

RUBY DINNERGOWN WITH METAL FRINGE

In ruby colored velvet, elaborate with metal trimming, comes a French model. There is almost

as much metal decoration to this gown as the groundwork velvet fabric.

The overskirt has a deep band of metal insertion about the hips and it also edges the overskirt. This band has a foot deep of metal fringe.

The neck is cut square and is untrimmed, while the insertion of metal crosses the bust and is used again at the waist line.
