Attention Is Directed to Our Annual August Sale of Furs

Thoughtful women consider only Furs of absolute reliability, as none save the best represents true economy.

These Furs are of the highest quality and correct style, and would be a splendid investment at even the season's regular price, but are doubly so now at the exceptionally low prices at which we are offering them for this occasion.

August fur buying does not necessitate the trouble of caring for them until cold weather comes, as we will store all purchases made now in our cold storage rooms without charge, if desired, until November 1st.

SAYS BRITISH CENSORS DISTORT WAR REPORTS

Turkish Embassy Issues Denial of Statement Regarding Situation in the Dardanelles.

Declaring that official communications from the Turkish government have been distorted by British censors to give an erroneous impression of conditions in the Ottoman empire, the Turkish embassy has made public a statement summarizing a review published by the Turkish information bureau.

Of the situation in the Dardanelles war theater the statement says: "On the 25th of April they (the allies) landed in two places: Ari-Bourna and Seddal Bahr. The objective of the first landing corps was Maidos, at a distance of eight kilometers, and that of the second, Krithia. Now, the allies on the side of the Ari-Bourna have never been able to proceed farther than one kilometer from the shore, and on the other side they are being checked at a distance of three and one-half kilometers from Krithia.

Striking Feature Noted. "Their failure at Seddul-Bahr is so much the more striking because this place, being situated at the extremity of the Gallipolis peninsula, is, from three sides, exposed to the converging fire of the allied warships."

Reports of panic and impending popular revolts in Constantinople are said to be ridiculous. Impartial foreigners have agreed, the statement adds, that the effects of the war are felt less there than in other capitals of belligerent nations. Food prices are said to be virtually normal.

Equally incorrect statements have been issued, the statement continues, as to victories for the allies on the coast. "Not a single allied soldier," it adds, "has landed on the Asia Minor coast, and the only military operations con-

ist in having fired a few explosive shells without any damage." Naval operations in Syria, it says, "have been concentrated against the huts of inoffensive peasants as well as fishermen's boats."

British Halted in Mesopotamia. In Mesopotamia, the statement says, the British advance has been halted and the hope of winning over the Arab tribes frustrated, the Arabs harassing the invaders' communications.

The Russian advance in the Caucasus, the statement says, "has pitifully collapsed," and uprisings among Armenian peasants fomented by the invaders support the Ottoman government as resorting to persecution against Christians of the empire.

Deaths Reported. The following deaths have been reported to the health department in the last twenty-four hours:

- Charles Brunger, 70 years, 2119 1st street northwest. Henry L. Gordon, 30 years, Garfield Hospital. Florence Hamilton, 39 years, Tuberculosis Hospital. Gustavus B. Brackett, 88 years, New Emergency Hospital. Emma J. Towers, 64 years, Government Hospital for the Insane. Helen J. Bailey, 24 years, Providence Hospital. Julia A.
