Threatened Inroads on China

Before the question of dealing with the Philippine Islands arose, while the islands were still in the possession of Spain and it was not anticipated that they would ever become a part of the domain of the United States, the problem of dealing with the "eastern question" was under consideration by the President, the Secretary of State and the leading men in Congress who are familiar with international matters. The British general, who was wounded at Dundee, is recovering at Dundee. He was a member of the House of Commons. He was a member of the House of Commons. He was a member of the House of Commons.

Our Interest Drawn to the Orient

When the question came up before the United States whether or not the cessation of the Philippines should be demanded of Spain as a condition of peace, and the President was reluctant to have this country assume responsibility for possession so remote from our shores, influences both in this country and in Great Britain, which were alive to the importance of the situation in China, still to be adjusted, were excited to bring about the acquisition of that group of islands by the United States, so as to secure to us an interest in the orient which would at once compel and enable us to participate in the adjustment of the "eastern question" which must inevitably come.
