WORK OF CONGRESS
PASSES TO HISTORY
Session Characterized by Greatest Volume of Appropriations Ever Recorded.

OVER BILLION AND A HALF VOTED FROM TREASURY
Sum Set Apart for Army and Navy.
Under Spur of "Preparedness."
Totals \$655,000,000.

The first session of the Sixty-fourth Congress, just closed, takes its place in history characterized by the greatest appropriations ever made in the history of the nation, brought about by the remarkable change of heart evidenced by the majority on the question of "preparedness."

Following a Congress which was almost meager in its treatment of the naval and military establishment, the present Congress has reorganized the army by expanding its numbers and replenishing its equipment; and has authorized the building of great battleships and auxiliaries with the intent of placing the Stars and Stripes in the second place upon the sea.

The cost of the army and navy plans started in this the first session of the Sixty-fourth Congress will total many billions before a generation has passed, and the initial appropriations, made effective this fiscal year, are \$655,000,000.
Total Over Billion and a Half.
The total of all appropriations when the gavel fell was \$1,637,583,682—the greatest aggregate in the country's history, either

in way of peace—and exceeding the sum total of the previous fiscal year by half a billion dollars.
When the Congress assembled, with the President's message before it asking for an increased army and navy, the problem was to enact a revenue measure to provide for the increase, as well as to frame an army bill and a navy bill. Congress responded by doubling the normal income tax on the lowest class; making an additional surtax ranging from 1 per cent on that portion of incomes exceeding \$20,000 to 12 per cent on amount of incomes in excess of \$20,000; levying a graduated tax of 1 to 10 per cent on manufactures of \$50,000 to \$5,000,000; a 10 per cent tax on profit tax on manufacturers of munitions; 5 per cent net profit tax on manufacturers of materials entering into munitions; a license tax on actually invested capital stock of corporations capitalized at more than \$25,000; wine, beer and liquor excise taxes and miscellaneous stamp taxes.

Threats of Complications Frequent.
During the deliberations of the session there were disturbances in other nations which were felt in the halls of Congress. Threats of complications growing out of European war situations were frequent in the earlier days of the session, and the famous "McLemore resolution," introduced by a Texas member, asking the President to warn Americans of armed merchantmen of the warring nations, almost split the House and Senate into pieces. There was imminent a break with Germany, and the practice of the British government tampering with American mails has been a sore spot in Congress for months. The Mexican troubles have been on the hands of Congress daily.

The crisis in Congress over the international situation followed Germany's naval order to sink armed merchantmen caused President Wilson to halt diplomatic negotiations and go to the Capitol to demand a "show-down." The result was the tabling of the Gore resolution in the Senate by a vote of 68 to 14 March 4 and of the amendment in the House by a vote of 276 to 142 March 7. Immediately afterward the President sent to Congress and read to Congress a note threatening to sever diplomatic relations unless the German government "immediately" affected a modification of its methods of submarine warfare.

Later in the session there was trouble in the Senate over the appointment of Louis D. Brandeis of Boston to succeed the late Justice Lamar as a member of the Supreme Court. However, after weeks of deliberation, the Judiciary committee of the Senate recommended his confirmation, which was effected in the Senate by a large majority.

Confronted by Strike Menace.
In the week before adjournment Congress was occupied with legislation which prevented a threatened nation-wide rail strike. President Wilson, after futile negotiations with officials of the railroads and railroad brotherhoods, submitted the controversy to Congress, recommending legislation to avert the strike and to prevent such emergencies from arising in the future.

U. S. to Protect Rumanians.
LONDON, September 8.—The American embassy in Constantinople has announced the protection of Rumanians in Turkey, according to a telegram from the Turkish capital received in Amsterdam and forwarded by Reuters.

the effect of the eight-hour day on railroad revenues.
This session has established a tariff commission, a government shipping board to rehabilitate the American merchant marine, a compensation commission to administer a new compensation law for workmen injured in the government service, a farm loan banking system, a child labor law, has enlarged the system of government land in the Philippines and passed an eight-hour law for railroad employees.

Miscellaneous Legislation.
In addition Congress enacted an unusually large amount of miscellaneous legislation, including reorganization of the patent office; provision for trial of space system in place of weight system for payment for railroad mail service and leaving to the interstate commerce commission determination of the method and rate of pay; creation of a national park bureau in the Department of the Interior; establishing a uniform law making bills of lading negotiable.

Proposed legislation, which failed of enactment and has gone over until next winter, includes the immigration bill, large currency bill, insurance bureau campaign expenditures for election of the President, Vice President and members of Congress; a vocational education bill passed by the Senate; conservation legislation, including the public lands water power bill; the Shields navigable streams water power bill, which failed in conference; the oil leasing bill, including relief for California oil men; a good control bill, which passed the House, and a bill to establish citizenship for natives of Porto Rico.

Ratification of Treaties.
Four treaties were ratified by the Senate. The most important was the long pending Nicaragua convention providing for the acquisition of a canal route and naval station rights in the Bay of Fonseca for \$3,000,000, and that ratified in the closing hours provided for the purchase of the Danish West Indies for \$25,000,000. Another was the treaty with the Republic of Haiti, providing for an American financial protectorate. The much-disputed pending treaty with Colombia, after several years of consideration, was favorably reported by the foreign relations committee, with an amendment reducing from \$25,000,000 to \$15,000,000 the proposed amount to be paid for the proposed acquisition of the territory. However, was never taken up in the Senate because of unrelenting opposition to it on the part of many senators, and it remains on the calendar.

All officers, directors, assistant directors and principals of high and normal schools are requested to be in Washington and available for any assignment or conference on and after Tuesday, September 25, unless formal leave has been granted extending beyond that date.

HEALTH OFFICIAL LAX, DR. WOODWARD ASSERTS
Critiques Action at Atlantic City in Case of Sufferer From Infantile Paralysis.

Sharp criticism of the health officer at Atlantic City is contained in a letter addressed today by District Health Officer Woodward to Dr. Jacob C. Price, commissioner of health of New Jersey, as the result of the alleged action of the Atlantic City official in issuing a certificate of health to a person who was found, upon his return to the District, to be suffering from infantile paralysis.

The patient is Stephen Buntinsky, aged thirteen, residing at 1844 Newton street, who was brought to Washington from Atlantic City September 5.

Became Ill August 20.
According to Dr. Woodward's letter, Buntinsky went to Atlantic City August 1, where he resided at 114 New Jersey avenue. August 20 he was taken suddenly ill with high fever. He suffered from headache and backache, developed a stiffness of the neck and back and suffered from restlessness in case of infantile paralysis has existed on the premises. Similar certificates were issued to members of the patient's family.

Certificate Issued.
Despite this alleged condition, the Atlantic City official is charged by Dr. Woodward with having issued a certificate to the patient September 5 certifying that the patient had resided in Atlantic City for five weeks past, and that to the best of his knowledge no case of infantile paralysis had existed on the premises. Similar certificates were issued to members of the patient's family.

TEACHERS MUST REPORT FOR DUTY SEPTEMBER 25
Order Is Issued Today by Supt. Ernest L. Thurston.

Ernest L. Thurston, superintendent of public schools, today issued orders to all teachers, officers, directors, assistant directors, principals of high and normal schools regarding the time they must report to Washington for duty. In the same communication he urges all teachers now in districts infected by the epidemic of infantile paralysis to leave at once, saying: "This is requested as an additional safeguard and as a precaution in the event that regulations should be adopted looking to the health inspection or exclusion from the service of those recently in such districts."

INCREASE IN APPROPRIATIONS.
Senator Martin Explains Expenditures During Congressional Session.
Senator Martin of Virginia, chairman of the appropriations committee, submitted to the Senate last night a statistical table designed to show that appropriations for general purposes, exclusive of extraordinary defense appropriations, only exceeded general appropriations for 1916 by \$7,879,991.

New York Avenue Club Gives Dance
Members of the New York Avenue Club last evening held a dance at the New York Avenue playgrounds. Twenty couples were present. Dancing continued from 8 o'clock until 10:30, except for an intermission, during which refreshments were served. Guests of honor were Miss Irene Madigan, Mr. and Mrs. James P. Rich and John G. Petritz.

Will find it instantly effective in giving soothing comfort to foot-sores, itchy, chafed and tired feet.

PRESIDENT SIGNS COMPENSATION ACT
Provides Relief and Pensions for Government Employees, Injured or Killed.

RATES OF PAYMENT DEFINITELY FIXED
Appointment of Three Commissioners to Administer Statute Left to Chief Executive.

The federal workmen's compensation act, passed within the last few days by Congress, providing relief for government employees injured at work, was signed by President Wilson last night.

Every government employee is covered by a complete accident insurance policy, beginning today, on the signing of the Kern-McGillivuddy workmen's compensation act, providing for a complete system of compensation or pensions to be paid out in case of accident or death resulting from occurrences in the line of duty in the government service.

Extension of Benefits.
The previous compensation law, criticized because it covered only a part of the government service in a patchwork manner, benefited about one-fourth of the employees. The new law covers the entire government force, 400,000 in all.

Rates of Payment.
The payments for disability, as specified in the act, are as follows: Total disability, 66-2/3 per cent of the monthly pay during the continuance of the disability, not to exceed \$66.67 a month, and not less than \$33.33, unless the employee's monthly pay is less than \$33.33, in which case the compensation is to be full pay.

SEVERAL THEFTS REPORTED.
John J. Falantes Believes Pocketbook Was Stolen at 7th and K Sts.
John J. Falantes, a guest at the National Hotel, last night told the police of the loss of a pocketbook containing \$295. He thinks the pocketbook was taken while he was at 7th and K streets about 8 o'clock last night.

DEFICIENCY BILL SIGNED.
Carries Provision of \$180,000 for Police and Fire Pensions.
The general deficiency bill, carrying \$15,000,000, including \$3,000,000 for pay for Nicaragua under the new treaty for an interoceanic canal route and coaling base, finally was approved by the Senate and House last night as it came from conference. Among the items was one for the salary of George Rublee as a member of the federal trade commission for the fifteen months that may be called on, in case of necessity, in matters relating to their buildings.

NEWSPAPER PAPER PROBE BROADENED.
A resolution broadening the scope of the federal trade commission inquiry into the cost of newspaper printing paper used by the government printing office was adopted last night by the Senate on motion of Senator Fletcher.

Minister Vonicka Foregoes Vacation.
Because of important events occurring in Balkan diplomacy, American Minister Vonicka has notified the State Department that he will forego a vacation and remain at his headquarters at Bucharest.
