An elegant little six-room brick house n.w.; close to two car lines; 15-foot side alley; side lights. House has just been newly painted and papered throughout. Large bath room; all new plumbing. Large closets.

Price, \$3,500.
J. W. CRAIG,
410 Colorado Bldg.

There Are Other Reasons
WHY SAUL'S ADDITION TO THE CITY OF WASHINGTON presents the most advantageous opportunity for buying a home, and at the same time securing the most profitable investment that has been offered to the Washington man-of-family during the past ten years.

The ground in this subdivision, and in fact all around it in every direction, has an absolute, rock-bottom value of from \$7,000 to \$10,000 per acre, and yet, after deducting 40 per cent of area in plating this subdivision, devoted to extra wide streets and avenues, lots in SAUL'S ADDITION are now being sold at a cheaper price BY THE FOOT than the identical ground can be bought BY THE ACRE. Of course, this generous offer by the SAUL ESTATE will not continue indefinitely, but it enables present buyers to secure by all odds more for their money than any proposition ever offered on the market.

Remember, this vast estate has remained intact while everything about it has developed, and now that it is to be parceled out, there is a chance for you to get the benefit of its exploitation.

Superb residences, with every conceivable item of comfort, can be had in this choice suburb as cheap as \$6,000, with payments as small as \$1,000 cash and the balance on reasonable terms. Lots can be had, with your own choice of site, at from \$1,600 to \$2,300 less than their value by the acre. The purchase of either a house or a lot represents a gilt-edged investment, convertible into money at any future date at an assuredly increased value.

PLATS AND OTHER INFORMATION furnished on application. An intelligent representative constantly in attendance at our branch office at 14th and Delafield streets, SAUL'S ADDITION.

Conditions in Cuba
LETTER FROM COL. WOETHERSPOON AT HAWAII.

Conditions in Cuba are depicted by Col. Wotherspoon of the general staff at Havana in a recent letter to Gen. Barry, acting chief of staff, in part as follows:

One Case of Yellow Fever.
"The men are comfortably housed and the officers comfortably quartered—in nearly all cases in the old barracks, which are being renovated and put in order. The health of the command is most remarkably good. There are hardly any men in the hospital, and none at all, with the exception of Lieut. Wiley, with anything of an account. Wiley came here as a transport quartermaster, visited a friend in the city of Havana, nine miles away from the location of any troops, and evidently contracted the yellow fever by wandering around the streets after sunset, for it is between sunset and daylight that these pests are most active and dangerous. The latest news from Lieut. Wiley is that his disease is very slight and the case is progressing satisfactorily. It was found out that he had it just as he was about to sail on the Simmer, and a mosquito of the kind that does the job was found in his room. Of course, he did not catch it from that one."

"Now that we have the troops pretty well distributed, with their transportation, over the island, in a few days we will start practice marches all over the island practically simultaneously. The artillery will test the roads in every direction from Camp Columbia near Havana, and the cavalry the trails, and the infantry the trails and roads in the vicinities of each station, the general idea being that we will show ourselves in all parts of the island as an evi-

TRIBUTE TO SCHURZ
DISTINGUISHED GATHERING AT THE MEMORIAL MEETING.

Choate and Cleveland Eloquent in Their Praise of the Civil Service Reformer.

A dispatch from New York says: "Perhaps he was the most cogent debater of his time. As a senator, a fearless foe of every wrong, an independent champion of every wise reform, setting personal consequence always at defiance where public service was concerned, he has left to the young American of the present generation and the future an example of honesty, courage and patriotism. Oh! for such a senator in our present Senate! Oh! that this state had one such man! Oh! that this state had two such men!"

These words, spoken with all the eloquent fervor for which Joseph H. Choate is famous, caused a remarkable demonstration when the former ambassador to England, in his opening address at the Carl Schurz memorial meeting at Carnegie Hall, eulogized the great German-American as a scholar, soldier, statesman and citizen.

Prolonged and sustained applause greeted Mr. Choate's eulogy for such a man as Carl Schurz as a senator from New York. His plea was taken as one of the most ringing invectives since that of Senator Thomas C. Platt and Senator Chauncey M. Depew that they have received in their careers. Mr. Choate closed his address, as he had commenced, by quoting the words of President Lincoln, transposed: "He had faith that makes right might and he dared to the end to do his duty as he understood it."

A Brilliant Gathering.
Probably never before in the history of New York has there been so many notables gathered on the platform of Carnegie Hall as were there tonight. The meeting was under the auspices of the New York Carl Schurz Memorial committee, which has charge of the arrangements for the establishment of a permanent memorial to Mr. Schurz. To name those on the platform, in the boxes and in the audience would be the roster of those who are famous in the world of finance, literature and politics.

The chairman was former Ambassador Joseph H. Choate, and the speakers were former President Grover Cleveland, President Charles W. Eliot of Harvard, Prof. Eugene Kuhnmann of the University of Breslau, Secretary of the Navy Charles J. Bonaparte, Prof. Herman Schumacher of the University of Bonn, and Booker T. Washington. The music was by the New York Symphony Orchestra, the Deutsche Liederkreis and the Arion Society.

The officers of the memorial committee are Joseph H. Choate, chairman; Gustav H. Schwab and George McAneny, vice chairmen; Isaac H. Seligman, treasurer, and William Corigan, secretary.

The solemnity of the occasion was plainly manifest in the attitude of all present, and genuine regret over the death of the distinguished patriot and statesman was the keynote of every address.

Proposed Permanent Memorial.
In announcing the purposes of the Schurz memorial committee, Mr. Choate said that it was intended primarily to erect a permanent memorial to Mr. Schurz in the form of a monument of bronze, either a statue or otherwise, to be determined later and to be located either in New York city or Washington.

From the residue of the fund collected it is proposed, Mr. Choate said, to provide foundations for the advancement of some of the public causes to which Mr. Schurz gave his most active interest. These in their order would be: The extension of the principle of civil service to the entire extension of the movement for Germanistic culture in the United States and aid in some form for the work for the advancement of the negro and Indian causes carried on at Hampton Institute, in which Mr. Schurz was personally and deeply interested.

Mr. Choate said that the present memorial committee would be supplemented in the work by similar committees in Chicago, St. Louis, Cincinnati, Baltimore, Philadelphia and Boston.

Cleveland's High Eulogy.
Probably the finest tribute of the night was paid to Mr. Schurz by former President Grover Cleveland, who extolled the former's freedom of partisan bonds when they hampered his freedom of belief.

"It would by no means be out of keeping with the occasion to extol the courage of the public," said Mr. Cleveland, "but this physical courage is so much a part of our national character that its recognition is universal, and its stimulation not among our country's needs. What our nation needs, and sorely needs, is more of the patriotism that is born of moral courage, the courage that attacks abuses and struggles for reforms single-handed, without counting opposing numbers or measuring opposing forces."

"In recognition of the affirmation that our government should not be divided, nor disparage political organization or hold aloof from party affiliation. He assumed party relationship as an arrangement for united effort in the accomplishment of purposes which his judgment approved, but he never conceded to party allegiance the test the roads in every direction from Camp Columbia near Havana, and the cavalry the trails, and the infantry the trails and roads in the vicinities of each station, the general idea being that we will show ourselves in all parts of the island as an evi-

self-interest. He entered politics because he saw his duty there, and he found immunity from delinquency in cleansing and purifying his political surroundings."

Declaring that Mr. Schurz never conceded to party allegiance the inflexible guidance of political thought, nor the unquestioned disclaimer of political conduct, Mr. Cleveland said that the din of party contentions is a curse to the still small voice of conscience.

What the audience construed as a reference to the recent candidacy of Mr. Hearst was contained in Mr. Cleveland's statement that "no intelligently patriotic citizen can be blind to the fact that very recently it was more extensively established than ever that the political independence declared and illustrated by Carl Schurz has become a defense and safeguard of the people against the evils that result from the unchallenged growth of irresponsible parties."

Education Congress in Boston.
Arrangements have been made for a meeting of the Social Education Congress in Boston from November 30 until December 2, inclusive. The purpose of the congress, it is stated, is to attract attention to the complexities of modern life and social demand that the youth receive a systematic training for their duties in those civil and social events in which they are to do their work in life and to bring together all of the various forces of the community—the home, the church, the school, business and industry—in order to effect a more general realization of the imperative importance of definite social service in every step of education.

Oregon Desires Reimbursement.
The state of Oregon has filed a petition against the United States in the Court of Claims, setting up, among other things, that during the civil war, at the instance of officials of the United States, it had resorted to extraordinary expenses in the raising of troops, for which it was entitled to be reimbursed. These expenses were for bounties, expenses of the adjutant general's office, supplies, ammunition, etc., together with interest on bonds necessarily issued, and aggregating about \$300,000, to which amount relief is sought. Messrs. Ralston & Biddons and Capt. John Mullan of the city, together with Mr. A. M. Crawford, attorney general of the state of Oregon, appear for the state. The petition sets up, among other things, that somewhat similar relief has been granted in the case of the state of New York as well as other states.

Contract Surgeon Polk D. Brown has been relieved from duty in the Philippines and ordered to San Francisco.

APPROVES ROOT'S SPEECH.
London Times Graciously Pleased to Indorse It.

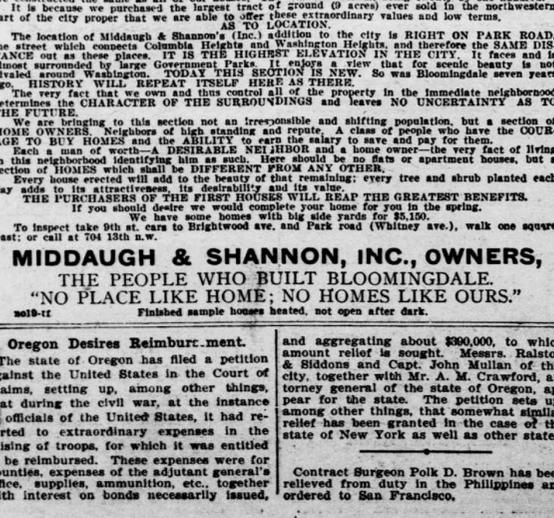

A cablegram from London says: The Times in an editorial article on Secretary Root's speech at Kansas City notes with pleasure that the Secretary gave full credit to England for her share in the original establishment of the Monroe doctrine as an effective political arrangement.

"Mr. Root," says the Times, "recognized the truth of the matter with more explicitness than any other American statesman, who clearly and explicitly accepted the view that the Monroe doctrine, while asserting a privilege, also imposes a corresponding obligation. That is the only practical deduction from the doctrine which Great Britain has any direct concern. It has never called in question the political proposition, which it assisted in establishing."

After remarking that Mr. Root sees some danger of other people getting the South American oyster while the United States is left with the shell, the Times says: "Possibly it is not altogether a coincidence that this stirring appeal to the American people is made just when the American commissioners are visiting Berlin and meeting German commercial experts in negotiations which, however technical, are serious and important. Mr. Root may have desired to intimate that there are limits to the discussion, that encroachments upon economic lines may assume a character so substantially political that the Monroe doctrine would be held to apply."

Requests to Institutions.
Requests of \$250 each are made to St. Joseph's Orphan Asylum, St. Ann's Infant Asylum, St. Rose's Industrial School and Providence Hospital by the terms of the will of Joseph Atkins, dated December 28, 1902, and offered for probate. The residue of the estate is left to Howard N. Hume, son of the late Frank Hume, who is named as executor.
