Correct Clothing. The Smartest Effects.

No better or finer made Clothing in the world than ours. We said that many times, but nevertheless 'tis absolutely true, and we want to convince you of this fact, too. This season's styles are beauties—cut in the proper fashion—the shoulder and collar effect being faultless, due to the one fact that that's the point of the garment which we're "strong" on. We've mastered that effect perfectly, and you know if the collar, shoulders and neck hang right you can rest assured the entire garment is more than perfect. A vast variety of new spring patterns in rich blues, grays and mixtures, worsteds, chevots, cassimeres, serges, etc.

Spring Suits, \$10 to \$35.
Spring Topcoats, \$10 to \$40.

DELEGATES FINALLY CHOSEN

AMERICAN REPRESENTATIVES AT THE HAGUE CONGRESS.

They Will Sail From New York About the Middle of May, Quarters Having Already Been Engaged.

At the close of the cabinet meeting today the personnel of the delegates to The Hague conference was announced. Owing to the growing importance of the approaching congress and the extension of the program so as to include subjects of much greater importance than were to be treated had the body met last summer as originally intended, the number of delegates has been slightly increased. As announced today the United States delegates will be as follows:

Joseph H. Choate, former ambassador to Great Britain; Horace Foster, former ambassador to France; U. M. Ryan of Arkansas, former president of the American Bar Association, and now president of the Arkansas Bar Association; David Jayne Hill, at present minister to the Netherlands and former professor of international law at Rochester University; Brig. Gen. George B. Davis, judge advocate general United States Army, and formerly professor of international law at the United States Military Academy; Rear Admiral Charles S. Sperry, U. S. N., president of the Naval War College; William J. Buchanan, formerly minister to Argentine Republic and Panama, and chairman of the United States delegation to the Rio conference; secretary, Charles H. Miller, of the United States embassy at Vienna, and the son of Senator Hale of Maine; expert in international law, Dr. James Brown Scott, solicitor of the Department of State; Charles H. Butler, reporter of the United States Supreme Court.

The delegates will sail from New York for The Hague about the middle of May and thanks to the forethought of Minister Hill and Gen. Davis will find everything ready for their accommodation, suitable quarters having been reserved for them at the Hotel des Indes, adjacent to the Knights Hall, where the conference will be held.

LABELING OF WHISKY.

Attorney General's Opinion to Be Put Into Action.

The long-expected opinion of Attorney General Bonaparte concerning the proper labeling of whisky under the pure food law, approved June 30, 1906, has been made public at the White House. Its purport is briefly told in the following letter addressed by the President to the Secretary of Agriculture:

"My Dear Mr. Secretary: In accordance with your suggestion, I have submitted the matter concerning the proper labeling of whisky under the pure food law to the Department of Justice. I inclose the Attorney General's opinion. I agree with this opinion and direct that action be taken in accordance with it.

"Straight whisky will be labeled as such. "A mixture of two or more straight whiskies will be labeled blended whisky or whiskies.

"A mixture of straight whisky and ethyl alcohol, provided there is a sufficient amount of straight whisky to make it genuinely a "mixture" will be labeled as compound or, or compounded with, pure grain distillate.

"Imitation whisky will be labeled as such.

"Sincerely yours,
"THEODORE ROOSEVELT."
The Attorney General's opinion as to the proper construction to be placed on the word "blend" was awaited with great interest by distillers and rectifiers in this country. Before the question was sent to the Department of Justice it was very thoroughly investigated by the Department of Agriculture. The questions at issue arose in connection with the labeling or branding of the different kinds of spirits, claimed by their manufacturers or proprietors to be entitled to the word "whisky," with or without qualifying words.

REWARD FOR MARVIN BOY.

Man Who Offers It Promises Immunity From Arrest.

The first message that has been received by the local police regarding the disappearance of Horace N. Marvin, Jr., the four-year-old boy who was kidnapped from the home of his father at Kitts Hammock, near Dover, Del., Monday, March 4, was received today. The message came from William Spencer, living at 2149 Germantown avenue, Philadelphia, and contains an offer of \$1,000 for the return of the boy.

"In making this offer," states the sender of the message, "I wish to make it very clear that the persons delivering this lost boy to me will take no risk of arrest, but in the contrary they can feel perfectly safe and know that I will not betray them and will arrange in a manner whereby they escape from arrest or detection in any way will be certain.

"I sincerely promise any one delivering this boy to me that my lips will be sealed and silent as to the name of the person who gives the slightest clue that might lead to their arrest.

"I will pay cash without asking any questions whatever."

The card contains a likeness and description of the boy.

AFFAIRS IN ALEXANDRIA

REPUBLICAN COMMITTEE OF EIGHTH DISTRICT TO MEET.

Plans for Erection of a Factory—Exhibit by the City at Jamestown.

Special Correspondence of The Star.

ALEXANDRIA, Va., April 12, 1907. Plans have been made by the republican committee of the eighth congressional district to hold a meeting here tomorrow afternoon for the purpose of considering the advisability of placing a candidate in the field for congressional honors. A call for the meeting was issued recently by District Chairman H. P. Dodge of Manassas, who will probably preside.

It is said to be more than probable that the committee will place a candidate in the field, in accordance with the present policy of the party in Virginia. Among those prominently mentioned in connection with the nomination are William B. King of Loudoun and John B. Henderson, Jr., of Alexandria county. In the event it is decided to place a candidate in the field it is understood that the meeting on Monday will be called at an early date to select a candidate.

Dr. A. Luria, president of a Chicago concern, who desires to lease public ground in this city for the establishment of a manufacturing plant, arrived here this morning and is completing all the preliminary details incident to the starting of the work. Dr. Luria will, at an early date, commence the grading of the ground near the old canal locks, and he says that within the next sixty days he will have the foundation for the factory started.

The city council will at its next meeting actually pass upon the lease. The factory will cost not less than \$25,000 and give employment to at least fifty individuals.

EXHIBIT AT JAMESTOWN.

The plan for issuing an illustrated book descriptive of this city, which will constitute Alexandria's exhibit at the Jamestown exposition, was endorsed by the chamber of commerce at a meeting last evening. It was decided by the chamber of commerce to purchase 1,000 copies of the book. The city council at its last meeting made an appropriation for the purchase of 5,000 copies of the book. Several other matters of importance to the merchants of the city were discussed, among them the question of railroad transportation rates.

A lecture was delivered by Mrs. Amy Weech last evening at the First Baptist Church, entitled "Christ Before Pilate." Mrs. Kate Waller Barrett made an address concerning the working of the Children's Home in this city. The services were opened with prayer by Rev. Charles D. Bulla, pastor of the Methodist Episcopal Church South. Rev. Edgar Carpenter, rector of Grace Protestant Episcopal Church, pronounced the benediction.

DEATHS ANNOUNCED.

Mrs. Charlotte Armstrong Falls, wife of Mr. Robert W. Falls, a former resident of this city, died at 5 o'clock this morning in Washington. Mrs. Falls was a sister of the late Anthony Armstrong of this city. The remains were brought here this afternoon and conveyed to the residence of her sister, Miss Louis E. Armstrong, 514 Prince street, and prepared for burial. The interment will be in Ivy Hill cemetery.

The funeral of Mrs. Cora Carroll, wife of Mr. William Carroll, whose death occurred in a Washington hospital Wednesday last, occurred this afternoon at the undertaking establishment of B. Wheatley. The interment was in the Methodist Protestant cemetery.

BRIEF MENTION.

J. Benjamin Waters, Jr., was arraigned in the police court today on suspicion of selling brass to a junk dealer alleged to have been stolen from the Southern Railway Company. He accused was represented by Attorney Lewis. The hearing, at whose instance the case was continued until Monday morning next, owing to the absence of material witnesses.

CHALLENGES ADMIRATION.

Turkish Minister's View of American Freedom.

Chekh Bey, the Turkish minister, delivered an address before the members of the Church of the Epiphany last evening at the monthly meeting of the organization, held in the lecture room of the church. The minister spoke in French. He dwelt at some length upon the admirable administration of the United States government, and during his remarks paid high tribute to the members of his cabinet.

In referring to the attitude of the Turks toward America the minister said: "There is a mistaken idea prevailing among the American people that the Turkish rule is antagonistic to Christianity. Such is not the case, nor has the Turkish government ever manifested such an attitude toward Christianity."

In speaking of the progress of this country the minister declared: "In America the people are blessed with a beautiful liberty and freedom of spirit. They may vote and mold into laws the views of the nation. They are privileged of going before the public and praising or condemning some issue or lifting their voices for reforms that may be beneficial to the nation. It is a beautiful condition that challenges the admiration of the civilized world."

FOUND WIFE HAD ELOPED WITH BURGLAR.

SOUTH NORWALK, Conn., April 12.—"Have gone with the burglar. Are you wise, old fellow? Keep the brats. You will never see me again." This note his wife had left him on the dinner table, and which Ralph A. Webb, a railroad brakeman, found when he got home from work. Returning home unexpectedly at 3 o'clock last Sunday morning he found his front door blocked with the piano; but he pushed his way in, and was confronted by a masked man, who pointed a revolver at his head and threatened to take him if he offered resistance. The supposed burglar escaped through a window. Webb thought it strange when he learned that the intruder had taken nothing. He had no suspicion of the man until he read the note on his wife. The couple have four children, the oldest ten years old, the youngest an infant.

EXCELLENT RECIPES.

Cures Indigestion.

Go to any well-stocked prescription drugstore and get two ounces Essence of Peppin, three ounces of Syrup of Ginger, one ounce Catandrin Compound, mix these well and use in doses of from one to two teaspoonfuls after each meal, and also at bedtime, if conipated. This formula was recently given out by one of the most prominent metropolitan physicians, who declares that it has no equal for all forms of indigestion, dyspepsia and all forms of stomach disorders, such as bloating, belching, sourness, etc. A well-known local druggist, in speaking of this formula, stated that it is prescribed by the most up-to-date physicians. Catandrin Compound being a comparatively new product, many of the old-styled doctors are not familiar with it. He also says that its action on digestion of foods and restoring the stomach to its normal condition is truly remarkable, and that it is constantly being commented on by the medical and drug journals.

A refreshing newness and originality pervade our new models of "Dorothy Dodd" Oxfords. And they have the added charm of being inexpensive. You may have shoes in plenty and for every occasion, without being extravagant. But not less important is the saving of fatigue that comes from the wearing of these faultless fitting, light weight Oxfords. As one wearer remarked the other day:

"THE DOROTHY DODD SHOE IS AS COMFORTABLE AS THE PROVERBIAL GLOVE. IT MAY BE CONSTANTLY WORN FROM THE DAY OF PURCHASE."

MORE STRINGENT LAW

HEALTH OFFICE TO ENFORCE TUBERCULIN TEST.

According to the laws of the District of Columbia the local health department is practically helpless to secure reliable and authoritative statistics in determining what percentage of the cows from which the Washington milk supply is taken are infected with tuberculosis. The only way by which a correct percentage of cows infected can be determined, according to the health officer and prominent veterinarians, is the compulsory application of the tuberculin test. The test, which has been previously described in The Star, is considered practically certain, and the Commissioners will make an earnest effort in the next Congress to obtain a law making these tests compulsory in the District, with a view of reducing the spread of tuberculosis.

There are approximately 10,000 milk cows that supply milk to the local consumers. Numerous estimates were recently made by medical men of the possible percentage of this number that have tuberculosis. Dr. Woodward, the health officer, stated today that he believes 25 per cent, or 2,500 cows out of the 10,000, to be a fair and conservative estimate of the number infected. He based his estimate upon tuberculin tests made with the consent of the dairymen at a dozen or so dairy farms. However, he looks upon these tests as so limited that he would not care to place his estimate on record as authentic.

Speaking of the transmissibility of tuberculosis from diseased cattle to humans, Dr. Woodward quoted a recent report made by the royal commission of Great Britain, which was appointed several years ago by parliament to thoroughly investigate the subject of human and animal tuberculosis and to determine to what extent, if any, the disease is transmissible through milk to humans. The report of this commission shows that without the slightest doubt the disease is

Changes in District Clerical Force.

The probationary term of Miss E. Evans as a clerk in the special assessment division of the assessor's office for six months, which expired today, has been extended until next Tuesday. Upon the recommendation of Assessor Griffin the Commissioners have promoted Agnes F. Entwistle to succeed her. Miss Entwistle is at present a clerk in the assessor's office at \$1,000 a year, and her promotion carried with it an increase of \$200.

Ex-Viceroy Dies Natural Death.

ST. PETERSBURG, April 12.—The death is announced of Prince Goytsin, a former viceroy of the Caucasus. He was associated with General Altkhanoff in the ruthless measures employed last year in putting down agitation in the Kutais district.
