On Fashion's thoroughfares you'll observe New Black Strap Pumps

of Patent Leather and Dull Kid

\$11.00

The finishing touch to the well dressed woman's outfit. Long, slender lines that impart a very smart appearance to the foot. The Baby Louis heel is not too high for comfort but just high enough for beauty. The trimming of narrow strapping is neat and trig, new in design and favored by women who know what to wear and how to wear it. As usual we are leading in the exhibit and sale of this correct footwear.

Fine Brussels Net White and cream

It's so refreshing to note the new ideas that have found their way into these new and lovely Blouses! Of course laces play a prominent part, but the arrangement is new. The collars are different, the sleeves show the new sweep, there is a new note in the way the tucks are placed—so on all along the line, and every Blouse is one that will serve as an attraction to your new fall suit as well as to freshen up your summer attire. The value will be noted at once you see them, because women know value at a glance.

New Hats for Now Hatters' Plush Sailor Hats

Combined with Kid, Velvet, Beaver, Duvelyn, Velour

The very aristocracy of smart Autumn style in Millinery! The sort of Hats you see on perfectly groomed women and misses! The class of headwear for which you pay high prices if they bear the stamp of nationally advertised brands, but when the Hat is worn, and you cannot see the label, you wouldn't know the difference—in fact, there isn't any difference, except in price.

New shapes of crown, new ideas in brims, new finishing touches, such as deep drapes around the crown, heavier grosgrain band with tailored bows, bindings formed by extending the facing up over the brims, etc.

Brilliant colors that make a striking contrast to the rich black of the Hatters' Plush. Pinch crowns, novelty crowns and whatever expert designers considered the acme of good taste and good style. Sketch shows one of the wide brim sailors faced and bound with scarlet velvet. Note the octagon crown. Price of this model, \$10.
