#### THE CINCY ICE FIGHT

Cincinnati, July 5.—District physicians, mothers with sick babies, invalids and citizens in general will be the witnesses for the city of Cincinnati in defending the seizure and operation of ice plants which the ice barons now are suing to enjoin.

All city-operated plants are expected to manufacture at full capacity Sunday and relieve the suffering of the last terrible weeks.

The city has seized the auto ice trucks of the ice barons to make easier the delivery of ice to distributing stations.
