

Barber & Ross.

THINK of a refrigerator that proves a temperature of 6 degrees above freezing.

To appreciate the full significance of this very cold temperature you must consider that the temperature of the ordinary refrigerator seldom falls below 50.

The "BOHN REFRIGERATOR" proves a temperature of 38 to 40 degrees above freezing. At this very low temperature liquids begin to congeal and only 4 degrees lower—they freeze.

A temperature like this will keep your foodstuffs and drinkables pure and sweet in the hottest weather.

The Bohn Refrigerators are shown in all sizes ranging from \$25 up.

We have other good refrigerators at reasonable prices—the best of their kind on the market.

Sanitary STONE WHITE Lining Refrigerators at \$26 up

JEWETT Dry-air Refrigerators at \$8.50 up

JEWETT Dry-air Ice Boxes at \$6.25 up

NURSERY Refrigerators at \$2.50 up

Barber & Ross, 11th and G Sts.

B. RICH'S SONS.

"If they're Rich's Shoes, they're proper."

Ten-one F St., Cor. 10th. Entire Building.

This stock and variety fully answers the question of just what to buy in Footwear for the Vacation.

There isn't a need in footwear, no matter where you go, which cannot be filled from this very comprehensive stock and assortment.

For dress, there are to be seen here all the correct effects in Pumps and Ties, embracing the exceedingly dainty "Alexandra" Ties, "Christy" Ties, "Gibson" Ties and "Venus" Pumps, in dull and brilliant leathers—all exclusive and distinctive in character.

For playing at the various sports which are the diversion of those in social circles, we are showing special footwear. Special footwear for golfing, for tennis playing, for yachting, for riding, hunting. Special footwear for those who are going abroad for wear while aboard ship—made with rubber soles to prevent slipping.

Special footwear for wear in the mountains where sturdy footwear is necessary to withstand the rough usage of long walks and mountain climbing.

Attention is directed to our very complete showing of canvas and buckskin footwear, which includes all the fashions which are being worn by particular people.

B. Rich's Sons,

Ten-one F St., Cor. 10th.

Church Dedication Sunday Next.

Announcement has been made that the dedication of the recently completed St. Anthony's Catholic Church at North Chesapeake Beach, Md., will take place next Sunday, July 1. Rev. Dr. D. J. Stafford, pastor of St. Patrick's Catholic Church, will be the officiating clergyman and will deliver the sermon.

A large number of the clergy will be in attendance. Arrangements have been made for a special train to leave Chesapeake Beach Junction at 6:20 o'clock Sunday morning, on which train Dr. Stafford and the attending clergy will make the trip. The ceremony of dedication will take place immediately after the arrival of the train at Chesapeake Beach.

Presidential Nominations of Maryland Officials.

Plans for the Next Rifle Matches at Sea Girt.

Plans are being perfected for holding the next grand national rifle match at Sea Girt, N. J. Although the national government has a range at Fort Riley, Kans., the only one that the general government of present owns and controls which is worthy of the designation of a national range, the national board for the promotion of rifle practice decided to hold the next match (as the last) at Sea Girt, pending the improvements at Fort Riley.

Gen. Bird W. Spencer, commanding officer of the New Jersey National Guard, informs the national board for the promotion of rifle practice that "when the improvements in course of construction at Sea Girt are complete we will have fifty-six targets at 200 yards, forty-two at 300 yards, forty at 500 yards, forty-two at 600 yards, forty at 800 yards and forty at 1,000; twenty-five revolver targets and twenty-four groups of Skirmish targets, a total number of firing points of 341. This is the largest range probably in the world, except the famous Blisley range in England."

The matches of the National Rifle Association will be held at the same time as those of the national board in September.

An important change from the program of last year has been made by the national board for the promotion of rifle practice. Last year the national individual match was shot first, that the marksmen might have the benefit of the practice before shooting on the teams in the national match. There were some 600 entries for the individual match—over 500—that considerable time was wasted in the preliminaries. It is now proposed to make the coming national individual match the greatest ever shot in this country. The details cannot yet be announced, but it may be said that certain cash prizes provided by the national government will be supplemented handsomely by others from the friends of rifle practice.

Promotions in Ordnance Department.

The act reorganizing the ordnance department of the army will result in the promotion to the next higher grades of two lieutenant colonels, five majors and twelve captains and will make eligible to detail as first lieutenants 120 officers of the line who are now detailed as first lieutenants in the ordnance department. The officers to be promoted are Lieut. Col. S. E. Hunt and Frank Heath, Maj. Rogers Birnie, Ira MacNutt, Frank Baker, O. E. Hinchman and L. E. Bruff and Capt. J. T. Thompson, C. B. Wheeler, S. P. Pierce, G. W. Burr, C. L. H. Ruggles, O. C. Horney, George Montgomery, H. B. Fisher, J. C. Jamieson, J. W. Joyce and J. E. Hoffer. The first lieutenants who become eligible for detail as captains are L. T. Hillman, H. B. Jones and Edward M. Schink.

Cutters for Santo Domingo.

The Navy Department was asked by the War Department to detail a naval constructor to inspect the four revenue cutters which Lewis Nixon is building for the Dominican government. Naval Constructor W. J. Baxter, head of the department of construction and repair at the New York yard, has been instructed to designate one of his assistants to make the inspection in addition to his regular duties in Brooklyn. The new cutters are to be seven-hundred-ton gunboats, each with two gun engines and the complement of each ship will consist of two officers and ten men.

Naval Contracts for Shell.

The chief of ordnance of the navy has recommended the award of contracts for a large quantity of shell for the navy as follows: To the Fifth-Stirling Company, target shells of quantities and calibers as follows: Three thousand 18-inch, 900 12-inch, 500 10-inch, 2,000 8-inch, 1,200 7-inch and 2,000 6-inch. The American-British Ordnance Company, 8,000 6-inch and 5,000 5-inch target shell. The E. W. Bliss Company, 5,000 common shell of 5-inch caliber.

Military Maneuver Camps.

It is the purpose to have the seven great military camps established in every case not later than August 1, except those at Mount Gretna, Pa., Chickamauga Park and Annapolis, Md., which must be established before July 20, and that of Annapolis, Md., Washington, which must be established by August 10. Commanding officers are informed that the camps must be conducted with the maximum of drill and discipline, and a minimum of formal ceremonies "and a total absence of merely spectacular exhibitions." The camps will be in session from September 30, except that at Annapolis, Md., which will run until October 15, and that at the War Department indicate that they will put into actual service under the conditions the greatest number of militiamen ever assembled in the country in a period of peace.

Monument to the Bennington Dead.

The contract for the monument to those who perished in the recent boiler explosion on board the United States steamer Bennington has been awarded to the Simpson Granite Company of San Diego. The monument is to be a plain granite obelisk, sixty feet in height, placed at the west end of the grave, wherein the majority of the men who lost their lives in the military cemetery on Point Loma. It will bear on one face this simple dedication: "To the Bennington's dead, July 21, 1862." The monument will be erected by the officers and men of the Pacific squadron to the memory of those who lost their lives in the performance of duty.

Rifle and Pistol Competition.

Orders issued by the general staff provide for the rifle competitions of the United States army for the year 1906. The place for the Atlantic division at Fort Niagara, N. Y.; August 1; Northern division at Fort Sheridan, Ill.; August 6; Pacific division at the Presidio, Monterey, Cal.; July 30; Southwestern division at Fort Sill, Okla.; August 8, and the general competition for the entire army at Fort Benning, Ga., August 20. The pistol competition will be held on the same place immediately following the rifle competitions.

In Honor of President Harrison.

The new military post near Indianapolis, Ind., now under construction, has been designated as Fort Benjamin Harrison, in honor of the late President of the United States, in an official order issued by Secretary Taft.

Preparing Naval Rifle Team.

A squad of more than forty enlisted men of the navy has reported to Lieut. Harris Loring at Annapolis for instruction and practice in rifle shooting in preparation for the matches this fall. Lieut. Loring coached the midshipmen's team the past season and the men now at Annapolis seven represented the navy in the rifle competitions last year, while the others were recruited from the vessels of the fleet. The squad is being trained by Lieut. Loring, who has been taken from each of the twelve most important vessels of that fleet. The squad will be entered in the rifle matches at Creedmore, L. I., July 25 to 31, and in the national competitions at Sea Girt, N. J., August 27 to September 6.

GENERAL NEWS GATHERED

ON THE RIVER FRONT

The numerous canning factories that line the tributaries of the Potomac in Maryland and Virginia along its lower end are preparing for a busy season canning tomatoes for the winter market. Reports coming from down river state that the crop of tomatoes will be unusually large, and the packers are preparing for a large pack for the season. A number of the larger plants are now at work canning berries of various kinds for the markets here and at Baltimore. The crop of berries and cherries is reported to be good, and the output of the factories will be quite large.

GENERAL AND PERSONAL

Garbage collecting wagon No. 43, in charge of Charles H. Smith of 707 Delaware avenue southwest, became stalled in front of premises 8822 M street northwest and in turning the team the above premises, which are owned by Mary E. Kilduff of 8818 M street, were damaged.

SENATE'S SANCTION.

The following bills were passed by the Senate yesterday: Amending section 2571 Revised Statutes, relative to special licenses for the loading and unloading of vessels from foreign ports; authorizing a pontoon bridge across the Mississippi river at Prairie du Chien, Wis.; amending the law incorporating the Washington and Western Maryland Railroad Company; permitting the building of a dam across the Mississippi river in Sherburne county, Minn.; opening up the land of the (Chief Dwellers) National Park in Colorado; authorizing the Secretary of War to furnish gun carriage to the town of Ripley, Tenn.

ADMIRAL GOODRICH THANKED.

Through the State and Navy Departments Rear Admiral Goodrich, U.S.N., has been thanked by the Mexican government for his assistance in stamping out an epidemic of diphtheria at Magdalena Bay, Mex. Admiral Goodrich sent surgeons of the Pacific squadron ashore to minister to the sick and assist the local physicians in fighting the scourge.

KNOWS NOW

DOCTOR WAS FOOLED BY HIS OWN CASE FOR A TIME. It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts. A physician speaks of his own experience: "I had used coffee for years and really did not exactly believe it was injuring me, although I had palpitation of the heart every day. 'Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and I believe it was coffee and not Postum that was the cause of my heart trouble. 'I had used coffee for years and really did not exactly believe it was injuring me, although I had palpitation of the heart every day. 'Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and I believe it was coffee and not Postum that was the cause of my heart trouble. 'When I explained that he had not been long to him. He visited a sales stable not far from the market and took a horse out on trial. Before making a purchase he was anxious to know something of the qualities of the horse, and it was for the purpose of testing its speed that he took a drive. He went west as far as 14th street and then turned south. All went well until Bicycle Policeman Holmes saw him and went in pursuit. 'Your horse was going at the rate of sixteen miles an hour,' the policeman told the driver, although his speedometer registered the speed at seventeen miles. 'But,' said Watson, 'it's not my horse. 'When he explained that he was only trying the animal the policeman expressed sympathy, but could not refrain from making the arrest. Watson deposited \$10 collateral at the first precinct station, for his appearance in the Police Court tomorrow morning.
