

FACES CHARGE OF ARSON

A Chinaman Arraigned in the Criminal Court.

Picturesque Scenes Enacted Before Justice Cole Proceedings Conducted in Polygot.

Chinese and English clashed and collided in Criminal Court No. 2, where Justice Cole presided, today. The occasion was the trial of Charles Yuen, a Chinese laundryman, indicted for arson, it being alleged that on the evening of December 17 last he set fire to premises No. 35 C street south-east, occupied by Lee Sen, also.

The witnesses were not sworn on headless checkers, as is customary in courts regulated by the laws of Confucius, but were examined after being sworn on the Bible through the medium of Moy Got. A specimen of the course of examination may be given as follows:

District Attorney Taylor: "Ask him if he saw the defendant Charles Yuen before the fire?"

Moy Got given his answer in Chinese and Moy Got repeats it to Attorney Taylor: "He say he saw Charley Yuen the day before the fire, and he say Charley say to him 'You had better be careful, for I have a hundred dollars or to make trouble plenty enough if he not send it.'"

Another Chinaman named Lee Hung was called, and testified that he had rented a C street and substituted the upper part of the premises to Lee Sen.

Officer Brady's Testimony. Officer Walter S. Brady of the sixth precinct did not need an interpreter. He testified to arresting Charles Yuen Monday, December 28, the day after the fire, at the Baltimore and Ohio depot, between 2 and 3 o'clock in the morning. Witness suspected the man and drew him into conversation. The latter said his name was Moy Sing and that he lived in Philadelphia. Witness took him to the station house, where he was identified as Charles Yuen. When searched a small sum of money and a straight ticket to Philadelphia were found.

Assistant Fire Chief William T. Bell testified to the damage done by the fire, which had originated in the back room on the ground floor. The fire was extinguished by the fire department. Witness said there was no indication that the place was set on fire, as everything had been destroyed. Witness could not tell how long the fire might have been burning before it was discovered. The alarm was struck at 6:47 p.m., December 17.

Government Rests Case. With Mr. Bell's testimony Attorney Taylor announced that the government's case in chief was closed. Justice Cole overruled a motion of defendant's attorney to instruct the jury to acquit his client and the defense opened its side with the defendant on the stand. The latter, who speaks English, testified that he was not at the place when the fire broke out and did not know the name of the man who set the fire.

He admitted having told Officer Brady at the depot that his name was Moy Sing, and that he was a Chinaman. "Is that your name?" "My father give me that name."

"Well, is your name Charles Yuen, too?" "Yes, my teacher call me Charles Yuen." Moy-Charles said it was customary for Chinamen in this country to be doubled up in nomenclature in this manner.

DISTRICT IN CONGRESS. The East Washington and Benning Railway has introduced in the House the Commissioners' bill (H. R. 7428) to provide for the compulsory support of children in the District. It provides "That any person within the District of Columbia who shall willfully and unnecessarily refuse or neglect to provide for any child under the age of fourteen years of which he or she shall be the parent or guardian such food, clothing and shelter as will prevent the suffering and secure the safety of such child shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be subject to punishment by a fine of not more than \$100 or by imprisonment in the workhouse of the District of Columbia for not more than three months, or both such fine and imprisonment."

East Washington and Benning R.R. Mr. Mudd (by request) has introduced a bill in the House (H. R. 7342) providing that Robinson White and Ellmore Beall of Maryland, and A. J. Curtis, Milletus J. Wine, George H. Judd, Frederick E. Chapin, Smith Thompson, Jr., Frederick M. Patterson, Fred G. Ankam, J. M. Gregory, E. C. Cook, Theodore J. King, Thomas J. Downey, A. O. Bahendriker and Joseph H. Fague of Washington be created a body corporate under the name of the East Washington and Benning Railway Company of the District of Columbia. The corporation is authorized to operate a single or double track railway to run east thereon propelled by electricity or other mechanical power to be approved by the Commissioners of the District of Columbia, and to carry passengers, parcels, milk, truck and merchandise over and along the following routes and roads in the District of Columbia.

Beginning at the intersection of Florida avenue and K street northeast; thence northeast on K street to the street connecting with Pennsylvania avenue; thence east on Pennsylvania avenue to 12th street; thence south on 12th street to the street connecting with the Potomac river; thence on a trestle bridge, to be built by the company in accordance with the plans to be approved by the Commissioners of the District of Columbia or the Secretary of War; thence in the same direction to the south side of the Baltimore and Ohio railroad to a point about 1,500 feet north of the Benning road where it crosses the Baltimore and Ohio railroad at Benning; thence by suitable curved tracks to a point east of the Anacostia road; thence to the District line by such route as the Commissioners of the District of Columbia shall approve, the line to be located alongside or near the Benning road and Central avenue, but not their right-of-way.

Provided, That the line of railway herein authorized and provided for, from the intersection of 8th and H streets northeast to Pennsylvania avenue south to the point 100 feet north of the north abutment of the bridge across the Eastern branch of the Potomac river shall be the double-track underground electric trolley system, similar to that of the Metropolitan Railroad Company, and the conductors of the trolley shall be operated by the lines of that company farther north of the railroad than 100 feet from the north abutment of the bridge across the Eastern branch of the Potomac river. And provided further, That the lines hereby authorized to be constructed south and east of the north abutment of the bridge shall be of the double overhead trolley construction, and that no portion of the electric circuit shall be through earth, and that each motor car shall be provided with a double trolley, and that no earth connection shall be made with any dynamo furnishing power for the cars.

Free transfers are provided as follows: With the Capital Traction Company, at 8th street and Pennsylvania avenue northeast; the Metropolitan Railroad Company, at 8th street east and East Capitol street; the City and Suburban, at 8th street east, and 8th and D streets, and the Columbia railway, at 8th and H streets northeast, and the companies are required to issue free transfers to their passengers on a continuous ride over the East Washington and Benning railway, and vice versa.

AGAINST BARKSDALE'S BILL. Virginia Senate Committee on Elections Reports Adversely. The RICHMOND, Va., January 26.—The senate committee on privileges and elections reports adversely on Senator Barksdale's bill prohibiting the use of money in elections, designed to break up fraud and bribery, do not pass. A big fight will be made on the bill in the Senate. Senator Barksdale, the author of the bill, has openly threatened that if the legislature turns down his measure he will show up to the world what he has to do to elect a senator. He has already been successful in getting a large number of candidates for office are openly buying votes at the polls.

Transport Pennsylvania Sails. SAN FRANCISCO, January 26.—The transport Pennsylvania sailed Thursday for Manila. She carries \$1,500,000 in gold coin and a considerable sum in treasury notes for the payment of the soldiers. Two government printers, three men to assist in putting up a refrigerating plant at Manila and twenty men of the hospital service, also went along. The Pennsylvania carries a large cargo of army supplies.

MUCH COLDER TONIGHT

Ten Degrees Above Zero Will Probably Be Recorded.

Sudden Change Due to a Severe Storm Now Raging in New England.

Old Boreas, Jupiter Pluvius and the other deities of the upper regions where weather is invented evidently grew weary of the rain yesterday, because when night fell they got together and blew the clouds feller kelter to the southwest. At the same time Col. Jack Frost got in some licks, and together the meteorological powers made muddle existence out of doors in this neck of the woods unpleasant in the extreme. The wind came in gusts from the northwest, being offshoots from the severe storm in progress further up toward Canada and now raging in New England. The sudden change in temperature made it seem colder than it really was, as the record fell from 48 degrees at 4 p.m. yesterday to 29 degrees at 8 a.m. today.

Shivering Tonight. The weather bureau reported this afternoon that it would be considerably colder tonight, and that the mercury would sink very probably to 10 degrees above zero, although the wind will diminish substantially. Those contemplating the theater or other evening pleasures will be wise, therefore, to fortify themselves with earmuffs and other warming things.

The most serious feature of the cold snap will be in its effect upon the poor, and the demand for fuel at the Associated Charities will increase today, which is certain to be augmented while the spell continues. The requests for relief at the Central Union Mission were also more numerous.

OUTLINED PLAN OF PROCEDURE.

Meeting of the Reorganized Board of Ordnance. The newly organized board of ordnance and fortifications held its first meeting at the War Department this afternoon and outlined a general line of business procedure. All the members were present, with the Maj. Gen. Miles ex-officio president, in the chair. Mr. Henderson of Illinois, who succeeds Mr. Outwhaite as the civilian member of the board, arrived here this morning and subscribed to the oath of office before

Mr. Thompson, a notary public in the office of the chief clerk of the War Department. The other members of the board are: Gen. Wilson, chief of engineers; Gen. Buffington, chief of ordnance, and Col. John I. Rodgers, 5th Artillery.

FIVE KILLED, EIGHT WOUNDED. Result of Dynamite Explosion at Ashley, Pa., Last Night. WILKESBARRE, Pa., January 25.—Five men killed and eight badly injured is the result of the runaway train and the explosion of dynamite that followed on the Central railroad of New Jersey at Ashley last night. The complete list of the dead is as follows:

Frank McLaughlin, brakeman, aged twenty-eight, single. Michael Bird, brakeman, aged twenty-two, single. Peter Frey, engine driver, aged sixteen. Charles Haney, aged fifteen, and an unknown tramp. Many thrilling escapes are chronicled. John Thomas, an invalid, was thrown out of bed onto a hot stove. He was rescued by the other members of the family. Floors and ceilings in several houses were torn loose and the crockery and window glass broken generally. The freight car containing the dynamite was crushed into a mangled mass and a large hole torn into the roadway. Six locomotives and seventy freight cars were wrecked. Conductor Law and Edward Meehan, a brakeman, and Robert Carroll were in the caboose and the freight engine and had narrow escapes. The caboose rocked like a ship at sea, and the freight cars were crushed into a mangled mass. It will take two days for the wrecking crews to clear away the debris. The accident was due to a long train of freight cars running away and crashing into a locomotive near the round house. The shock exploded thirty boxes of dynamite in one of the cars.

ACCESSIONS TO THE NAVY.

Four Battle Ships to Go Into Active Service. The new battleships will be in active service in the American navy in the early fall. These are the battle ships Kearsarge, Kentucky, Alabama and Wisconsin. The Kearsarge will be placed in commission about February 20, under the command of Capt. W. M. Folger, and the battle ship Kentucky will shortly be ready for duty. The Wisconsin will be in commission about April 1, under the command of Capt. C. M. Chester. Capt. W. H. Brownson will command the battle ship Alabama, which will probably be ready for service in May.

The Kearsarge, the Kentucky and the Alabama will be attached to the North Atlantic squadron, and the Wisconsin to the Pacific squadron. It is expected that the Wisconsin will be ready for sea September 1. She is under construction at the Union Iron Works, San Francisco. Capt. G. C. Reiter, now in command of the Pacific fleet, is shortly to be relieved from that duty and assigned to duty in connection with the construction of the Wisconsin with the view to assuming command of that vessel. The Wisconsin is commanded by Capt. H. T. Strong, who will probably succeed Capt. Reiter in command of the Philadelphia.

Accidents Will Happen.

John Brown, a G. A. R. veteran, of 2646 Marshall st., Philadelphia, says: "By a mere accident I came across Dr. Agnew's Catarrhal Powder. It was a great success for that dread malady--Catarrh. This wonderful remedy effected a speedy and permanent cure, and I have been so cured that I am willing to spend much time in spreading the good news of this great discovery to all who are afflicted with it." Advertisement for 'Always Favorable' Van Houten's Chocolate. The general opinion concerning the new product Van Houten's Chocolate for eating--which has been on sale to the public for some time--is highly favorable. The public recognize that this Chocolate ranks as highly among chocolates for eating as Van Houten's Cocoa does among cocoas; in other words, that Van Houten's Chocolate excels in delicious flavor, and in wholesomeness of composition. Every day much harm is done by the excessive consumption of cheap confectionaries and chocolates of inferior quality, doubtful taste and doubtful composition. Why not abstain from these altogether, and substitute the digestible, wholesome Van Houten's Chocolate (For Eating)? Sold in Tins of Croquettes and Tins of Drops. Also in Square Tablets and Small Bars.
