

of iron and nitroglycerin. The brass jacket broken in half was recovered. Bits of the bomb and portions of the bodies of the two victims were picked up in a hundred yards from where the bomb exploded.

The rioting of today has caused deep concern among the police officials as well as citizens generally. Tonight public sentiment, as systematically gathered from a variety of sources, is even more explosive. Though no one of repute can be found who does not bitterly denounce the act of violence, there are those who believe that the cause is in some measure just. The treatment of the crowd and hold that their serious situation demanded the counsel and management of the wisest and most experienced police authorities.

Needs Drastic Action.

Certainly it is that the city's quarters where it is believed anarchy flourishes will receive housecleaning such as they have never before experienced. Organized labor in this city, which has ever stood solidly against any form of lawlessness, will purge its ranks more rigorously than ever if any lawless element in any quarter is even suspected. It is quite certain that the police authorities will give the situation their most serious and thoughtful attention. There is no doubt that the city every one of anarchistic leanings, but there is also a sentiment strongly in favor of the unemployed who have been the cause of their treatment of the crowd and hold that their serious situation demanded the counsel and management of the wisest and most experienced police authorities.

PLEAD FOR GILLETTE

Family of Doomed Man Appeal to Gov. Hughes.

CLAIM OF NEW EVIDENCE

Submitted at Albany as Basis for a Reprieve.

AFIDAVIT OF CHEMIST FILED

Three Factory Employees, Where Victim Worked, Verified Orally Their Sworn Statements.

ALBANY, N. Y., March 28.—Once more the case of Charles Gillette lies in the hands of Gov. Hughes. What is claimed to be newly discovered evidence was submitted to the governor today, and he will decide whether or not he will reprieve the young man, who, through his interference, would die in the electric chair at Auburn prison, probably in the dawn of next Monday morning.

The gist of the evidence consists of Gillette's family promise to submit to the governor in mass the governor gives them time to do so to the effect that Grace Brown, for whose alleged murder at Big Moose lake in July, 1906, Gillette is sentenced to die, was subject to epileptic seizures, one of which, it is claimed, might account for the bodily injuries disclosed by the autopsy; also that the ribbon in the top of Gillette's straw hat, the absence of which, when the hat was found beside the boat, was pointed out by the family, appeared to indicate a hurried effort to remove means of identification, was in fact torn from the hat nearly a year before.

Executive Chamber Crowded.

The executive chamber was crowded when the hearing began. The only testimony given in public, however, was that of Mrs. Neva Wilcox, Mrs. Elda M. Hoag and Albert H. Gross, all three employees of the Gillette shirt factory at Cortland, where Gillette and Grace Brown both worked. They merely verified orally their affidavits to the effect that Grace Brown had epileptic seizures, which were a matter of common knowledge in the factory.

MINE GAS EXPLODES

TWENTY MEN DEAD IN UNION PACIFIC COLLIERY.

HANNA, Wyo., March 28.—This camp was visited by another disaster today and the lives of twenty men were snuffed out by an explosion of gas in mine No. 1 of the Union Pacific Coal Company. The known dead:

Supt. Alexander Briggs and Foremen Joseph Burton, Alf Dodds and James Knox of mines Nos. 1, 2 and 3, with a crew of sixteen or seventeen gas men and firefighters, went into the workings early this morning to fight the fire, which was rapidly eating its way through the workings.

Opinion on Epilepsy.

"In my opinion all these things (referring to the claims that Grace Brown was subject to epileptic seizures) would be perfectly consistent with, first, an epileptic seizure and a fall, followed by death from complete and violent drowning, and inconsistent with dismemberment from a fall followed by partial drowning."

NORTH POLE SHIFTING.

Theory of British Explorer About Climatic Changes.

VICTORIA, B. C., March 28.—That the north pole is shifting and the climate is changing, making the northern territories of this continent warmer and northern Asia colder, is the theory to support which Joseph B. Colworth of York, Alaska, from whence he has returned on his way to England. A curious effect of this change it is said may be a number of boundary difficulties between Canada and the United States, especially in the eastern portion. The boundary is fixed by latitude, and if the north pole is really moving the latitude changes also, rendering it advisable that the boundary be speedily marked everywhere by permanent monuments where it has not been so marked already.

BANK THEFT REVEALED.

Italian's Arrest Discloses Loss of \$2,500 in Transit From This City.

NEW YORK, March 28.—Through the arrest here today of Valentino Poppino, who said his home is in Susquehanna, Pa., on a charge of passing counterfeit money it became known that the First National Bank of Susquehanna recently lost \$2,500 in bank notes while in transit from Washington to Susquehanna. One package which was stolen contained \$500 in unsigned notes.

TILLMAN GOING ABOARD.

Condition More Serious Than Was First Suspected.

TRENTON, S. C., March 28.—While no alarm is felt, there is considerable anxiety over the continued illness of Senator B. R. Tillman, and announcement is made today that his physicians, Dr. Babcock and Dr. Hughes, have advised a complete change as a matter of necessity.

Another Death Mystery.

Evidences of Terrible Crime at Arlington, Mass.

ARLINGTON, Mass., March 28.—The body of Miss Annie Mullen, a domestic in a Cambridge family, was found in a vacant lot in this town today with the head nearly severed from the body by two deep slashes. While the medical examiner was unable to establish the motive of the crime, the local police, in the absence of any other belief, held that the woman was murdered. The medical examiner in a statement after the autopsy admitted that the wounds might have been self-inflicted. A description of the body and the clothing was furnished to the police under the name of the woman's shoes a Cambridge shoe dealer was able to furnish information which led to the identification of the victim as Miss Mullen.

ROUNDING UP NIGHT RIDERS

GOV. WILSON EXPECTS IMPOR-TANT ARRESTS SOON.

Says That Detectives Have Located the Chief of the Gang and His Lieutenants.

Special Dispatch to The Star. LEXINGTON, Ky., March 28.—It is believed here tonight that a climax in "night riding" in Kentucky is at hand and that within forty-eight hours the ring leader and his two chief lieutenants will be under arrest. Since the offer of big rewards a number of detectives from various parts of the country have made their appearance here and some of these have been busily engaged about Frankfort this week, and it is believed they have put Gov. Wilson in possession of information which will result in the breaking up of the band which, it appears according to this information, has been operating through orders from one source, the messages and directions having been sent by trusty lieutenants.

Trap to Be Sprung.

"My men practically have their hands upon the man who is behind all these disorders, and when the time is right he and his lieutenants will be arrested," Gov. Wilson is quoted further to have said that sixteen night riders had been killed by the soldiers. Those who have kept close touch on the night riders' situation, however, say that this is a mistake, since there have been but two night riders killed. Recently Gov. Wilson received a letter from Marshall county which stated that twelve men, members of the gang that attacked a negro settlement there, had been killed. These were not soldiers, but men who were killed by soldiers. Gov. Wilson, however, has members of the state militia stationed at different points in the state. Fifteen men arriving last night at Mt. Sterling. There a clash is expected between the tobacco people and the Law where Order League men, who are anti-society growers who want to raise a law this year.

MUSIC MASTER'S PLEAD

Composers Also Ask That Talent Be Protected.

Author Says Gallery Receipts Are Killed.

AND THERE THE PROFIT LIES

Victor Herbert Accuses Talking Machine Companies of Spoiling Music Well as Appropriating Melodies.

It was predicted last night by members of the Senate and House library committees that a compromise will be reached which will settle the controversy between the manufacturers and purveyors of mechanical music producing machines and moving picture machines on one side and composers, playwrights and theatrical managers on the other. The basis of the compromise, it is said, will be the payment of a percentage by the mechanical device people to authors and composers when their works are reproduced, the mechanical interests to be given a license in consideration of the percentage. This compromise is to be perfected at a meeting of the interests involved to be held in the near future. The basis of the settlement was reached after three days' argument before the Senate and House committees on library, in joint session. This hearing and late yesterday with the sudden appearance of a disposition to compromise. Such a compromise would relieve the demand for legislation on the subject, and consequently remove from the pending codification of the copyright laws one of the most serious impending problems in that measure.

UPSETS RATE MAKING

SWEEPING INJUNCTION FAVORS ALABAMA RAILROADS.

MONTGOMERY, Ala., March 28.—In a sweeping decision making permanent the preliminary injunction decided last August, Judge Thomas G. Jones of the federal court of Alabama, middle district, declared that acts which sought to prevent the railroads of the state from going into the federal court were unconstitutional and that the anti-railroad acts of the Alabama legislature should be suspended pending an investigation of the complaints of the railroads that the acts were confiscatory.
