

kind of a newspaper I want to build up in Chicago—one that really belongs to the people and is run as they want it run. One they can kill in a day if it betrays them by being false to their interests.

One thing I would like to have everybody understand is that everybody is entitled to a square deal in such a paper. On that proposition I don't draw the line anywhere.

I'll make mistakes, of course, for I'm human. But I'm not afraid to retract or apologize.

The Day Book staff will be glad to get suggestions for its improvement from any reader. I want the people of Chicago to help make this newspaper the kind of a newspaper it ought to be.

So be friendly and write occasionally.
