"NOW IS THE VITAL TIME!"

While there are still more days of warm weather and the skin is soft, pliable and most susceptible to treatment, to eradicate the ravishes of strong summer suns and winds; the darkened leathery skin, the skin pores enlarged by dust filling during long motor drives. Soon the chill of winter will be here to drive the blood from the surface and "set" the discoloration and roughness in the skin FOR THE ENTIRE WINTER.

## The Arden Muscle-Strapping Treatments

are the most approved form of correction for the ill effects of over-exposure to sun and wind. The scientific strapping and taping of the facial lines caused by the natural "squinting" of the eyes and the contraction of the mouth and forehead under the irritation of strong sun and wind; and when combined with the Arden Venetian Preparations the treatment serves to renew the defect and transparency of the skin, while the healthful functions of the underlying muscles are so stimulated that the corrective results secured by the muscle-strapping assure the return of a natural coloring.

If out of town write for personal advice and booklet about home treatments with Arden Venetian Preparations.
