

BRIAND CONFERRING WITH STATESMEN
Work of Forming New Ministry for France Is Well Advanced.

POINCARÉ RECEIVES VIVIANI RESIGNATION
New Premier Then Is Formally Selected to Form Cabinet—Definite Selections Today.

PARIS, October 29.—President Poincaré today received the formal collective resignation of the entire Viviani ministry, giving official form to the decision of the cabinet yesterday to resign. The president requested Aristide Briand to form a new cabinet. At a meeting held in the foreign office this morning, under the presidency of M. Viviani, the decision was reached to submit the resignation collectively.

M. Briand immediately took up the work of forming a new ministry, which already was well advanced in anticipation of President Poincaré's formal request.

Prominent Men Confer.
One of M. Briand's first conferences brought together former Premier Emile Combes, Leon Bourgeois and Jules Méline; Denis Cochin, Alexandre Ribot, Marcel Sembat and Jules Guesde, members of the present cabinet, and Etienne Clementel and Prof. Paul Painlevé, all of whom were expected to appear in the personnel of the new ministry, together with other prominent leaders who did not attend the conference.

M. Briand conferred later with Jules Cambon, who was ambassador to Germany at the outbreak of the war, and many of the cabinet members. It is expected to take an important part in the Briand ministry as general secretary of the foreign office. In this capacity he is to give special attention to diplomatic questions arising from the war.

Summers of Resignation.
The subject of M. Viviani's retirement from the premiership and the reorganization of the cabinet was discussed at length by the political leaders. There had been rumors since the resignation of Theophile Delcassé, the foreign minister, of important changes in the cabinet, but the withdrawal of M. Viviani was in the line of a surprise. His resignation received a vote of confidence in the chamber recently by a very large majority.

Viviani Gives Resignation.
M. Viviani's letter of resignation reviewed the difficulties which he has encountered since an important group in parliament insisted upon secret sessions of the chamber of deputies, which he disapproved. The letter also points out that more than 150 members of the chamber have voted in his favor to request for a vote of confidence.

ATROCITY MUSEUM OPENED.
Russians Show Pictures and Cite Cases of Alleged German Barbarities.

LONDON, October 29.—A dispatch to Reuters' Telegram Company from Petrograd says: The German Atrocities Museum was opened here today. It contains a large number of photographs of mutilated soldiers, whose wounds are alleged to have been caused by explosive bullets, and also tables of statistics of 5,000 cases of atrocities investigated by the special commission of inquiry into German atrocities, by which the museum was established.

Copper Car Cables Are Seized.
LONDON, October 29.—Abandonment of little-used cable on street car lines, so that the copper might be obtained for war purposes, has been ordered by the municipality of Kiel, Germany, according to a Reuter dispatch from Copenhagen, which declares that the work of tearing up three streets for this purpose has begun and that 2,000 meters of cable, weighing approximately 6,000 kilos (nearly seven tons) will thus be available. Other cables expected to be similarly treated in Kiel and other German cities, the dispatch adds.

Executed Officer Not Spy, Claim.
BERLIN, October 29.—It is stated that Lieut. Col. Massigodoff, an interpreter on the staff of the Russian tenth army, who some time ago was hanged as a German spy, was ever in fact a spy for the Germans as charged is made by the official Norddeutsche Allgemeine Zeitung.

Food Prices Fixed in Germany.
BERLIN, October 29.—The federal council has issued an order empowering the imperial chancellor to fix the maximum price for potatoes, fish and game. The chancellor immediately set the retail price of potatoes at 42 pfennigs (\$1.69) a metric hundredweight. Producers are permitted to demand a maximum of 36 pfennigs.

Uruguay Accepts U. S. Invitation.
MONTEVIDEU, Uruguay, October 29.—The government has accepted the invitation of the United States to participate in the second pan-American scientific congress in Washington in December, and has appointed the following delegates: Carlos Ferrer, minister to the United States; Dr. Enrique Pouey, Dr. Bernardino Richepays, Dr. Gonzalo de Urquiza, Dr. Juan Monteverde, a civil engineer, and the following naval officers: Oscar Tacile, Federico Ugarteche and Juan Battione.

Many People in This Town never really enjoy a meal until we advised them to take a **REXALL DYSPEPSIA TABLET** before and after each meal. Sold only by us—25c a box. O'Donnell's Drug Stores.

DAIRY INSPECTORS SEE CITY SIGHTS
Start Early for Motor Tour to Points of Interest About the Capital.

SCIENTIFIC LABORATORIES OF GOVERNMENT VISITED
Officers to Be Elected This Afternoon—Convention to Close With Banquet Tonight.

Delegates to the fourth annual convention of the International Association of Dairy and Milk Inspectors, in session this week at the Raleigh Hotel, saw some of the sights of the National Capital this morning. A motor tour to the many points of interest in and about the city started at 8:30 o'clock, practically all of the delegates and visitors participating. Following the tour the delegates visited the laboratories of the United States public health service, the bureau of chemistry, bureau of animal industry and the dairy division of the latter bureau.

A number of the delegates who were unable to make the trip to Mount Vernon yesterday visited the home and tomb of Washington this morning. This afternoon's session, which began at 2 o'clock, was devoted to the presentation of a large number of short papers on different phases of the short milk inspection. Preceding the short milk inspection an address was made by L. A. Rogers, bacteriologist of the dairy division, bureau of animal industry, U. S. Department of Agriculture. Prof. W. A. Stocking of the dairy department, Cornell University, then addressed the delegates on "The Work of the Agricultural Colleges and Experiment Stations in Its Relation to a Better Milk Supply."

Officers to Be Elected.
Among the speakers at this afternoon's session were Dr. C. O. Gaultmore, director of the municipal laboratory of Quebec; Dr. Rene G. Myotte, chief of the milk and dairy farm inspection service of Montreal; Henry Rive, dairy instructor, Victoria; B. C. Lucius P. Brown, director of the bureau of foods and drugs of the New York city health department; C. P. Bossie, dairy inspector of Omaha; F. H. Bethel, assistant market milk inspector and investigator in Salt Lake City, and many others.

The annual business session and election of officers was scheduled for late this afternoon, and the convention is to close with a banquet at the Shoreham Hotel at 8 o'clock tonight.

Risk Dairymen Must Take.
At last night's session Dr. A. D. Melvin, chief of the bureau of animal industry, discussed the control of tuberculosis in cattle and told of some of the problems with which his bureau is confronted in fighting bovine tuberculosis in dairy and beef herds. The financial side of the question, as it concerns the owners of cattle suspected to be diseased, was discussed. Dr. Melvin admitting that in its last analysis the question is one of ruin to many small farmers and dairymen or the gravest peril to consumers of milk and other products from tuberculous cattle.

In such a case, he said, there could be but one answer—the owner of diseased dairy cattle must suffer at least until provision can be made for recompensing him, rather than that the public should be exposed to imminent danger of becoming infected. Stricter inspection of dairies, dairy herds, etc., was urged by Dr. Melvin, who said that only by this means could the public be insured a milk supply free from tubercle bacilli and safe for human consumption.

OPPOSES SEQUESTRATION OF KAISER'S SECURITIES
LONDON, October 29.—The suggestion advanced in a question in the house of commons that the government might take steps to trace and sequester private securities in England of the German emperor and rulers of German states and hold them as security for present and possible future damage caused by Zepelin raids does not meet the approval of Premier Asquith. The premier informed the house through David Lloyd George, minister of munitions, that he did not consider that the scheme offered "a practical method of deterring the enemy from further violations of international law."

RAILWAY MUST PAY \$300.
Awards to Passengers Injured When There Was Fight on Car.

Verdicts were being awarded by a jury in Circuit Division 2 of the District Supreme Court, before Justice Stafford, against the Washington Railway and Electric Company in favor of three passengers injured during a fight on a car near Brooks station, February 24, 1912. Harry L. Adams was given \$300, Albert Smith \$300 and Clara Smith \$200.

Verdicts in favor of the company were rendered in the cases brought by George A. Maurice W. and Robert T. Bray, who also were on the car. The six cases were tried together, and the plaintiffs were awarded, four fixing their injuries at \$100,000 each, and the others at \$50,000 each. Attorney Charles H. Merrill represented all the plaintiffs. The company was represented by Attorney George H. Hoover.

TO SELL BANK ASSETS.
Court Enters Order in Case of U. S. Trust Company.

Justice McCoy of the District Supreme Court has directed the sale of the assets of the United States Trust Company, which is in course of dissolution. The court has confirmed a finding by Auditor Davis as to the value of the stock and has directed the receiver, Tucker B. Sands, to transfer all assets to the Real Estate Trust Company, which has offered to pay 30 per cent to all stockholders that have not accepted its proposition to trade for bonds of the Chevy Chase & Great Falls Land Corporation. To be guaranteed by the trust company.

The court has confirmed a finding by Auditor Davis as to the value of the stock and has directed the receiver, Tucker B. Sands, to transfer all assets to the Real Estate Trust Company, which has offered to pay 30 per cent to all stockholders that have not accepted its proposition to trade for bonds of the Chevy Chase & Great Falls Land Corporation. To be guaranteed by the trust company.

LOSS BY BOMBARDMENT OF LILLE, \$360,000,000
AMSTERDAM, October 29.—The damage caused by the bombardment of Lille is estimated, the Telegraaf says, at 1,000,000,000 francs (\$360,000,000). War taxes imposed by the Germans upon the French manufacturing cities of Lille, Roubaix and Turcoing, according to the same authority, already reach several million francs. Meat is no longer obtainable in these towns.

France Follows England's Suit.
Ambassador Sharp at Paris has called the State Department that the French government had issued a decree similar to one recently announced by the British government, modifying the declaration of London as to provide that during the present war the nationality of a ship shall be determined by her actual ownership and not by the flag she flies.

Tells of Paper Made From Grass.
The timber supply of the United States is being used three times as fast as it grows, according to the Department of Agriculture, so it directs the attention of the paper trade to the possibilities living in zonation grass, better known as broom-root grass, wire grass and rice-root grass. At the present time the tops of the grass are allowed to go to waste. Laboratory tests of this grass conducted by the department show that it can be chemically reduced to paper stock by the soda process more easily and with less expense than is necessary to reduce poplar wood.

Wait U. S. Surgeons and Nurses.
Arrangements to have American surgeons and nurses care for German prisoners of war in Russia and the Russian prisoners in Germany were discussed with State Department officials yesterday by George Rakhmetoff, the Russian ambassador.

China Likes American Wood.
China is taking a fancy to American wood, according to a report of F. H. Smith, commercial agent of the bureau of foreign and domestic commerce, to the Department of Commerce. He believes that the United States, "with its durable, easily worked and comparatively cheap timber, will, with proper precautions, control the trade."

Wait Report From England Before Resuming Conferences.
The American meat packers and State Department officials on the seizure and confiscation by Great Britain of shipments from the United States to European neutral countries have ended temporarily. Alfred R. Union, general counsel for the packers, said they would be resumed probably early next week, when Consul General Skinner is expected to arrive from London to report on the foreign trade situation. The department so far has reached no decision on the packers' urgent request for special representations on their behalf to the British government.

MEAT PACKERS MARK TIME.
Elmer Allison, twenty-eight, son of Mrs. Clara A. Allison of Baltimore, and the late Clinton Allison, died suddenly in Preston, Iowa, as a result of a railroad accident.

Engineering Society Elects Officers.
The Engineering Society of George Washington University elected Albert Arnold Brand as its president at a meeting last night in the Arts and sciences building, 2123 G street northwest. Other officers chosen were: Seth Thomas Bowen, civil engineering vice president; Melvin Baritz Smith, electrical engineering vice president; Joseph Henry Wilson, mechanical engineering vice president; L. A. E. Miller, secretary; Leonard Julian Rose, treasurer; and William Stubbs James, additional member of the executive committee. The society is presided over by the society, president.

To Lecture on Art in Washington.
Gilbert M. Eisenman is to give an illustrated lecture on "Art as Seen in Washington" this evening at the Mount Pleasant Congregational Church, under the joint auspices of the Parents' League of the third division of public schools and the social service department of the Mount Pleasant Congregational Church. The lecture is open to the public.

RUSSIA SEEKING LOAN HERE.
Reported as Wanting \$50,000,000 Credit for Supplies.

NEW YORK, October 29.—Agents of the Russian government, it is reliably reported here, are seeking to establish a credit loan in this country, somewhat similar to the recent \$50,000,000 Anglo-French credit loan—although no bond issue is contemplated—of from \$50,000,000 to \$100,000,000 and more, if it can be obtained.

BONDED WAREHOUSE BURNS.
Loss in Baltimore Blaze Estimated at \$300,000 to \$400,000.

BALTIMORE, Md., October 29.—The United States bonded warehouse on pier 34, near 35 of the Baltimore and Ohio railroad at Locustpoint was burned last night. Records were destroyed, and estimates of the value of the contents of the warehouse varied between \$300,000 and \$400,000. The building and piers were valued at \$150,000.

MEAT PACKERS MARK TIME.
