Let me join upon every member the necessity of the ladies' auxiliaries; they are a valuable adjunct, and I request the members to do all in their power to assist them."

MICHIGAN EXTOLLED.

Distinguished Speakers at Annual Banquet of Local State Association.

The virtues of Michigan were extolled to the fullest extent last evening, when more than one hundred Washingtonians who claim the wolverine state as their native birthplace, gathered around the banquet table at Rauscher's. The occasion was in celebration of the sixty-ninth anniversary of the admission of Michigan into the Union, and the speakers told of her pioneers and of her progress during two-thirds of a century.

Senator Alger could not refrain from making a strong defense of the beet sugar industry, which is fast becoming one of Michigan's greatest assets, and he declared that the people of the United States (which course, includes the people of Michigan) should be protected in their industries, even if it did work to the disadvantage of the Filipino. Judging from the applause that followed this expression, the senator had voiced the sentiment of the meeting.

Mr. Fred C. Coldren, president of the association, welcomed the members and guests in a brief speech, and then introduced the toastmaster of the evening, Gertrude J. Diekmann, formerly speaker of the Michigan House of Representatives and prominently mentioned as a candidate for governor.

Mr. Coldren spoke of the "Boyhood Days of Michigan." Among those who responded to the toast were Representative Charles Townsend, Edwin Denny, Truman Newberry, assistant secretary of the navy; Representative H. C. Young and Henry H. Rose, the secretary of the State in addition to President Coldren, the officers of the association are: Vice president, Lucius E. Gridley; secretary, Benjamin A. Harlan, and treasurer, Carl O. Mackham.

MAY BE WATER FAMINE.

Superintendent McFarland Calls Attention to Wanton Waste.

Water waste in the District of Columbia was the subject of further comment yesterday in the course of a report to the engineer department by H. B. Davis, superintendent of plumbing. Mr. Davis spoke particularly of the waste in the public schools, where, he said, the drinking fountains were in many instances permitted to run on Saturdays, Sundays and holidays. The report will be forwarded to the board of education.

The same matter was the subject of a further report by Superintendent McFarland of the water department, in which he stated that if the water waste continues there will be great difficulty in preventing a water famine. Mr. McFarland called attention to a particular instance in two adjoining houses where the scheme of meter installation was tested. In one house he said, the water bill for a year would have amounted to \$1,000, while in the other it would not have exceeded \$5.

ROLL CALL OF PRINTERS.

No Desertions Since Beginning of Big Strike.

At the roll call of the journeymen printers who are on strike for an eight-hour workday at the headquarters this morning it was shown that there has not been the loss of a single man by desertion since the walkout took place, the morning of January 4. Chairman T. C. Parsons announced that M. Terrence V. Powderly, former commissioner of immigration and at one time at the head of the Knights of Labor, would address the striking printers and their friends at the 8th and D streets northwest, at 2 o'clock this afternoon. Chairman Terrence V. Powderly was a "veteran worker in the world of labor," and urged that there be a large attendance to hear him talk on the eight-hour situation.

It is understood that the printers' eight-hour committee will soon make a detailed reply to the statement recently issued by the Typothetae, which set forth the employing printers' side of the controversy.
