ARRIVAL OF THE RUSSIAN TROOPS AT MARSEILLE, FRANCE

MYSTERY AT THE WOMAN'S CAMP IN THE FORM OF "EPIDEMICS"

The post surgeon has quit, and at a time when there are three virulent "epidemics" at work.

The Red Cross had been in desperation for a post surgeon. Then Dr. Ryan Devereaux agreed to act temporarily, but his own practice was calling him while he sat in irksome inactivity in camp waiting for cases that never came.

There was a bit of the reminder of the home in the mess tent yesterday. The long pine boards were temporarily hidden by nice white table linen.

The khaki was shaken yesterday for the first time since the outbreak of the epidemic. The khaki was shaken yesterday for the first time since the outbreak of the epidemic.

Now about the epidemics. They are telephonic, leavistic, and so on. The camp is very secretive. "You ask the honorary commandant, Mrs. H. H. Scott," who, by the way, is the official press censor, said Mrs. Villa Post Wilson, the adjutant, and Miss Mary Baker, a lieutenant colonel on the staff.

Both admitted that there is such an epidemic, and that there is a great deal of mystery about it.

The rookies have all been very brave and dignified and soldierly, but yesterday some of them succumbed to temptation—they became "really" worried again. A cute little Maltese kitten—a little girl brought it to the camp in a box.

Soon a group of rookies gathered around to pet it and to kiss it, for they have not had such an opportunity for a while. And just as they were real happy and Irish again, playing with the kitten, along came a mature sergeant of Company B, Army Navy and Marine Corps and other prominent government officials.

In groups of six the members of the camp yesterday, in their uniforms of white, served as ushers to take the visitors about the camp. The ushers included the daughters of many Washington officials.

Two drill sergeants from Fort Leavenworth, Kan., were at the camp yesterday. They said the work of the young women was wonderful, particularly their formation and drilling, and ascribed it to the fact that they engaged in sports and in dancing, which helped them to maintain the correct posture.

The Russian military attaché and his wife were visitors yesterday. They soon will return to Russia via England, and they sought information concerning the camp, to be given to the English and Russian authorities upon their return.

Mrs. Charles H. Brown of Baltimore, who has the rank of lieutenant in Company C, was visited by her husband yesterday. He motored from Baltimore.

Miss Helen Joy, daughter of Henry B. Joy, millionaire manufacturer of Detroit, Mich., arrived yesterday afternoon. She has been appointed an aid

on the staff of the commandant with the title of captain.

Mrs. William Slater, jr., one of the recruits in the "beauty tent," has attracted a great deal of attention by her singing during the recreation periods before "taps." The soldierettes are demanding that Mrs. Slater visit their tents in the evening and sing for them. There are many good voices in the camp.
