WOULD GET 'GLORY' IN WAR STORIES OF SCHOOLBOOKS

Resolution Coming Before National Education Association Leans to Pacifism.

By the Associated Press. SALT LAKE CITY, Utah, July 6.—Attention was turned today by many members of the National Education Association in convention here, from the fight for reorganization of the body to a summary of resolutions presented to the resolutions committee and published here this morning.

Resolution which its opponents said was based on "straight-out pacifism," attracted particular attention. This resolution would recommend removal from school text books of any passages tending to extol "glory" in connection with war and would declare for minimizing the attention to be paid to wars.

Beyond announcing that the resolutions summarized had been sent to it in response to a general invitation to educators to make suggestions, the committee did not disclose the source of the drafts. Education for discharged soldiers and sailors and for prospective woman voters and practical Americanization courses in colleges were the subjects of other resolutions.

One Topic Uppermost. Hotel lobby conferences, upper room caucuses and the like were held here by members of the association discussing the issue of reorganizing the body. Animation was added to the gossip by word emanating from the meeting of the association's board of directors that that body had endorsed unanimously a plan to reorganize, which will be submitted later.

State delegations have elected a nominating committee, which will meet Thursday and report Friday. Address by President. The association held its first formal general session last night. Mrs. Josephine Corliss Preston of Olympia, Wash., in her address as president, declared herself in favor of reorganization. This, she said, was the most important question to come before the convention. She also declared adequate salaries for teachers were being obtained.

Importance of education was brought to the attention of the public by the war, she said. The National Education Association, she added, has truly become a factor in the civic and educational life of the nation. She urged improvement of conditions surrounding rural school teachers and asked members of the association to participate actively in civic affairs.

In Strategic Position. Educators are in a strategic position, Mrs. Preston said. "They have a twofold responsibility—a responsibility to our children and a civic responsibility to our community, state and national life.

"Thrift education is an important movement launched by the government. The school's part in the national thrift program is to recognize that thrift is in the saving of four things—time, talent, money and health.

"Rural education problems need the earnest consideration of the country. How shall we keep our farm men and women raising the nation's food if we fail to provide good schools and unless we give them good teachers. The country schools have too long been the teacher's training centers for city schools."

Reorganization (Chief Problem. "The most important problem which the National Educational Association has to face is reorganization of this great body. A delegate plan as an official working body is the ultimate solution. Educators see the necessity for their active participation in civic life. We can no longer sit back and leave to others the entire conduct of governmental affairs."

Chicago Member Opposes. Miss Margaret Haley of Chicago was credited with leading the opposition to this move. One objection raised against it was that it might interfere with the powers of local teachers' federations, some of which have affiliated with the American Federation of Labor. Miss Haley and S. Y. Gillan of Milwaukee were leaders in defeating this "delegate plan" when it was proposed last year.

Hugh S. Magill of Washington, D. C., field secretary of the association, is expected to present the plan, which has been the subject of much study by the association's board of directors.

This is the second time the educators have convened here, the other occasion being in 1913. Six cities have invited the next meeting and the invitation has been presented formally later in the week. They are New York, Chicago, Philadelphia, Des Moines, Iowa; St. Joseph, Mo., and San Francisco.

Preliminary meeting has been going on for several days and a patriotic program, scheduled as the first general session, was carried out last night.

SPORT AT ROCKVILLE.

Ball Game, Auto vs. Motor Cycles and Harness Races Held.

ROCKVILLE, Md., July 6.—Three horse races, all harness events; a base ball game and a contest between an automobile and two motor cycles comprised the principal Independence day attractions in Rockville today.

The base ball game was between Rockville and Bethesda, and was won by the former, 4 to 3. The race between the automobile and two motor cycles was at three miles and was won easily by the auto.

Each of the three horse races won for a purse of \$100 and only Washington horse completed. In the first King George, owned by Charles Hillberry, won over Bubbles, belonging to William Walker, but five heats were required to decide. Submarine was third.

The second event, which was for trotters and pacers, was won by Barry Dougherty's Florence. A worthy in straight heats from Normandie and My Sweetheart. Hall, owned by G. L. Morgan, had an easy time of it in the final, winning all three heats in clever fashion. Voltaire was second and Adele McCreey third.

An attachment has been invented that enables stockings to be darned on a sewing machine.

Remove Roots as Well as Surface Hairs (Something New and Different)

The chemist who discovered the remarkable hair-destroying properties of the substance has conferred a genuine blessing upon a multitude of women. This peculiar substance seems to paralyze and shrink up the hairs to which it is applied, right down to their roots—and these hairs come out very easily and quietly, roots and all, before one's very eyes.

Phelacine is perfectly odorless, non-irritating, non-poisonous—a child could use it without the least harm. Not to be compared at all with depilatories or electrolysis. It leaves the skin so soft, smooth and hairless, no one would guess you ever had a mustache or other hairy growth. If you will obtain a stick of Phelacine from your druggist and follow the simple directions, you will certainly be "more than pleased."—Advertisement.

GREEKS SWEEPING TURKISH ARMIES IN RAPID ADVANCE

Land Forces on Dardanelles Collapse of Nationalists Is Forecast.

CONSTANTINOPLE, July 5.—Greek troops have swept the country west of Baloukessar clear of Turks as far north as Adramit. They also have landed large forces at Chardek, on the Dardanelles. Consequently, they expect to eliminate the Turks from the province of Bigha shortly.

Observers who accompanied the Greeks during their attack on Baloukessar and who visited Panderna after the Greek occupation of the city

say the Turkish forces offered little resistance, except at Pergama and outside Baloukessar. The Greek advance was so rapid and unexpected that the Turks were unable to destroy the railway, which, with its rolling stock, was left intact. Dynamite had been placed under some bridges, but the nationalists were in such disorder that the Greeks easily inflicted great losses upon them and took many prisoners, with few casualties among themselves. It was found unnecessary for the Greek forces to shell any towns, as all hoisted the white flag when they approached.

Retain Turkish Officials. Turkish civil officers in the territory who surrendered have been continued in office. In the Baloukessar-Panderna district, the Circassian leader, Anzevour Pasha, has a large following which supported the sultan's government, but who was unable to resist the nationalists because of lack of military support from the Constantinople government. As a consequence, the district has suffered severe punishment from the nationalists, who have taken many and have levied tribute on the people. These acts have aroused great hostility toward Mustafa Kemal, the nationalist leader. Conditions are somewhat different to the eastward, where it is expected the nationalists will have better co-

MASTER TRUCKS

When you buy a Master Truck you are buying the best there is to be had. There are no "ifs" or "buts" about it—they are the best trucks you can buy at any price. Built along the most approved lines of the finest materials, they are wear resisting and long lived. Master Trucks applied to your hauling or transportation needs will save you money. Phone us for details.

operation on the part of the local population in defense of the Bagdad railway. Eskişehir, the junction of the Bagdad and Angora railways, is the point where the hardest fighting is anticipated. British observers predict that the nationalist movement will collapse within a fortnight. They say the fall of Eskişehir will result in the surrender of Konia and the complete isolation of the Angora government. The Turkish population has been fleeing from Bursa for several days and many Turks are asking Greek civilians to protect them in their homes.

IRISH FORM NEW UNION. DUBLIN, July 4.—Delegates representing 26,000 trades unionists in conference here today resolved to form a federation of Irish trades unions on a national basis. John Mooney, chairman of the conference, charged that an army of occupation was trying to break down their lines and that on their flank the British trades unionists, under the guise of friendship, were helping to feed the furnaces for their destruction.

BOLSHEVIKI ADVANCE. LONDON, July 5.—The bolsheviks have broken the enemy resistance on the Crimean front, according to an official soviet statement under Sunday's date received by wireless today. The bolsheviks occupied a number of villages twenty-five miles south-west of Orskoy in the southern Yekaterinoslav region, the statement says.
