## Rambling Address to American People for Help.

### CZAR TREMBLING FOR LIFE

#### All Semblance of Law in Russia Destroyed.

#### POLICY OF BESTIAL REPRISALS

#### World Will Be Appalled by Reign of Lawlessness and Deeds of Violence, He Now Thinks.

Maxim Gorky yesterday issued a hysterical appeal to the American people for help for his suffering countrymen. He pays his compliments in no mistaken terms to the czar and draws a revolting picture of what he thinks will happen in Russia in the near future. America is not doing her duty in the premises, he declares.

NEW YORK, July 28.—Maxim Gorky today made public an appeal directed to the people of America to "help the people of Russia to free its body from the parasites which suck its life blood." The appeal was in part as follows:

"This small man, trembling on his throne for his life and power like an aspen leaf, has with one stroke of his pen destroyed all semblance of law in Russia and called into life a new series of murders, robberies and outrages.

"The Russian government will now inaugurate a policy of brutal and bestial reprisals. The hangmen and thieves surrounding the throne and supporting it with blood-stained hands have of late heard many bitter words from the lips of the courageous and honest men. They will avenge themselves for it, and their vengeance will be severe.

Will Appal the World.

"Embittered, accustomed to shed blood and encouraged by the reign of lawlessness, they will once more appal the world by their deeds. They will commence to annihilate and destroy the leaders of the people, and having destroyed the leaders they will again declare war on the people, the unarmed and defenseless people who are dreaming of peace and civilization, and who have been impatiently hoping for the triumph of justice.

The black, blood-soaked wings of death will flutter over the country for months. The exhausted earth will swallow thousands of corpses of men whose only crime was the desire to live a human life. Many women and children will perish from bullets, swords and clubs. Many crying outrages will be perpetrated. The world will be horrified and appalled.

# DESTOWS HIGH HONOR

## Carnegie Foundation's Award to Dr. Wm. T. Harris.

### A RETIRING ALLOWANCE

#### Three Thousand Dollars Per Annum for Meritorious Service

#### IN THE CAUSE OF EDUCATION

#### First American to Be Given the Distinction—Copies of the Correspondence.

Dr. William T. Harris, ex-commissioner of education, has the distinguished honor of being the first American educator to be selected by the Carnegie Foundation for the Advancement of Teaching to receive the highest retiring allowance, an annual income of \$3,000 for meritorious service in the cause of education.

While the tender of the annuity and its acceptance was made two months ago, before Dr. Harris sent in his resignation as commissioner of education, he only decided yesterday to give out the correspondence.

Since making the proffer to Dr. Harris the Carnegie Foundation has made several other allowances, but that to the ex-commissioner remains the first and the highest.

Dr. Harris is the recipient of countless letters from educators and friends who congratulate him and the foundation as well upon the initial recognition of one who for so many years has been foremost in the cause of education.

The Award Announced.

The letter which was addressed to Dr. Harris announcing the award was as follows:

"My Dear Dr. Harris: I am sending to you a check for \$3,000 per annum by the trustees of the Carnegie foundation

INCREASED IMMIGRATION.

#### Over 73,000 More Came Last Year Than in Previous Year.

Revised figures indicate that the immigration to this country during the fiscal year ending June 30 last was 73,574 greater than it was during the fiscal year of 1905. The immigration during the year last past aggregated 1,100,073, against 1,026,499 for the previous year. It is notable that the class of immigrants was not so high as in many previous years, most of them coming from Austria-Hungary, Russia and Italy.

Dr. William T. Harris.

for the granting of retiring allowances, together with a copy of the act of incorporation.

"The executive committee of the foundation desires in its first step to show that it has been a success in its recognition of meritorious service, not as acts of charity. It has seemed to them that they could best serve this purpose by tendering to few men who have rendered great service to education places at the head of what they wish to make a roll of honor. There is naturally no other name connected with American education which is so identified with its progress for the last thirty years as yours. We should like in the future to have a list of such men, and to have the work of the bureau along this line will be continued with vigor.

Highest Retiring Allowance.

"If it is agreeable to you, therefore, we should be glad to confer on you, as the first man to whom such recognition for meritorious service is given, the highest retiring allowance which our rules will allow, an annual income of \$3,000, of which, under the rules, one-half would be paid to Mrs. Harris should she survive you.

"I beg that you will inform me of your wishes in this matter.

"In communicating to you this wish of the executive committee I am commissioned to express at the same time their hope that you may accept this action as indicative of the highest appreciation and esteem which they can express.

"I may add that this action is taken in virtue of the following rule, adopted by the trustees of the foundation on April 9, but not included in the published rules:

"Meritorious service—Retiring allowances may be conferred for meritorious service on teachers who have served not less than twenty years as professors, who have rendered unusual or extraordinary service to education or who have in a conspicuous and unusual manner. Each case must be considered on its merits.

The letter was signed by Henry S. Pritchett.

Dr. Harris Responds.

To this letter Dr. Harris forwarded to Dr. Pritchett the following response:

"My Dear Sir: Your favor of May 20, present month, is received, enclosing a copy of the rules adopted by the trustees of the Carnegie foundation for the granting of retiring allowances and notifying me of the action of the executive committee of the foundation offering to confer upon me."

"As the first man to whom such recognition for meritorious service is given, the highest retiring allowance which our rules will allow, an annual income of \$3,000, of which, under the rules, one-half would be paid to Mrs. Harris should she survive you.

"And further expressing to me in a delicate manner the kindly sentiments of appreciation and esteem of the executive committee in taking this action. In reply permit me to say that I accept the generous offer of the Carnegie foundation with profound gratitude for the delicate and honorable expressions of esteem and appreciation with which it is tendered.

"Permit me to say that I have never in my life before been so completely taken by surprise nor have I ever before received so high an honor."

### Committed in Russian Poland Yesterday.

#### A NUMBER OF LIVES LOST

#### Two Generals, Two Officials and Five Soldiers Victims.

#### 1 ROBBER KILLED, 1 WOUNDED

#### Large Sums of Government Money Secured in Both Instances—Robbers Escaped With Booty.

WARSAW, July 28.—Two daring train robberies were committed in Russian Poland today, one of them resulting in a considerable loss of life. A train from the frontier station Herby bound for Czenstochowa was carrying money received from the customs house to the branch of the imperial bank under protection of seven frontier guardsmen. Gen. Zukat, chief of the frontier guard; Gen. Wettenring, chief of the customs service of Warsaw; Col. Brzezicki and Capt. Laguna were passengers.

Fifteen persons boarded the train at a way station. They evidently had been waiting for it and made an attack on the guardsmen, who were reinforced by the officers named. A regular skirmish followed, in which the two generals, two officials, five soldiers and one robber were killed, and Col. Brzezicki and one robber wounded.

All the wounded and dead were taken to Czenstochowa. The robbers escaped, taking \$50,000 of the money and those who attempted to defend the train against robbery.

The Second Robbery.

The second robbery was committed this evening on the Warsaw-Vienna railway six miles from Warsaw. While the train was under way unknown persons pulled the danger signal, causing it to stop. Robbers, who were aboard, jumped out and seized the locomotive and detached the mail car from the train and ran it down the line.

The robbers carried off government money. The train was without a guard, and hence there was no fighting and no casualties.

The robber who lies wounded at Czenstochowa is in a serious condition. He refuses to give any information whatsoever concerning his accomplices.

Public disorder is growing daily throughout Russian Poland. Today a panic outbreak in a public park here. Many shops were fired and one person was killed and four were wounded. It is believed to have been an attempt by revolutionary agents to precipitate an outbreak.

NO WAGE AGREEMENT.

#### Conference of Glass Bottle Men and Workmen Failed.

ATLANTIC CITY, N. J., July 28.—Members of the Glass Bottle and Vial Manufacturers and the wage committee of the National Glass Bottle Blowers' Association, representing the 10,000 workmen in the factories of the United States and Canada, adjourned tonight after a total disagreement over the wage schedule for the coming year. The manufacturers, headed by John Ralston, president of the Cunningham Glass Company of Pittsburg, insisted on their demand for a reduction in the wage scale of 33 per cent, while the men stood out for a continuance of the scale paid last year without formal agreement.

President Dana, Hayes of the blowers, who heads his committee, stated tonight that the disagreement would not be likely to result in a strike or lock-out, owing to the present high price for glass, but admitted that there is little chance for a further conference that would result in an agreement to sign a scale. The chief complaint advanced by the manufacturers was a reduction in the competition of non-union labor and the installation of machines, but the men claim that neither issue has resulted in any material reduction in the selling price of ware. The workmen's committee advanced the proposition that manufacturers in control of machines for a conference concerning the rates to be paid to the machine operators during the coming year.
