In Washington.

Every Claim is Backed by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Washington, what can it be?

L. Kianer, retired, of 808 7th st. s.w., says: "I don't know whether the backache was caused from kidney troubles, but I judged so from the results in my case from the use of your Doan's Kidney Pills. The ache lay across the small of my back and was a dull, heavy, throbbing pain, almost constant. I could hardly get off a chair without feeling like something so that would use my arms to help me get up. At night the aching was very severe and kept me awake a great deal, breaking my rest and affecting my general health. Nothing seemed to bring me any relief although I tried all kinds of remedies and treatments, until I got Doan's Kidney Pills at Stevens' Pharmacy, corner of 9th and Penn. ave. Since I treated myself with these pills I have been freed from backache and my back is strong enough again so that I can depend upon it. I am all pleased to recommend this fine remedy to other sufferers."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

WHY BUY A STECK PIANO?

Because it has been before the public for over half a century, and the general verdict is that it is good and reliable, excelling in every way, and is indorsed by leading musicians. Read what the great composer, Richard Wagner, has to say about it:

"The fine Grand Piano of George Steck & Co. of New York, which I have obtained, is everywhere acknowledged to be excellent. My great friend, Franz Liszt, expressed the liveliest satisfaction after he played upon it. The magnificent instrument has taken up its useful abode in my home, where it will ever serve for my pleasant entertainment."

If it was good enough for Liszt and Wagner is it not good enough for you? We will be pleased to have you call and see and hear and try the

STECK PIANO.

Vigilant Ready for Launching.

The new propeller for the harbor police boat Vigilant was placed on her yesterday evening, but, owing to the very low tide, she could not be launched. As soon as the tide permits her to be launched she will return to service. When the boat was out on the railway it was broken up by sheathing on her hull had been ripped off by the ice in places, and this has all been replaced. Two blades of the broken propeller of the Vigilant were broken up close to the hub and about a third of the remaining blade was missing.
