HIGH HONORS GIVEN TO MASONRY IN U. S.

Scottish Rite Session Last Week Accomplished Many Memorable Things. ASSISTANCE FOR SOLDIERS

A biennial session that will be memorable in the annals of the Supreme Council of the Ancient and Accepted Scottish Rite of Freemasonry for the Southern Jurisdiction of the United States was in progress at the House of the Temple, at 16th and S streets last week. It is to be memorable also, it is declared, in the annals of Freemasonry in general, because of the important questions that have been settled and the action taken by the Supreme Council in matters which have long attracted the interest of Masons everywhere on this continent.

800 Masons Are Honored. Eight hundred Masons of high degree were honored by the Supreme Council at this session, 229 by election to respective offices and last degree, honorary, and 561 by elevation to the rank and dignity of knight commander of the thirty-third and last degree. Masons of the District of Columbia were elected to receive the thirty-third degree, honorary, and six were elevated to the knight commandery of the court of honor, an unusual distinction for the District.

Confirmed by Council. The appointments of Grand Inspector General Thomas J. Shroyok of Maryland as treasurer-general of the Supreme Council, of Homer C. Plimley of North Dakota to be first grand quarry, of Melville R. Grant of Mississippi to be grand standard bearer, of Philip S. Malcolm of Oregon to be grand sword bearer, and of William P. Filmer of California to be grand herald, all of them made by Sovereign Grand Commander George W. Fleming Moore during the interim since the last previous session, were confirmed by the Supreme Council, and each was regularly elected and installed into his office.

The honors of Scottish Rite Freemasonry thus conferred extended to Masons residing in the territory between the Atlantic and the Pacific, in the eastern states from Maryland and West Virginia to the Gulf of Mexico, and beyond the Mississippi, from the border of Mexico to that of Canada, as well as to China, the Philippines and Porto Rico, besides several in the regular Army of the United States.

Henry R. Evans, thirty-third degree honorary, of the District of Columbia, magazine writer and one of the editors of the New Age, the official organ of the Supreme Council, and prominently connected with the national campaign of education, was designated by Sovereign Grand Commander Moore as grand tier to the Supreme Council, succeeding Dr. Francis J. Woodman, thirty-third degree honorary, deceased.

Appropriation to Memorial. Upon the recommendation of the sovereign grand commander, the Supreme Council appropriated \$10,000 to the George Washington Masonic National Memorial Association for the erection of the Washington memorial at Alexandria. It was declared that Washington was a Freemason, "the lasting memorials of whose initiation are preserved in the Masonic Lodge at Fredericksburg, Va., that he remained an interested Freemason up to the time of his death, and that he laid the corner stone of the United States Capitol clothed in Masonic regalia."

It is further declared that "the character of Alexander, No. 22, still preserved in the lodge room, shows that Washington was appointed its master by the grand master of Masons of Virginia, who styled him 'the commander of the armies of the United States.'" These and other relics of Washington the association propose to preserve in a building worthy the first President of the United States, where they may be secure from destruction by fire or theft.

The story of the taking over of the Smith-Burnsiana collection and its preservation intact by Burns memorial, with access to it by the public in general, was told in The Star of yesterday.

Adjustment of Property. The grand commander was authorized to settle, and, it is said, has settled, all arising from the exchange of properties in this city by the Supreme Council and the four Washington bodies of property, and to take such further steps as may be necessary looking to the exemption from taxation of the Supreme Council property in Washington on a just and equitable basis.

The action taken with reference to the fraternal assistance to be rendered our soldiers and sailors and that with reference to the "Americanization and America first" movement, involving much consideration as to details and taken in the closing hours of the session, will be announced later, it was explained. Also, the steps to be taken by the sovereign grand commander and the Scottish Rite in general with reference to fraternal service for the soldiers here and abroad, whether in connection with the United States or in cooperation with the wishes of the Secretary of War and after conference with him, are to be made known later.

Will Postpone Publication. The recommendation of Inspector General Fitzgerald for the publication of Albert Pike's work, the Irano-Aryan Theosophy of the Zend-Avesta, was embodied in a resolution adopted by the Supreme Council in 1915, was reconsidered and it was decided to postpone the publication of the work for the present, at least, because of the peculiar difficulties involved therein.

Today Sovereign Grand Commander Moore and the officers and active members of the Supreme Council will pay their usual tribute to the memory of Albert Pike at the grave in Oak Hill cemetery. Although performed in public, the service is more or less private, except to those authorized to know of it. During the session hundreds of prominent Masons from all parts of the United States have been visitors at the House of the Temple.

Elected to Membership. Former Gov. Alva Adams of Colorado and Thomas G. Fitch of Wichita, Kan., yesterday were elected to active membership in the Supreme Council of the Scottish Rite at the sessions at the House of the Temple, 16th and S streets last week.

LONG LIST OF CRIMES CHARGED TO CABINET

Former Lambros Ministry of Greece Is Committed to High Court.

LONDON, October 20.—A dispatch from Athens to the Exchange Telegraph Company says that the investigation committee's report commits all the members of former Premier Lambros' cabinet to the high court, with the single exception of Prof. Heliopoulos, who was minister of justice. The accusations are that the cabinet members attempted to provoke war with the entire allies and fomented the events of December, 1915. Discussion of the report in the chamber of deputies was set for today.

Many Crimes Charged. ATHENS, October 20.—The report of the Greek parliamentary investigating committee made public yesterday declares that the late Lambros cabinet assisted by every unlawful means existing, it encouraged and protected monarchial absolutism. Continuing the report says: "The League's cabinet perpetrated the assassinations of liberals and of Anglo-French sailors and soldiers. It ordered a secret mobilization against the Greeks; it encouraged and protected officials, judges and priests in illegal anti-national acts aiming to terrorize the people, to create anarchy everywhere; it organized armed bands for the Greek army; it communicated by mail, telegraph and airplane with the Bulgarians; it subsidized newspapers and correspondents and it promulgated illegal decrees and laws."

GIVE UP MOON ISLE UNDER CROSS-FIRE

Russ Evacuation Difficult. German Ships Make Further Defense Impossible.

SLAV FLEET IMPERILED

By the Associated Press. PETROGRAD, October 20.—The southern Moon sound and Moon Island, have been abandoned by the Russians under the pressure of superior hostile naval forces, it was officially announced today. The text of the statement reads: "Baltic sea—Under pressure of superior enemy naval forces we have been compelled to abandon southern Moon sound. Moon Island thus came under the direct fire of the enemy ships from the Gulf of Riga and also from Kasarskaya bay, and we were completely deprived of the possibility of defending Moon Island, and therefore decided that no useful purpose would be served by attempting to hold it."

Subject to Cross-Fire. "The evacuation of the island was begun under very difficult conditions, as it was all the time subjected to a cross-fire from the enemy's ships. Our destroyers, trawlers and auxiliary ships engaged them."

"During the day our trawlers discovered mine fields sown by enemy submarines with the obvious intention of closing to our ships the entrance to the Gulf of Riga from Moon sound. These operations, coordinated with the landing of detachments on Dago Island, show unmistakably the desire of the enemy at all costs to destroy our naval forces defending this region."

"All yesterday mist and rain veiled and hampered our patrol and aerial scouting for the purpose of observing the movements of the enemy's fleet."

German Plan Carried Out. BERLIN via London, October 20.—It was announced by army headquarters today that the German operations on Dago Island, north of the Gulf of Riga, had been carried out according to plan.

URGES CUTTING SUGAR RATION. Mr. Hoover Asks of Each Person One Ounce Reduction Daily. Herbert Hoover, federal food administrator, continues to urge the American public to cut down its sugar ration in order that our allies may have enough for their actual physical needs, and the latest from the food administration is for each person to reduce his sugar consumption one ounce per day. A reduction of seven ounces per week, it is pointed out, would still leave America a per capita consumption of sixty-seven pounds per year, compared with twenty-six pounds in England, eighteen pounds in France and twelve pounds in Italy. Mrs. Lillian G. Bayne, twenty-five, wife of Carroll G. Bayne, was found in the basement kitchen of her home in Baltimore dead from gas poisoning.
