ITALIANS DECIDE TO LEAVE DURAZZO

Rome has advised that Essad Pasha, leader of Albanian troops favorable to the Austrians, has effected a junction with the Italian forces.

Montenegrin Agreement. BERLIN, January 29.—The Overseas News Agency said today: "The text of the agreement signed January 25 at Cetinje by the Austro-Hungarian, Lieut. Field Marshal von Hofer and Maj. Schupbach and delegates of the Montenegrin government, Gen. Beer and Maj. Lombar, have been made public by the Austro-Hungarian authorities."

The most important paragraph in the agreement, according to the news agency statement, is the one numbered 10, which reads as follows: "The Montenegrin delegates desire to place their arms as soon as possible, since this would have a quieting influence on the population."

Release of Prisoners. The remainder of the agreement is summarized in the statement as follows: "All Germans and Austro-Hungarians held as prisoners in Montenegro will be released immediately. Montenegrins taken prisoner before the capitulation on January 17, 1915, will be released upon the conclusion of peace."

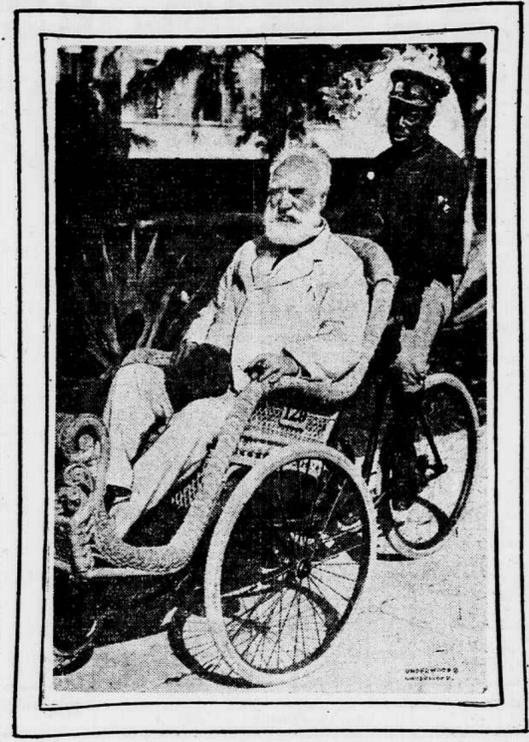

agreed upon. The Montenegrins surrender at sea ports, landing places, railroads and fortifications until peace is concluded.

Treaty Held Valid. The Lokai Anzeiger, commenting on the details of the surrender of Montenegro, states that the absence of King Nicholas at this time has little weight, since the constitution provides that the heir to the throne shall act in his absence, and in the absence of the heir the cabinet is in possession of governmental power.

Letter Written by King. Besides, the newspaper says, King Nicholas committed himself by a letter written in his own hand and a telegram on January 13, in which he asked Emperor Francis Joseph for peace. The king left Montenegro January 18. The next day of the Austro-Hungarians, the Lokai Anzeiger concludes, is the day of the Montenegrins.

Deaths Reported. The following deaths have been reported to the health department in the last twenty-four hours: Chase Reynolds, 80 years, Government Hospital for the Insane.

Denies the Charge. Senator Fletcher of Florida, chairman of the committee on printing, was indignant at the statement of Mr. Pinchot charging that there was grave danger the report on water power would be held up in the printing committee and not published until "too late to affect legislation now before Congress."

Scope of His New Duties. Mr. Small will devote his attention largely to the political and economic phases of the war. Of course, he anticipates getting up to the front trenches to see actual fighting, but that phase has been written about more than any other.

Senators Object to the Printing Because of the Expense Involved.

CHARACTERIZE PINCHOT CHARGE AS "BULLDOZING"

Mr. Fletcher Indignant at Statement That Document Is Being Suppressed for Monopoly.

The printing of the report on water power development in the United States, recently submitted to the Senate by the Secretary of Agriculture and declaring that a monopoly exists in the nation's water power, was prevented, at least temporarily, when Senator Smoot of Utah objected, saying that the printing of the report would cost \$21,000.
