BUILDING FUND DRIVE BY WOMEN'S CITY CLUB

Campaign for \$355,000 Will Be
Launched at Meeting Next
Monday Night.

Members of the Women's City Club at a meeting next Monday night at the Willard Hotel will open a campaign to raise \$355,000 with which to purchase, build and equip a new clubhouse on Jackson place. The club, which now occupies quarters at 22 Jackson place, has an option on the two lots adjoining the present quarters on the north.

The consideration involved was \$85,000, of which \$28,000 must be paid in cash not later than February 23. The cost of the building and the properties will be \$375,000, of which \$29,000 has already been paid on the property at 22 Jackson place.

It is the intention of the officers of the organization to raise the entire amount within the membership of the club, which now numbers 2,500 Washington women.

At a recent meeting of the board of directors of the club it was estimated that by amortizing the loans that would be made at the rate of \$20,000 a year, at the end of ten years the club would have only an indebtedness of \$100,000 on the property and the building. Although the cash needed by February 23 is \$85,000, an additional sum of \$8,000 will be necessary in order to justify immediate steps toward the erection of the building, it was stated.

The committee in charge of arrangements for the meeting consists of Mrs. Myer Cohen, Mrs. E. J. Brennan, Mrs. A. Leitch Sinclair and Miss Mary O'Toole.

THREE PERISH IN FIRE, ONE JUMPS TO DEATH

Thousands Watch Spectacular
Flames in Fifth Story in
Lower Manhattan.

NEW YORK, January 21.—Three men were burned to death and another was killed when he leaped to the street as a five-story building in lower Manhattan late yesterday. Scores of persons narrowly escaped. The dead are Emanuel Lambert, Benjamin Stambler and his brother Harry Stambler and L. W. Girsdangsky. The building was occupied by a jewelry store operated by Benjamin Stambler and by various offices.

Thousands of office workers, who were on their way home, viewed spectacular efforts of the firemen to rescue persons imperiled on the upper floors. The clothing of Charles Holmes, a fireman, was aflame as he fought his way up the fire escapes to the top floor in the attempt to save persons who had been seen at the windows. Fellow firemen turned their hose on him to save him from burning.

Fire Chief Keenan later led two companies up the escapes to the fifth floor, where the dead bodies of the three burned victims were found, together with two survivors.

Origin of the fire, which started in the upper portion of the building at 18-18 Maiden lane, is unknown. The loss is estimated at \$100,000.

Col. Lewis was in the cavalry, serving for a few years in the adjutant general's department. He was first located in the Department of the North, later becoming adjutant general of the Southern Department in 1913. He retired on account of disability incident to service. After his retirement he served as recruiting officer in New Orleans. During the war he was engaged in the inspector general's office, on duty in the Western Department.

Sees U. S.—Australian Unity.
MELBOURNE, January 21 (By the Associated Press)—Forty American boy tourists were entertained at the parliament house by members of the federal ministry today. G. F. Pearce, minister of defense, said the government regarded the visit of the Americans as a "happy augury that the link between the great American republic and the Australian commonwealth, which was forged on the battlefield, would not be lightly torn asunder."

REUNION OF METHODISM IS VOTED UNANIMOUSLY

Joint Commission Representing M.
E. Churches North and South
Takes Action.

LOUISVILLE, Ky., January 21.—Recommendations of the joint commission of the Methodist Episcopal Churches North and South that the two branches be reunited were unanimously adopted late yesterday by the convention here of the 100 or more bishops, pastors and laymen of both churches. The merger plan provided that the united churches be named the Methodist Church.

The recommendations of the commission will be submitted to the general conferences for final decision. A committee of ten was appointed to prepare the recommendations for submission to the conference.

Under the new constitution of the Methodist Church there would be a supreme general conference composed of seven regional conferences. Six of those would consist of white members averaging about one million members each and the other one would embrace the entire negro membership of 202,600.

The general conference, which has governed the churches since their division in 1844, after a disagreement over the slavery question, will lose some of its power. Regional and local conferences would have entire control of their respective regions except in general matters. Bishops will be chosen by local conferences, subject to confirmation by the general conference.

A judicial council of fifteen members will review constitutional matters of all conferences, and, in fact, will be the final court of appeals.

F. E. Spaulding Goes to Yale.

CLEVELAND, Ohio, January 21.—F. E. Spaulding, superintendent of public schools, has resigned, effective July 31, when he will become head of the department of education and graduate school at Yale University. The board named Assistant Supt. R. G. Jones as the new superintendent.

It was said after the meeting had been adjourned last night that the northern church conference will meet next May in Des Moines, Iowa, to vote on the merger plan. The southern church will call a special session of its conference to vote on the unionification, provided the northern church ratifies the proposition, it was pointed out.

Both branches of the church claim a combined membership of approximately 6,000,000 persons, with about 10,000,000 persons who attend the churches but have not become members.

American Food Parcels Spoil.

It is a result of either inferior production or careless packing.

Of Interest to Automobile Owners

On January 1st, 1919, just a year ago, I purchased a Motor Transportation business operating six (6) cars.

Today (one year later) I am operating 19 cars. Our business has increased 200% in 12 months.

If I can operate MY OWN CARS economically it is only due to the fact that my SERVICE STATION is run properly.

The same SERVICE I give my own cars will be given yours, and my co-operative plan of doing business will assure you of a considerable saving in the cost of operating YOUR automobile.

You will experience a new delight, in the ownership of YOUR car, if you will let me serve you.
