast.

The following heavy precipitation (in inches) has been reported during the past twenty-four hours: Keokuk, 1.08; Kansas City, 1.22; Charleston, 1.22; Grand Haven, 1.54; Chicago, 2.16; Milwaukee, 1.06.

The following were the readings of the thermometer and barometer at the weather bureau for the twenty-four hours beginning July 3: Thermometer: July 3-4 p. m., 80; 8 p. m., 80; 12 midnight, 72; July 4-4 a. m., 68; 8 a. m., 75; 12 noon, 86; 2 p. m., 88. Maximum, 88 p. m., July 3; minimum, 67, at 3 a. m., July 4.

Barometer: July 3-4 p. m., 30.05; 8 p. m., 30.02; 12 midnight, 30.03; July 4-4 a. m., 30.02; 8 a. m., 30.12; 2 p. m., 30.03.

Condition of the Water. Temperature and condition of water at 8 a. m.: Great Falls, temperature, 80; condition, 36; receiving reservoir, temperature, 80; condition at north connection, 36; condition at south connection, 36; Grand reservoir, temperature, 80; condition at inlet gate house, 36; outlet gate house, 36.

Tide Table. Today—Low tide, 11:50 a. m. and 11:58 p. m.; high tide, 5:04 a. m. and 5:41 p. m. Tomorrow—Low tide, 12:41 p. m.; high tide, 6:00 a. m. and 6:40 p. m.

The Sun and Moon. Today—Sun rises, 4:37 a. m.; sun sets, 7:32 p. m. Moon rises, 2:32 a. m. tomorrow. Tomorrow—Sun rises, 4:37 a. m.; sun sets, 7:32 p. m.

The City Lights. Gas lamps all lighted by 8:27 p. m.; extinguishing begun at 3:49 a. m. The lighting is begun one hour before the time named.

Gas lamps lighted at 8:22 p. m.; extinguishing at 4:04 a. m.

READY FOR TRIAL. Hearing of Case Against Alleged Murderers of the Rosensteins. Special Dispatch to The Evening Star.

FREDERICK, Md., July 4.—Armstrong, alias Humphrey Taylor and John Brown, colored, who are under indictment for the murder of Louis and Dora Rosenstein, at Sidcot, Montgomery county, will be put on trial here tomorrow morning. The former also killed Sergt. Fritz Passau of the police force in Washington the day he was captured.

Both prisoners say they are ready for trial, and will be represented by counsel. They were in jail Sunday night when four prisoners escaped, but they were on the opposite side of the prison. Neither of them, it is said, heard any noise made by the men getting out.

The state is ready to proceed with the trial tomorrow, and in all probability there will be no delay in the case. State Attorney Kliger of Montgomery county, where the crime was committed, will have charge of the prosecution, and he will be assisted by the prosecutor of this county, Mr. Kliger went last week to Washington and got together some testimony. Detective Helen and Policeman Berkert, Burrows and Easley, all of Washington, will be in attendance tomorrow, and their testimony will be of considerable importance to the case, so far as Taylor is concerned.

It is not yet known just what the state will be able to prove in the case of Brown, other than what was outlined in the statements of Taylor.

CAUSED BY FIRECRACKERS. Blaze Today Which Caused Damage to Amount of \$700. About noon today an alarm was turned in from box 38 for fire at the house of Robt. G. Sutton, No. 921 19th street northwest. The fire was caused by the throwing of firecrackers on the roof, and about \$700 damage was done to the house.

The flames spread to the house of Joseph Weaver, next door, and damaged his property to the extent of \$100.

Pleasing Entertainment. What is regarded by many as the event of the outdoor festivities in Hyattsville for the season so far was the lawn social given by the Baptist Church and Sunday school yesterday evening on the grounds of Mr. and Mrs. W. I. Smith. Ice cream and various flavors, different kinds of cake and an abundance of delicious lemonade was served at 8 o'clock, and the evening was a special enjoyment. One feature particularly commended was the genuinely social character of the occasion, and the entire absence of ticket selling.

Infant Found in Woodshed. About 6:30 o'clock this morning Officer Betts found a live male infant in the woodshed of the vacant house No. 1835 R street northwest. The child was sent to the Foundling Hospital.

In Use for Over 30 Years. THE CENTRA COMPANY, NEW YORK CITY.
