Warships Convoyed Cymric Through Danger Zone With Liner Prepared for Attack

NEW YORK, August 21.—Passengers and crew of the White Star liner Cymric asserted upon their arrival here today that the Cymric had been convoyed for thirty-six hours after leaving Liverpool August 11 by relays of British warships...

From the time of casting off till the war zone was cleared, the passengers said, the Cymric's bright searchlights were ready for a death blow. When the steamer left her dock, the high flag of the Mersey was flying from the vessel, but she could not see it, displayed the warning that German submarines were lurking.

Black Ball Danger Sign. This warning, the passengers said, was in the form of a big black ball hoisted at the top of the pole. It had been agreed previously that if the steamer left her dock, the high flag of the Mersey was flying from the vessel, but she could not see it, displayed the warning that German submarines were lurking.

Convoy Continued Next Day. All next day the convoy was continued. Four destroyers passed the ship from one to another, each apparently patrolling a certain zone, and acting as the liner's escort through her patrol. The destroyers, according to the Cymric passengers, were the Mersey, the Cymric, and the Cymric.

Some time during the night of the 15th the destroyer, according to the Cymric passengers, was the Mersey, the Cymric, and the Cymric.
