

NEW LAYS PLANS FOR SENATE RACE

Senator Not Taking Anything for Granted in Campaign.

Special Dispatch to The Star.
 INDIANAPOLIS, Ind., April 1.—Although there has been no definite announcement from Albert J. Beveridge that he will seek to wrest the republican senatorship nomination from Senator Harry S. New, Senator New apparently is not inclined to take anything for granted, and during the several days he has been in Indianapolis his hotel rooms have been thronged with republican workers from all parts of the state. Many of these have come to talk about federal appointments, but the matter of Senator New's candidacy has by no means been discarded as a subject of discussion.
 Friends of Albert J. Beveridge, however, expect him to make the race against Senator New. They say that efforts were made several months ago to pull him into an important federal position and thus get him out of the race, but that he turned down all such offers very promptly. Mr. Beveridge's friends point out that in the interest of harmony he remained out of the senatorship race last year, when James E. Watson was a candidate for nomination, and that he can hardly be expected to continue hiding his talents in order to avoid a political fight.

LUMBERMEN'S AID ASKED.

Urged to Bear Share in Solution of Housing Problem.
 CHICAGO, April 1.—Joseph W. Bailey, former United States senator from Texas, addressed the National Lumber Manufacturers' Association with an appeal to the lumbermen to assume their share in bringing about a rapid and practicable solution of the housing problem.
 Congressman Patrick H. Kelley of Michigan, another speaker, said there could be no substantial relief for industry until the transportation problem has been solved. George W. Carlwright, former United States senator from California, declared that the one remedy for the present industrial unrest is education.

The English police force is practically the only one in the world that is not armed.

DOCTOR FOR SOUL, MIND AND BODY IS CALLED MODERN UNIVERSAL MAN

Believed extinct by modern educators, the "Universal Man" has been found at George Washington University, in the person of Prof. Edward Elliott Richardson, head of the philosophy department, who has just been re-elected president of the Society of Philosophical Inquiry. The "Universal Man" flourished in the days of the renaissance, when there were numerous prodigies, such as Leonardo da Vinci, who knew everything from A to Z, and were able to do virtually everything under the sun. Prof. Richardson is one of the few men qualified to minister competently to body, mind and soul. He is a doctor of medicine, a doctor of philosophy and a doctor of divinity—a sort of ideal educational trinity. Prof. Richardson is pastor of the Congress Heights Baptist Church, vice president of the ministers' conference, president of the Central Home Mission and acting president of the Congress Heights Citizens' Association. He is author of numerous philosophical theses, among them being: "The Problem Imperfect," "Hegelian Philosophy" and "A Philosophy of the Trinity." The last mentioned has just been completed and will be read soon before the ministers' conference.

RUSS PROTEST TO FRANCE

Will Take Steps to Release 25,000 Prisoners, Says Secretary.
 MOSCOW, March 31 (by wireless to London).—A note has been addressed to the French government by M. Tchitcherin, the foreign secretary, protesting against the detention of 25,000 Russian prisoners in France and others in north Africa and in the Balkans. The note declares that if the soviet demands are not complied with the Russian government will take suitable steps.

587,500 LEAVE ITALY.

Emigration Figures Show Large Numbers Came to U. S.
 ROME, March 31.—Emigration statistics for the year 1920, made public by the department of emigration today, show that 587,500 passports were granted, of which 211,327 were to emigrants going overseas. Eighty per cent of these were for the United States, the others going to Argentina, Brazil and Canada. One-third of the Brazilian emigrants proceeded under contract concluded by the department.

AN APPRECIATIVE WORD

Needless to say how pleased we were to receive the expressions of good-will and approval at our opening yesterday, and we deeply appreciate the way in which the people of Washington welcomed this new banking house into "Active Service."
 We may be pardoned, in the pride we feel, in the growth of this organization since its inception, and the friends we have made, but frankly, the good-fellowship in evidence last evening far exceeded any idea we had of your feeling toward us.
 In return we extend to you all the conveniences of the institution and pledge a banking service in which this community will feel, as well, a just pride.
