STOCK REDUCING SALE

WE must vacate 8,500 feet of floor space! This means reduce our stock. The Geo. A. Fuller Co., builders of our new home, the new I. O. O. F. Temple, have informed us that our entire north wall must be torn out and a temporary wall erected, which will cause us to lose a great amount of floor space. Our sales floors are crowded with fine furniture, and we have but till May 1 to cut our stock almost a third. Big reductions in every department must help us move this furniture, and for two weeks we will have the biggest furniture sale that Washington has ever known.

Our policy forbids the use of comparative prices and we can but hint of the unusual reductions in our furniture, but you may take our word for it when we say that you've never had the privilege of buying furniture at such reductions before. Every piece of furniture bears the original price tag, marked in plain figures, and also a big sale tag. If you want furniture you owe it to your pocketbook to at least step in and look around.

Spring Brides

THIS sale offers a golden opportunity to the bride who must furnish her home complete. The sale prices are particularly low on matched suites, and a substantial saving will be yours on your furniture; but, remember, we have but until May 1 to complete our sale. We hope you won't wait too long.

Every Piece of Furniture Reduced in Price
