

AN EVEN CENTURY OF ACTIVE WORK

Exercises to Celebrate Hundredth Anniversary of the American Bible Society.

PROGRAM INCLUDES TALK BY PRESIDENT WILSON

Two Meetings to Be Held Today, One at East Front of the Capitol.

To emphasize the great work for the upbuilding of the world life which has been accomplished by the American Bible Society during the past 100 years, leaders of the nation's life in various lines, including President Wilson, are this afternoon to participate in two meetings in observance of the centennial of the organization.

The first meeting is to be held on the east front of the Capitol at 3 o'clock, when the speakers will be Vice President Marshall, Speaker Champ Clark and Senator Wesley L. Jones of Washington, while President Wilson will be the chief speaker at the second meeting to be held in Memorial Continental Hall at 4 o'clock.

Half an hour before the opening of the first meeting Cello's Band is to begin a concert, which will continue until the gathering is called to order. Various Sunday schools of the city are expected to march to the Capitol with banners to attend the gathering.

Continental Hall Meeting.

The meeting in Continental Hall is to be attended by cabinet members, senators, representatives, diplomats and pastors of churches. Admission is by invitation. Senator Cummins of Iowa and Bishop William P. Wood of the Methodist Episcopal Church are to be speakers in addition to the President.

SAYS GERMANS PLOTTED TO START REVOLT IN U. S.

Russian Paper Cites Possible Menace in Thickly Settled Teuton Sections.

PETROGRAD, May 6.—The Petrograd Gazette declares that the Irish rebellion was a menace to the United States, for had the Germans succeeded in carrying out their plans regarding Ireland they would, the newspaper believes, have replied to President Wilson's latest note by a threat to start the same kind of an uprising in America in districts thickly settled by Germans.

"It is characteristic," says the Gazette, "that during the days immediately after the delivery of the American note, when the German raids were made on England and the Irish uprising began, the German newspapers were aggressive. When the bubble of the Irish uprising burst, they immediately changed their tone and began discussing the advantage of trade with America and the traditional friendship between the two countries."

The Bourne Gazette calls attention to an investigation which it says the Washington authorities made into an Austrian attack on a Russian ship.

"This shows," says the newspaper, "that America is not defending American interests alone. This fact considerably diminishes the chances of a peaceful agreement."

GASOLINE IS IGNITED; MAN WISHED TO SMOKE

Three Hundred Gallons of Fuel Destroyed and Building Is Damaged.

A large crowd of spectators witnessed a spectacular fire about 7 o'clock last night in front of the building of the National Motorist Association, 3221 16th street northwest, which involved the loss of 300 gallons of gasoline and the destruction of a motor truck and tank of the Penn Oil Company. Edward Austin, 2109 1st street northwest, chauffeur for the oil company, escaped injury.

According to the police report of the fire, Aurillus Haskell, 1498 Newton street northwest, who was standing several feet from where Austin was filling a ground tank from the tank on the motor truck, struck a match to light a cigarette. Instantly the fumes from the fluid ignited, the contents of a five-gallon can in Austin's hand exploded and the can was blown high in the air.

Then the contents of the big tank on the truck ignited. A vent in the top of the tank prevented an explosion, however, but it was impossible to prevent the loss of all the gasoline and the destruction of the tank and most of the truck.

The pump connected with the storage tank in the ground was ruined by the fire and the building of the National Motorist Association was badly scorched. Firemen prevented the fire from being communicated to the building.

Damage to the truck and contents was estimated at \$2,000. The building was damaged to the amount of \$25 and a similar amount of damage was done to the pump connected with the ground tank.

GERMAN ATTACKS FAIL AGAINST THE RUSSIANS

Sharp Fighting at Some Points on Eastern Front, According to Petrograd.

LONDON, May 6.—There has been sharp fighting at some points along the eastern front, according to the latest official Russian advices. Petrograd says: "On the Dvina front the Germans directed a violent bombardment against the fortification at Ikskull and the region east of Friedriehstadt. Enemy aeroplanes dropped bombs at several points on the front. In the region between Jacobstadt and Dvinsk our artillery by a successful hit caused an explosion of enemy munitions.

"Southeast of Lake Med we captured enemy trenches by a surprise action. "Northwest of Kroschine Thursday the Germans, after three hours of artillery preparation, attacked with large forces the village of Donbrovka. Our troops delivered a counter attack and the enemy took flight, leaving behind him a number of killed and wounded and a quantity of arms and ammunition. We also took some prisoners.

"Northeast of Chartorsyk a detachment of our scouts attacked with bayonet an enemy post and took several prisoners.

"South of the Olyka station our scouts forced the enemy to evacuate a wood east of the village of Jernistche. "In the region of Mouravits one of our aeroplanes attacked two enemy machines and after a half hour's fight one of them was forced to the earth within the enemy's lines, while the other disappeared."

GALLINGER TO FIGHT RUBLEE NOMINATION

Senator Opposes Selection of New Hampshire Man as Trade Commissioner.

Although the Senate interstate commerce committee yesterday favorably reported to the Senate the nomination of George Rublee of New Hampshire as a member of the federal trade commission, the opposition to his confirmation is by no means at an end.

Senator Gallinger of New Hampshire, the republican leader, who has stoutly opposed the confirmation of Mr. Rublee on the ground that the appointment was obnoxious to him, intends to ascertain whether "what is sauce for the goose is also sauce for the gander." The Senate recently rejected a nomination which was personally objectionable to Senator O'Gorman of New York, democrat, and Senator Gallinger intends to learn whether this rule is to apply only to democratic senators or whether republican senators are to be accorded the same right of objection.

Gallinger Gives Notice.

The action by the committee yesterday resulted from notice given by Senator Gallinger in a recent executive session that unless the nomination was reported back to the Senate by yesterday he would move to discharge the committee from its further consideration.

Late yesterday Senator Gallinger stated he would continue his opposition to the nomination of Edward M. Hurley, vice chairman of the commission, conferred with the senator in an effort to induce him to withdraw his opposition, but to no avail.

HOSTILITIES ARE SUSPENDED.

Diplomatic Corps Striving to Effect Peace at Santo Domingo.

SANTO DOMINGO, Dominican Republic, May 6.—The hostilities which broke out here yesterday, the outgrowth of the attempt to overthrow the administration of President Jimenez, resulting in several persons being killed or wounded, were suspended today.

Members of the diplomatic corps are endeavoring to effect an amicable solution of the troubles here. The republic outside of Santo Domingo remains quiet. A warning from William W. Russell, the American minister, that armed intervention would result within seventy-two hours unless hostilities between the opposing Dominican factions ceased caused a meeting of the municipality and the appointment of a commission to endeavor to persuade President Jimenez and Gen. Arias to arrange their difficulties. Gen. Arias agreed to surrender on condition that the president resign. The commission then carried the proposition of Gen. Arias to President Jimenez, but the president has not yet given his decision.

An Unqualified Denial

Of an Utterly False Report

A report that is basely **FALSE**, to the effect that the Maxwell Motor Company has joined in a merger with several other motor car companies---entailing change in the policies and management of the company---has been published in many newspapers throughout the country.

Any foundation for this report is so utterly **lacking** that we can only attribute it to competitors who are trying to use us as a tool to further their own interests.

To Maxwell Dealers---To Maxwell Owners ---and to the Public

---we wish to state that the Maxwell Motor Company has not joined in any merger---that no change in ownership has taken place---nor has there been any change in the personnel directing its policies. Furthermore, no such changes in the Maxwell organization are contemplated. We, therefore, make an unqualified denial of the ridiculous rumors of consolidations involving the Maxwell name.
