### RADIO NEWS

Station WJH of the White & Boyer Company broadcast the speech of Julius H. Barnes, president of the United States Chamber of Commerce at the City Club this afternoon at 1 o'clock. Mr. Barnes spoke on "Present American Problems."

The bureau of standards of the Department of Commerce has called a conference on radio standardization to be held Friday, January 12, in New York. This conference, the desirability of which has long been apparent, has been called at the specific request of the following associations and organizations: Institute of Radio Engineers, National Radio Chamber of Commerce, radio apparatus section, Associated Manufacturers of Electrical Supplies, National Retail and Dry Goods Association, American Radio Relay League and the Radio Corporation of America. These organizations have pointed

out that there is need for greater uniformity in the methods of describing, rating and testing the performance of radio apparatus. Invitations are being issued to all of the national associations of an engineering and technical nature which are known to be interested in radio standardization. The representation of radio manufacturers will, in general, be through the trade associations of which they are members. While it is desired to make the conference thoroughly and broadly representative, it is expected that the organizations invited will limit their representation to one or two persons in order that the conference may be as effective as possible. The purpose of the conference is to consider broadly (1) whether a formulation of standards for radio apparatus and service shall be made, (2) if so, what general classes of apparatus or service should be included, and (3) what procedure shall be recommended for carrying out the conclusions reached by the conference. If the conference decides that radio standards should be formulated, it is expected that they will be prepared

with special consideration of the wide range of interests which are concerned with the subject, and that these standards may ultimately be adopted, with the approval of the American engineering standards committee, as an American standard.

### INCREASED USE OF RADIO BY FARMERS PREDICTED

Chief of Weather Bureau Declares Advantages Already Have Been Demonstrated.

A great future increase in use by farmers of radio is forecast in the report of Dr. C. F. Marvin, chief of the weather bureau, in his annual report to the Secretary of Agriculture. "The great value of radiotelephony as a means for disseminating weather forecasts and warnings to the people already has been demonstrated," Dr. Marvin pointed out. "Its future usefulness cannot be estimated."

Extension of telephone lines into rural districts overcame only a part of the difficulty of giving the farmer the latest weather advice, the report continued. Then came the radio. Thousands of farmers installed such receiving apparatus during the past year, and are now obtaining weather forecasts and warnings, which are so important to their operations, as promptly and effectively as the business interests in urban communities.

### AMATEUR RADIO HEARD FAR

HARTFORD, Conn., December 19.—All long-distance records for amateur radio transmission were shattered during the transatlantic tests of the American Radio Relay League when the signals of two amateur stations were picked up in mid-Pacific, 7,000 nautical miles distance, by H. E. Roese, radio operator on board the steamship Easterner. It was announced at league headquarters here. The stations heard were those of William D. Reynolds, D. D. S., Denver, Col., and W. A. C. Henrich of Aberdeen, Wash.

### RUSSIA LIKELY TO DEPORT U. S. MAGAZINE WRITER

Alleged Mrs. Harrison, Recently Arrested, Disregarded Agreement Never to Return to Moscow.

MOSCOW, December 19.—Russian officials here say that the arrest at Chita, Far Eastern Republic, of Mrs. Marguerite Harrison, an American magazine writer, is under investigation, and that she probably will be deported by way of a Pacific port. It is asserted that when Mrs. Harrison left Moscow last year she signed papers agreeing never to return to Russia. Moscow officials are of the opinion that she was arrested in consequence of violation of the agreement.

To haul the cantaloupes marketed in the United States the last season would require a train 371 miles long.

### THREE MEXICANS KILLED.

Customs Officers and Texas Rangers Chase Run Bunnies.

SAN ANTONIO, Tex., Dec. 19.—Three Mexicans were killed in a gunning fight with mounted customs inspectors and Texas Rangers near Miraflores City, West county, late this afternoon, according to a report received by Deputy Collector of Customs Ed Cotulla tonight.

### KILLS WITH "EMPTY" GUN.

KNOXVILLE, Tenn., December 19.—Mack Haynes, forty-two, contractor, was accidentally shot and killed by his brother Henry here. The accident followed target practice by the brothers, who were using a revolver. Thinking the revolver was empty, Henry pointed the weapon in the direction of his brother and pulled the trigger.

## Last Call for Members in the 1922 ARTHUR JORDAN CHRISTMAS PIANO CLUB

A Few More Homes Will Get Pianos in This Club—  
Don't Put it Off if You Are Thinking of a Piano or Player for Christmas

This Lovely "Baby Grand" Piano

**\$325.00**  
for This Splendid Upright Piano

**\$435.00**  
is the Very Low Price of This New Player-Piano

## Make Your Selection at Once—Leave a Small Deposit Then You Will Be Sure of Getting Your Christmas Piano

The popularity of Jordan's Christmas Piano Club has become so great that only a limited number of pianos are still available for Christmas delivery. There is a reason. Our better values are so apparent, our terms of payment so liberal that Club members recommend their friends to join also. Like the snowball that starts small and becomes a mighty force—so our Christmas Piano Club has grown in popularity.

**A Few Bargains in Good Used Instruments Also at Club Terms**

|   |          |
|---|----------|
