SENATE UPHOLDS 'BLUE TAG SYSTEM'

Right of Appeal to Courts Granted to Publishers Through Amendments.

The Senate yesterday afternoon by a vote of 35 to 25 retained in the post office appropriation bill a provision placed there by the House to extend the "blue tag system" by which the Postmaster General is authorized to prohibit the mailing of magazines that may be sent by freight instead of mail train.

Text of Amendments.

The Norris and La Follette amendments are as follows: "That no publication shall be sent by freight (under ruling of the Postmaster General) if such method of transportation results in unfair discrimination or in undue delay of the delivery of such publication at its destination.

"And provided that whenever the owner of any publication required by the order of the Post Office Department to be transmitted by freight shall feel himself injured and discriminated against, he may apply to the Post Office Department for an opportunity to be heard; that upon such application being duly filed in writing, the order of the Post Office Department as to the transportation of such publication shall be suspended, and the owner of such publication shall have opportunity to a full and fair hearing before said department.

"The testimony in any such hearing or proceeding shall be reduced to writing and filed in the Post Office Department prior to entering an order from such hearing.

"That upon such hearing, if the Post Office Department decides adversely to the contention of the publishers, such publisher shall have the right, within the period of ten days after the date of the order of the Post Office Department, made upon such hearing, to appeal to the United States circuit court of appeals of the circuit within which

such periodical is published for a review of such order by such court of appeals, by filing in the court a written petition praying that the order of the Post Office Department be set aside.

Copy of said petition shall be forthwith served upon the Post Office Department and thereupon the said department forthwith shall file and certify in the court a transcript of the testimony and the record.

Can Set Aside Order.

"Upon the filing of the transcript the court shall have the jurisdiction to affirm, set aside or modify the order of the department.

"The jurisdiction of the circuit court of appeals of the United States to affirm, set aside or modify such order of the Post Office Department shall be exclusive.

"Such proceedings in the circuit court of appeals shall be given precedence over other cases pending therein and shall in every way be expedited.

Efforts by Senator Jones of Washington to add to the post office appropriation bill an amendment closing the mails to liquor advertisements were blocked by Senators Reed and Stone of Missouri, who raised parliamentary objections.

MAJ. DOUGLAS M'ARTHUR TO GIVE OUT 'WAR' NEWS

Detailed by Secretary Baker to Assist Newspaper Men on Duty at Department.

Maj. Douglas McArthur, U. S. A., of the office of the general staff of the army, who has been detailed by Secretary Baker to assist newspaper men on duty at the War Department in their gathering of information concerning the military situation along the border and in Mexico, held a conference with the correspondents this morning, preliminary to taking up his new duties.

He has established his office in the main reception room near the Secretary of War's room, formerly occupied by the Secretary of War. Maj. McArthur endeavored to ascertain from the newspaper men in what way he could best serve them, as well as the public interest, in the giving of information, and was promised the hearty co-operation of the correspondents on duty at the State, War and Navy building.

He is not to be a censor of the news, although if war with Mexico should come he will have power to withhold news not deemed suitable for publication, particularly as it applies to military movements.

Maj. McArthur is a Washingtonian, a son of the late Lieut. Gen. Arthur McArthur, who was the son of Judge McArthur of the Supreme Court of the District of Columbia.

May Not Take Gifts for President.

It is not infrequently happens that diplomatic and consular officers of the United States are requested to be the medium of transmission of literary, scientific or artistic works, or other gifts, which citizens or subjects of foreign countries desire to present to the President.

In order that the practice in this regard may accord with that generally observed in the matter of similar presentations, the needs of other governments, the President ordered that diplomatic and consular officers of the United States will hereafter, whenever request is made of them by a citizen subject of a foreign country to transmit a gift of any character to the President, refuse to accept such gift and will advise the donor that it is required that the presentation be made through the diplomatic representative of the donor's government at Washington.

YOUNG MAN DROWNS WHEN CANOE UPSETS

Clarence H. Walker, twenty-five years old, was drowned in the Potomac about 100 yards below Chain bridge last night about 8:30 o'clock as a result of the overturning of a canoe in which he and Dr. Harold S. Stimson, 3430 Albemarle street, were enjoying an outing.

Dr. Stimson went to a camp on the District side of the river not far from where the accident happened and related the story of the affair to William Prentice, Lyle Davis and Lawrence Prentice. The campers went to the river and made a futile search for the body. This morning the crew of the tugboat, in the canoe of boatman started the work of dragging for the body.

Walker, who resided at the Y. M. C. A., and Dr. Stimson, both employed at the bureau of standards, yesterday afternoon went canoeing as far as Chain bridge and were on their homeward trip when the craft overturned in the strong current.

Walker, unable to take hold of the canoe, soon disappeared beneath the surface of the water and was drowned.

The deceased was a native of Philadelphia, and records show that he stood at the head of the list of graduates of the University of Pennsylvania, three years ago and accepted a government appointment. He was a graduate of the University of Pennsylvania, and took a post-graduate course at Johns Hopkins University, Baltimore.

Among the many persons who participated in the search for the body was William T. Reynolds, veteran boatman, who has been in the city a score of times as a result of his work as a rescuer of victims of river accidents. He said the place where the accident happened is a dangerous place for canoeists.

Reynolds suggested that it would be well if canoeists could be kept from that part of the river.

FOURTEEN DEAD IN RIOTS.

AMSTERDAM, June 29.—Revised figures of the casualties resulting from the rioting at Galatz, Rumania, Monday, show that fourteen persons were killed and thirty-five wounded, says a dispatch received here from Bucharest. In addition 100 persons were arrested. The casualties occurred while troops were repressing a demonstration of workmen against the high prices of foodstuffs.

The dispatch adds that M. Racowick, leader of the Rumanian socialists, has been arrested in Bucharest at the request of the Galatz court. A general strike of sympathy with the Galatz movement has been called in Bucharest for today. The Rumanian press generally attacks the government for its failure to deal adequately with the food supply problem.
