

DRAGGING RIVER FOR HIS BODY.

LIEUT. J. W. CRAWFORD. (Photo by Harris-Ewing.)

books, dragged throughout today for the body, but not a trace of it was found. Shortly after 12 o'clock the crew came back to the city landing for dinner, and they started again about 1 o'clock to continue the search. Until dark the men will work with the grappling hooks.

Sergt. Russell Dean of the harbor precinct who is an experienced river man and has worked on many similar cases, thinks that the body will probably float below Alexandria and that it will be in the river at this city and there is a flood tide for about five hours and an ebb tide for seven hours. On account of the longer duration of the ebb tide, Sergt. Dean believes that the body, moved back and forth, will gradually be carried down the river.

Detective Berman was sent to Alexandria by Inspector Boardman to ascertain there what he could about the missing man. The detective was told of the movements of Lieut. Crawford on the ferryboat, but he did not find anything to indicate that the lieutenant had been in Alexandria.

It was suggested this morning that the lieutenant may have left the boat at Alexandria and gone away, but Detective Berman is satisfied that he jumped overboard.

Worker for the Y. M. C. A. Lieut. Crawford was an active worker in the local Y. M. C. A., and on account of the attention which he gave to the association and its interests he was held in high esteem by its officials and members.

For several years past Lieut. Crawford has been chairman of the committee of directors, and he was in attendance at its meetings.

In the preparations for the international Y. M. C. A. convention in session here Lieut. Crawford was very active, being chairman of the general arrangements committee under Chairman J. B. Slemann, and in addition, chairman of the committee on halls. Lieut. Crawford did his last work for the association before his disappearance in that capacity.

General Berman conferred with Lieut. Crawford yesterday morning about the hearing of the D. A. R. Hall, where the convention sessions are being held. Lieut. Crawford went to the hall and spent some time there in directing the work of cleaning the furnaces and getting them ready for use.

In Best of Spirits. Lieut. Crawford was last seen around the association building about 5:30 o'clock yesterday afternoon. He called at the office of General Secretary Hearne about that time, but found that official out. He exchanged a few words with Miss Bailey, the general secretary's stenographer, and left apparently in the best of spirits.

The admiral was in conversation with a Star reporter today, stating that he did not know the slightest reason for the sudden act of Lieut. Crawford and he was greatly shocked to learn the facts.

ford as his secretary, as being the best man for the purpose then in the Navy list.

By virtue of a law approved December 21, 1864, the admiral of the navy was allowed "a secretary, who shall be entitled to the rank and allowances of a lieutenant in the navy."

The government is paying large round sums of money to Dr. Smith Ely Jelliffe and Dr. Edward N. Brush of Baltimore, not only for the use of their courtrooms throughout the presentation of evidence by the defense and then to go on and stand and state the facts, from the evidence adduced, whether Mr. Bradley was sane or insane at the moment she fired the fatal shots into Senator Brown's chest.

It could not be asked that they sit in the courtroom and hear every scrap of evidence and thus prepare their opinions, because that would have involved the giving up of at least ten days' time by each of the alienists. Arrangements have been made by ex-Judge Orlando Powers of counsel for the defendant.

Today's had weather hurt the attendance at the Benning races, yet the turnout was easily the best of the week. Three feature events were down on the card for decision, the Grand Consolation, the Benning Special and the Hunters' Champion steeplechase, and they were all so well filled and attractive as to make many hundreds brave the rain to witness the sport.

Following are the entries for Monday: First race, handicap; three-year-olds and up; six and one-half furlongs; Columbia course—Dolly Spangler, 126; Comestienne, 122; Oraculum, 118; Berkeley, 117; Oxford, 109; Royal Lady, 107; Simple Honours, 104; Battle Axe, 98; Baby Willie, 94; Yaddo, 90; Rectortown, 90; Frank Lubbock, 88; Listics, 86.

Purpose of the Prosecution—Session Late Yesterday.

That widespread sympathy has been aroused for Mrs. Annie M. All of her counsel are serving without thought of compensation, and it became known yesterday that two prominent alienists have volunteered their aid to the woman.

PRINCIPAL Y. M. C. A. EVENTS

ADDRESSES BY DISTINGUISHED SPEAKERS TODAY.

Details of the Work in Other Lands.

What Will Occur This Evening.

William Jennings Bryan will address a mass meeting this afternoon. He will be introduced by George B. Cortelyou, Secretary of the Treasury.

The newly-elected president of the Y. M. C. A., Judge Seiden P. Spencer of St. Louis, addressed a large gathering of delegates and others this forenoon at Continental Hall.

The statement of Gov. Glenn of North Carolina, at the mass meeting last night, that "next to the religion of Jesus Christ, the press is the greatest power," resulted in a movement today for a line of work among newspaper men.

Many automobiles are engaged in carrying delegates on "Seeing-Washington" tours. J. A. MacDonald of Toronto and Bishop McDowell of Chicago, will be the principal speakers at the Convention Hall meeting this evening, beginning at 7:30 o'clock.

A continuation of the present threatening weather, with occasional rains, is predicted by the weather bureau.

Christian citizenship, as exemplified by the Young Men's Christian Association, will be the topic of an address by William Jennings Bryan at a mass meeting to be held at 4:30 o'clock this afternoon at the south front of the Treasury building.

The new president of the organization, Judge Seiden P. Spencer of St. Louis, presided over a devotional service held this forenoon at Continental Hall on 17th street. The audience was large and enthusiastic one, and the heartfelt applause greeted many of the statements of the noted Nebraskaan.

Bishop Logan H. Roots of Hankow, China, was given an ovation when he declared that the Y. M. C. A. could do the most for China by concentrating its efforts in international politics, because of its undenominational character.

He also argued that no matter what are a man's environments, no matter how low he has been, when he can get his eyes on the possibilities of the future he will rise them, and fly to the heights of the better life.

There will be a song service at Continental Hall, beginning at 7:30 o'clock. The speakers will be J. A. MacDonald of Toronto and Bishop William F. McDowell of Chicago.

Judge Seiden P. Spencer, who was elected president of the Y. M. C. A. convention yesterday afternoon, is a Yale graduate and a prominent member of the St. Louis bar.

RETURN FROM ISTHMIAN TRIP

Hard Work Expended on Estimates for Next Year's Operations on the Great Waterway.

Representative Tawney of Minnesota, prospective chairman of the House committee on appropriations, returned to the city this morning from a trip with a tentative subcommittee to Panama, in the course of which the estimates for work on the Isthmian canal for the next fiscal year were gone over.

Mr. Tawney said this morning that the subcommittee had worked hard on the estimates, taking testimony on the ground and seeing with their own eyes the conditions as they existed. He felt that the trip would prove to have been highly profitable and beneficial to the government and result in actual saving of money, time and effort in the final outcome of the work.

HARVARD STILL CONFIDENT

NOT DISMAYED AT STRENGTH OF YALE

Crowds Reach Cambridge Early, Eager to See the Game Between the Universities.

CAMBRIDGE, Mass., November 23.—Harvard square was bustling with activity and brilliant with the red and the blue when the first of the army of 40,000 people, all eager for today's football game between Harvard and Yale, reached Cambridge.

Additional temporary stands had been erected at the open end, along the side lines and on top of the great structure. The turf was well rolled and entirely free from frost, but yesterday's moist weather had made it a trifle slippery.

Despite the swarm of Yale enthusiasts, all sanguine of victory, the undergraduates of Harvard were still confident, notwithstanding Yale's undoubted strength and brilliant with the red and the blue when the first of the army of 40,000 people, all eager for today's football game between Harvard and Yale, reached Cambridge.

What I propose is that a law be passed guaranteeing that the Treasury would reimburse depositors in every national bank that fails. The law would provide that the national banks meet their obligations by an assessment to be determined by the Treasury. In this way the government would never lose a penny.

Then Mr. Bryan was asked to explain in detail his proposal that the government guarantee the deposits of individuals in national banks, as a means of restoring confidence in the banks, and to him he replied that his proposal was along with the rest of the proposals that come in competition with a trust-made article.
