

Lovely new Smolin "Blue Bird" model of the new shade of cerise panne velvet, the facing of which is of Alice blue. The shirred tam-o'-shanter crown and ornaments of jet add to the attractiveness of the hat.

Black silk chantilly veil is here shown to advantage draped in harem effect from an odd shaped hat with velvet brim, faced with white satin.

This sailor is of brown velvet, the trimming consisting of only a tiny edging of silver braid oddly placed at intervals around the brim. A quill drawn through the crown contributes to the stylishness of the hat.
