HOW TO WASH WOOLENS

—Blankets, Sweaters, Babies' Woolens

Wool is made up of fibers, each one of which is covered with scales like fish scales.

When you rub or twist woolens, in washing, these tiny scales interlock—the fibers draw up, and the fabric "mats."

With Lux No Rubbing Is Necessary

Lux—pure essence of soap in flakes—melts completely the moment hot water is poured on it. Let woolens soak in this hot, rich, soapy solution for a few minutes, then stir them about in the lather gently, and dip them up and down repeatedly. Rinse thoroughly in three relays of water of the same temperature in which you washed them, dry on a bright, sunny day, and you have snow-white, fluffy woolens, as fleecy and soft as on the day you bought them.

Wonderful Results!

Try Lux. Try it with hot water! *Lux won't injure anything that pure water alone won't injure.* No matter what soap you use now—see for yourself what a remarkable difference Lux

makes—judge for yourself. Until you try Lux, you will never believe it possible to get such wonderful results. Get a package at any grocery or department store today. Lever Bros. Co., Cambridge, Mass.

FLOWERS FOR WEDDINGS

Our bridal bouquets are in themselves wonderful creations. Our style is distinctive and each bunch is designed especially for the one who carries it. The bride's shower bouquet has many variations. In all of them the lines are equally good. In general effect they are light and graceful. They conform and never detract. They have the charm of personality.
The bridesmaids, maid of honor and flower girls furnish the color symphony. They are the setting, of which the bride is the jewel. It is well to consult us early regarding the color scheme. It is all-important.
It is never advisable to leave the ordering of wedding flowers until the "eleventh hour." Let us help you in early planning. Of course, we are prepared for any emergency, but time and forethought always bring out the finest detail.
