URIC ACID POISONING!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called "Auric"—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain relief from the pains and ills brought about by uric acid; or send Dr. Pierce 10c for trial package "Auric"—many times more potent than lithia and eliminates uric acid as hot water melts sugar. A short trial will convince you.—Advertisement.

JUDGE BLOUNT REFUSES TO SUPPORT PRESIDENT

Letter's Handling of Mexican Situation Is Given as Reason for His Action.

The republican national committee, from its New York headquarters, today is making public an open letter written by Judge James H. Blount of this city to the Wilson and Marshall Democratic Association. Judge Blount, who says in the letter he is still a democrat, refuses to support President Wilson's reelection, his main ground being the handling of the Mexican situation.

Judge Blount sat in the court of first instance in the Philippines, the supreme court of the islands, and later was confidential agent from this government to Haiti when Secretary Bryan was in the State Department. He was a member of the Wilson and Marshall Democratic Association of this city in the first Wilson campaign. "I am opposed to Mr. Wilson's reelection because he has degraded the value of American citizenship to Americans throughout the world, and earned for us the contempt of all nations, by giving them reasonable ground to believe that they can do anything they please to our women or our children as long as we are not interrupted in the making of money or subjected to the inconvenience of fighting."

JANITORS ARE EAGER TO ATTEND CLASSES

One Hundred and Thirty-Four Have Enrolled for Night Schools.

One hundred and thirty-four janitors and engineers in the service of the public schools of the District have signified their intention of attending the janitor classes which are to be opened tomorrow evening in connection with the night school work. Classes for janitors are to be held tomorrow night at the Business High and the Armstrong Manual Training schools. It is probable more than two classes will have to be held, because of the large number who have enrolled for the course. Also, other buildings probably will be used during the year in order to acquaint the janitor-students with various kinds of heating plants.

Supt. Ernest Robinson of the public schools explained to the janitors, at a meeting Tuesday night, at the McKinley Manual Training School, that a system was to be put into effect whereby janitors would have to meet certain conditions before they could be promoted, and that applicants for positions as janitors would have to meet certain requirements. He wished to see men already in the employ of the schools promoted, he said, but in number of instances men have had to be obtained from outside of the school system for positions in the higher places because no qualified men could be found among those already employed.

He pointed out to his auditors the desirability of them obtaining engineering licenses. He said that they might better themselves not only in the school system, but in outside opportunities. Hugh McQuinn, superintendent of janitors, also spoke, urging the men to join the classes. Of the men who have entered their names, fifty-one are white and eighty-three colored. More colored janitors are employed than white.

Confederate Veterans at Grand Camp of Virginia, in Norfolk, Enthusiastic Over Spring Meeting.

Information that a fine enthusiasm on the part of Confederate Veterans for their anticipated reunion in Washington next spring is being evidenced by delegates now attending the Grand Camp in Virginia, now in session in Norfolk, is contained in a report recently received from Capt. D. C. Grayson, first lieutenant commander in the Harry Heth Camp, No. 119, Capt. Grayson says: "Everything is at high tide here in enthusiasm for the Washington reunion, and old Virginia is going to put up a strong fight for the largest number of attendants at the reunion, and also in appearance on that occasion. The reunion here is quite a success. The representation from all parts of the state of Virginia. The word now is 'on to Washington.'"

Fred Beall, commander of the Harry Heth Camp, today announced that his information from the south is that there is great enthusiasm among all the Confederate organizations—veterans, sons of veterans and Daughters of the Confederacy—in the anticipated reunion in Washington, and that it looks as though more than 100,000 will attend.

SENT TO ELECTRIC CHAIR.

Stielow Has Been Three Times Re-convicted in New York.

ALBANY, N. Y., October 26.—Charles F. Stielow, three times re-convicted, who while under sentence of death for the murder of Charles D. Phelps at West Shesby, Orleans county, March 21, 1915, has been sentenced by the court of appeals to be executed at Sing Sing prison during the week beginning December 11.

When asked if he could give any reason why the court should not proceed to pass sentence, Stielow rose slowly to his feet, gazed at the row of judges in the gowns of somber black, and then said, falteringly and in a voice that was barely audible: "I didn't do this murder." He hesitated for a moment, and it was with difficulty that he continued: "The admissions on which I was convicted were forced upon me by threats and promises. I was not out of my house on the night of the murder." "Once more he hesitated and then replied: "I don't just know of any more I can say." He turned to his attorney, Stuart M. Kohn, and whispered: "You had better do the talking."

WISCONSIN AUTHORITIES TO CARE FOR ANGELINI

Ernest Angelini, an Italian by nationality, who is committed to the United States Government Hospital for the Insane had no legal justification in view of the fact that he was not a resident of the District of Columbia, nor in the federal service, is to be turned over to the Wisconsin authorities, if the state board of control recognizes the obligation.

Angelini was convicted in Kansas of using the poison pen, and sent to Leavenworth prison. There he became insane, his present condition. He was transferred, without due regard to the legal requirements, to the Government Hospital for the Insane. The legal status of his confinement in the Government Hospital for the Insane was questioned, and it was made evident that he was not legally held there. In view of his mental incapacity, the question of what to do with him gave considerable concern.

The superintendent of prisons has called the attention of the Wisconsin authorities to the fact that Angelini, lived in that state for several years, and appears to have no other residence.

HAS MAID 87 YEARS OLD; BORN IN FAMILY SERVICE

Probably Establishes Local Record, But Woman's Federation Invites Other Reports.

A domestic who has been eighty-seven years in the service of one family has been discovered in Washington by the president of the District Federation of Women's Clubs.

This probably establishes a record, but the federation is still anxious to learn of others who have been for many years in one place.

Mrs. Court F. Wood, president of the District Federation of Women's Clubs, feels today that a Washington domestic holds world honors for continual service with one family. In the campaign being carried on by the federation to find out and honor the champion long-distance stayer in domestic service and to promote servant-girl efficiency by offering prizes and diplomas the Washington public is taking a keen interest.

Mrs. George Clifford Boardman, 1015 M street, has notified Mrs. Wood that she has a maid, now eighty-seven years old, who was born in the family and has been working in the family all her life.

Faithful and Self-Respecting.

Mrs. F. Marsh has also notified Mrs. Wood that she has a maid named Irene Hoban, who was born in Virginia and has been in the service of her family for thirty-five years. Mrs. Marsh wishes to be quoted as saying that this is "the most faithful maid in Washington." She says she is "not only faithful, but self-respecting."

Mrs. J. Edson Briggs, chairman of the home economics committee of the federation, is daily receiving from members of her committee and other clubwomen messages of interest in the campaign.

At the meeting of the committee next week action is to be taken regarding a supplementary campaign to reward with emblems and diplomas maid servants who remain for a certain number of years in one place of employment.
