

SOCIAL INSURANCE TO HELP OBSESS

Backed by Public Labor Bureaus Is Held to Be Solution of Unemployment Problem.

MONDAY EVENING CLUB SPEAKERS GIVE VIEWS

Dr. Wickliffe Rose Declares Poland Rather Than Belgium Has Suffered Most From War.

Social insurance backed up by a system of public labor bureaus was held out as the only solution of the problem of unemployment in this country by speakers who addressed the twelfth annual dinner of the Monday Evening Club at Rauscher's last night.

John P. Andrews, secretary of the National Association for Labor Legislation, Charles P. Barnes, director of the New York state public employment bureau, and District Commissioner Louis Brownlow advocated these reforms for the relief of social unrest and unemployment.

A feature of the meeting was furnished by Dr. Wickliffe Rose, member of the Belgian relief commission, who gave a graphic description of labor conditions in Europe resulting from the war. Dr. Rose declared that Poland rather than Belgium has suffered most from the war and predicted that if the conflict should be terminated soon the Belgians would be long in restoring their commercial activities.

Labor Conditions Discussed. Other speakers who discussed labor conditions—this being the theme of the Monday evening club—were Dr. Wickliffe Rose, secretary of the Board of Trade, P. T. Moran, president of the Chamber of Commerce; Ross P. Andrews, president of the Retail Merchants Association; Walter S. Ufford, secretary of the Associated Charities; Mrs. Ernest P. Bicknell, president of the club; Dr. William C. Woodward, health officer of the District, officiated as toastmaster.

Mr. Ufford called attention to the Kenyon amendment to the District appropriation bill, authorizing an appropriation of \$100,000 for the cost of living in Washington. Mr. Ufford urged that the executive committee of the club should take action at once with the view of supporting the amendment. The committee will meet today to consider the proposal.

Secretary Andrews of the National Association for Labor Legislation was the first speaker. He estimated that there are about 200,000 unemployed persons in Chicago, 400,000 unemployed in New York and probably a million unemployed in the nation. Remedies for unemployment conditions proposed by Mr. Andrews are these: (1) Establish a network of public employment bureaus; (2) plan public works so as to provide regular employment; (3) provide industrial, vocational and vocational guidance; (4) regularize industries—a feature to be worked out with employers; (5) establish unemployment insurance similar to the system in operation in England.

Officers Political Plums. "The True Function and Use of Public Employment Offices" was discussed by Secretary Barnes of the New York bureau. There are about twenty states that have public offices, but only a few of them are doing effective work, the speaker declared. This he attributed to the fact that too many of the offices are used as political plums. Mr. Barnes urged that an effective system be properly established, a systematic system of public labor bureaus, as it will be necessary to educate the public in the value of such agencies.

Commissioner Brownlow spoke in an optimistic vein of the attitude of Congress on social legislation. The District, he claimed, is obtaining as much credit as any other big city in receiving from its councils or commissions. National social legislation is coming, Commissioner Brownlow predicted. It was presaged by the workmen's compensation act, and subsequent legislation points to this conclusion, he urged. Commissioner Brownlow declared that in his opinion the problem of unemployment may be solved only by insurance.

Dr. Rose, who spent three months in the war ridden countries of Europe, told of the conditions obtaining there. He asserted that it would be impossible to describe the desolation obtaining in Belgium, but that as much as this country has suffered in the past, today Belgium would get on her feet tomorrow, he predicted. He said that he and his wife are tied and she can do nothing until the war closes, he declared.

Declares Poland Desolated. Dr. Rose predicted that Poland before long will be forced to appeal to the world for assistance and expressed the hope that every man, woman and child in the United States would respond to the appeal, as Poland, he declared, presents the picture of desolation, compared with which Belgium is a paradise.

The war, Dr. Rose said, has necessitated a complete world, directly or indirectly, and he expressed the belief that it would teach a lesson so severe in the utility of war that it would result in a new era of peace between nations that the world would be able to find other means of settling such controversies.

Both Insurance Commissioner Nestor and President Brandenburg of the board spoke briefly, the former endorsing the social insurance plan as a means of relieving unemployment. President Nestor endorsed the vocational guidance suggestion, while President Andrews of the Retail Merchants Association urged that labor conditions obtaining in the Capital preceding the banquet an informal reception was held.

List of Guests. The guests were: John Andrews, Miss Alice Atwood, H. P. Andrews, Charles P. Barnes, E. C. Brandenburg, Miss Brady, J. H. Brickstein, Mr. and Mrs. W. K. Beale, Dr. and Mrs. George P. Bowerman, Misses Belle, Miss Annah Bogan, Dr. Joseph Bogan, Mrs. E. Y. Brown, George H. Brown, Mr. and Mrs. W. L. Brown, Mr. and Mrs. H. J. Browne, Miss Florence Brown, Miss E. P. Bicknell, Mrs. E. P. Bicknell, Mrs. E. P. Bicknell, Mrs. E. P. Bicknell.

Why You Should Bathe Internally. Under our present mode of living Nature cannot dispose of all the waste products which its system produces, through the blood circulation, and brings on disease.

Germany Wants Florida Phosphates. Large shipments of Florida phosphate are being made by Germany for use as space can be obtained, according to a cablegram from American Ambassador Gerard at Berlin.

Police Seek Sarah Baker's Friends. The police are trying to locate friends of Sarah Baker, seventy years old, who died at Garfield Hospital last night. Her death was due to a cerebral hemorrhage, physician state, and she was unconscious most of the time she was in the hospital. It is said that she formerly resided at Brookline, Montgomery county, Md.

SENATE'S NAVAL BILL ADDS NINE SUBMARINES

Increase House Measure \$8,313,080, Making Total \$152,961,951—Two Battleships Provided.

The naval appropriation bill, carrying a total of \$152,961,951.85, was reported to the Senate last night from the committee on naval affairs. This is an increase over the House bill of \$8,313,080. Provision is made in the bill also for the reappropriation of \$400,000 for the marine barracks at Norfolk and Mare Island.

The naval building program of the Senate bill would provide for five sea-going submarines, sixteen smaller submarines, six or more destroyers, one oil fuel ship, one gunboat, one hospital ship at \$500,000 and two first-class battleships.

Among the increases recommended are \$500,000 for a projectile plant, \$120,000 for naval reserve, \$400,000 for a high-power radio station and \$1,000,000 to be applied on construction of an armor plate factory not to cost more than \$8,000,000. If the Secretary of War expending the first year Senator Smoot's amendment would appropriate \$30,000,000.

The European war has demonstrated beyond any question," said Senator Smoot in introducing his amendment, "that submarines are invaluable for defense of coast cities and coast line. That is the sort of defense we want in this country more than anything else."

The larger submarines would cost not to exceed \$1,400,000 each and the smaller type not to exceed \$500,000. For expending the first year Senator Smoot's amendment would appropriate \$30,000,000.

The European war has demonstrated beyond any question," said Senator Smoot in introducing his amendment, "that submarines are invaluable for defense of coast cities and coast line. That is the sort of defense we want in this country more than anything else."

More Submarines Wanted. An attempt to increase the number of submarines authorized is to be made in the Senate by republican leaders. To that end Senator Smoot has introduced an amendment providing for fifty submarines of a seagoing type instead of one, as designated in the House bill, instead of eleven.

The larger submarines would cost not to exceed \$1,400,000 each and the smaller type not to exceed \$500,000. For expending the first year Senator Smoot's amendment would appropriate \$30,000,000.

The European war has demonstrated beyond any question," said Senator Smoot in introducing his amendment, "that submarines are invaluable for defense of coast cities and coast line. That is the sort of defense we want in this country more than anything else."

SEES LACK OF CIVILIZATION. Dr. Baker Tells Students Europe Lost Respect for Peace.

That Europe is being ravaged by war because its peoples have not been civilized enough to respect peace, was asserted by Dr. J. Newton Baker of the Washington College of Law in an address recently before the students of the Shippen School at Lancaster, Pa. Dr. Baker said, in part:

"Death is drinking from his cup the life blood of Europe, because the man race, after twenty centuries of Christianity, is still under the scourge of war, and Europe is bound to stand to the canon because, after these centuries of civilization, Europe has not been civilized enough to respect peace and honor war. That war can destroy the churches, but it cannot destroy the spirit of religion."

Police Seek Sarah Baker's Friends. The police are trying to locate friends of Sarah Baker, seventy years old, who died at Garfield Hospital last night. Her death was due to a cerebral hemorrhage, physician state, and she was unconscious most of the time she was in the hospital. It is said that she formerly resided at Brookline, Montgomery county, Md.

A fabric unequalled for constant service. This new and attractive 19c Crinkled Crepe offered tomorrow at 9 3/4c a yard. 46-inch White India Linon, a grade of exceptional sheerness and fineness for making waists and dresses. Regular 12c value, at 11c.

Why You Should Bathe Internally. Under our present mode of living Nature cannot dispose of all the waste products which its system produces, through the blood circulation, and brings on disease. For the person a physician's first step in relieving a patient, is to give a laxative. Physicians generally, in order to stop the accumulation of waste, now advise the use of "Dr. E. B. L. Caswell's" Nature's Cure for Constipation, which aids the lower intestine in expelling waste and keeps it healthy without straining. It is now being shown by Aetna's Drug Store, 1115 and 1117, 1119 G St. N. W., Washington. Ask for booklet, "Why Men of Today are Only 50 Per Cent Efficient."
