

### ITALIANS CAPTURE SEVERAL POSITIONS

#### Austrians' Stubborn Resistance at Head of Frenzela Valley Proves Futile.

### VIENNA CLAIMS DEFEAT FOR Foe AT TWO POINTS

#### Aeroplanes of Both Belligerents Have Been Particularly Active in Recent Days.

LONDON, June 17.—Home announces an important success northeast of Asiago, in the Trentino, where several positions at the head of the Frenzela valley were captured. Vienna reports the failure of Italian attacks in the Dolomites, and likewise of assaults upon the Austrian lines on the Dobardo plateau.

Airmen have been unusually active on the various fronts. Austrian aviators raided Padua and other Italian towns nearby. German machines have dropped bombs freely on several points of military importance along the western front, including Bar in the Vosges, Dunkirk, and a French air squadron has bombed various railroad stations behind the German lines. Italian aeroplanes also have been busy, one squadron of thirty-seven machines being projected on Austrian encampments north of Asiago.

#### Italian Communication.

The text of the Italian official statement says: "Between the Adige and Astico there were intense artillery actions. On the entire Communal plateau there were fierce engagements, which everywhere ended favorably for us.

"Southwest of Asiago the enemy, after heavy bombardment, made two attacks on our positions from Monte Fau to Boscon, one in the direction of Monte Magnaboschi and the other between Monte Lemerle and Boscon. After repeated and costly efforts enemy infantry succeeded in reaching the summit of Monte Lemerle, but was at once dislodged by a successful counter attack.

#### Successes Are Claimed.

"Northeast of Asiago we advanced between the Frenzela valley and Marcesina. Notwithstanding the difficult and intricate nature of the terrain and the stubborn resistance of the enemy, entrenched and supported by numerous batteries, we made progress at the head of the Frenzela valley on the heights of Monte Flor and Monte Castelgomberta and west of Marcesina. The best results were attained on the right wing, where our Alpine troops carried the position of Malga, Fossetta and Monte Mari, inflicting heavy losses on the enemy and taking 203 prisoners, a battery of six guns, four machine guns and much material.

"In Carnia and on the Isonzo artillery actions and encounters of small detachments occurred. "Hostile air craft dropped bombs on various points on the Venetian plain and on the town of Padua, killing three persons and wounding eight. "On the 15th six of our Caproni aeroplanes bombed the railway station of Mattavello, in the Adige valley. Yesterday a squadron of thirty-seven Capronis and Farmans dropped 150 bombs and 60,000 arrows on enemy encampments north of Asiago and in the Noe valley. The whole squadron returned safely. Two hostile machines were brought down.

### PROHIBITIONISTS INVITE BULL MOOSE INTO FOLD

#### Cold Water Party Claims to Be Representative of "Real Progressive and Reform Forces."

CHICAGO, June 17.—Formal invitation was extended today to members of the progressive party to join the prohibition party, in a telegram sent by Virgil G. Minshaw, chairman of the prohibition national committee, to Victor Murdock, chairman of the progressive national committee, and George W. Perkins, chairman of the executive committee of the bull moose party. The telegram reads as follows: "The prohibition national committee invites you and all other progressives in the United States to attend the prohibition national convention at St. Paul, Minn., July 19 to 21, also the big get-together grand rally and conference July 18 at the same place.

"The 5,000 shouting enthusiasts who for four days monopolized your Chicago convention will never be content to go back to the G. O. P. or adopt the donkey as an emblem of progress. "The prohibition party, the original progressive party, which adopted national prohibition, woman suffrage, and other reforms in 1872, is the logical leader of all our following. "I suggest that a day be appointed or a meeting arranged of representatives from the national committee and our delegates now and July 1 in order to pave the way for a genuine union of the real progressive and reform forces of America.

### BLOCKADE CAUSES UNREST IN GREECE

#### Allied Ultimatum May Threaten to Cut Off Diplomatic Relations.

ATHENS, July 17.—The continued strictness of the entente allies' blockade against Greek ports is engendering a growing feeling of uneasiness in government circles. Rumors are rife that the entente's ultimatum, which is expected to be delivered Monday, may present as an alternative to compliance with its demands the rupture of diplomatic relations between the entente allies and Greece. It is not thought that the Greek cabinet can long stand the pressure.

The lack of breadstuffs on the outer islands of Greece and in the not-readily accessible parts of the kingdom is already causing disturbances, although the government insists that the available wheat supply at Piraeus is sufficient for more than a month.

#### Demands Strengthened.

The demands of the entente allied nations on Greece, it was learned here today, are being considerably strengthened and extended as a result of the anti-entente demonstrations which broke out in Athens last Monday. The demands were ready for presentation to the Greek government when the disorders occurred, but the note probably will not be delivered until next week. Meanwhile the entente blockade against Greek ports is continuing in full force.

Premier Skoufoulis is sending out confidential instructions to government officials and army officers in order to counteract the effects of the order for the demobilization of the army, it is reported. The international financial commission has repeated its protest to the Greek government against permitting the National Bank to issue an additional 30,000,000 drachmas (\$8,000,000) in paper currency. The Franco-British members of the commission stated that Greece could not expect financial assistance from either France or Great Britain as long as the issue remained in circulation, nor would any further Greek loans be admitted to the London or Paris markets.

#### Greeks Move Military Base.

PARIS, June 17.—It is reported from Saloniki, says a Havas dispatch from

Athens, that in consequence of the establishment of martial law by the entente allies in that district and the taking over by them of the postal, telegraph, railway and customs administrations the Greek military base, as well as the troops occupying the forts around Than, has been transferred to the coast in Thessaly, about 100 miles northwest of Athens.

### HOUSE PASSES PENSION BILL

Measures Carries Appropriations Aggregating \$158,065,000. The annual pension appropriation bill, carrying \$158,065,000, passed the House yesterday without a roll call after a debate devoted to many subjects other than pensions. The total is \$8,000,000 less than that of last year's bill. A separate bill increasing the pensions of widows of civil war veterans who have reached the age of seventy years from \$12 to \$20 a month probably will be passed tomorrow. It increases pensions to widows about \$9,000,000.

## "Single-Cure" Tires which are— NEVER Over-Cured

GOODRICH Fabric Tires are made by the "Single-Cure" Process. The long-experienced Goodrich Operator knows the precise temperature, and temperamental conditions of Fabric and Rubber, which admit of Vulcanizing these two factors together AT A SINGLE "CURING." So, he can, and does, SINGLE-Vulcanize them, without producing the internal "Blisters" and other hidden "defects," that alone excuse the double-cost, and double-risk, of "Double-Cure" or Vulcanization on Vulcanization.

THE Maximum Value, to Consumers, with a fair profit to both Dealer and Manufacturer! That Goodrich Policy has been Father to the REPEAT-ORDERS which have for 47 years maintained the B. F. Goodrich Co. Factory, at Akron, O., as the largest Rubber Factory in the World, and the most conservatively successful.

From that Policy, consistently worked out, proceeds the relatively Low Prices quoted below, on the highest-grade Fabric Tires that Money and Skill can build. Let no one "CONVERSE" you out of the advantage these Mfg. Economies should mean to YOU.
