

torials demanding "British fair play" for the mad millionaire.

The decision in the habeas corpus proceedings was postponed by Judge Arthur Globensky yesterday afternoon until next Wednesday at 10 a. m.

District Attorney Conger of Dutchess County, New York, and the other New York authorities were furious at this. They tried to have Thaw brought into court immediately by serving an instanter habeas corpus writ.

Jail Governor Laforce, however, knew that Judge Globensky had left Sherbrooke and, instead of bringing Thaw into court on the writ, appeared himself.

The talk of the New York authorities about indicting Thaw for assault or conspiracy is a joke. If this were done, New York would thereby admit Thaw sane. Nothing would please Thaw better.

Acting Governor Glynn of New York yesterday wired Secretary of State Bryan asking him to make a demand on the Canadian authorities for the extradition of Thaw.

Bryan answered this demand by a telegram to Sir Arthur Spring-Rice, British ambassador, in which he said the American government would leave the disposition of Thaw in the hands of the Dominion government.

Judge H. W. Mulvena today continued until next Friday the hearing of the case against Chauffeur Mitchell Thompson, charged with bringing a lunatic, Harry K. Thaw, into Canada. The continuance was granted because the record of Thaw's commitment to Matteawan has not yet reached Sherbrooke.

Johnstown, Pa., Aug. 22.—Every new development in the case of Harry K. Thaw is telephoned to Mrs. Mary Copley Thaw, his mother, at her summer home at Cresson in the Alleghenies.

Mrs. Thaw interrupted the telephone message several times today,

once to express scorn at the frequent references to the Thaw millions. She says they don't and never did exist.

She also said she agreed with Dr. Evans, the alienist, that Harry never would have been held had he been a poor man. She also denied vigorously that Roger O'Mara is Thaw's guardian, saying he was only Thaw's trustee in bankruptcy.

MOVIE MEN BUY \$60,000 WORTH OF BUFFALO BILL'S SHOW

Denver, Col., Aug. 22.—\$60,000 worth of bucking bronchos, trained camels, historic stage coaches and other articles which promise to be very useful were bought by "movie" men at the sheriff's sale of the Buffalo Bill-Pawnee Bill Wild West and Far East show.

Colonel C. J. Bills of Lincoln, Neb., bought Buffalo Bill's horse, Isham, for \$150, and will give it back to Col. Cody. He came all the way from Bryan's state to make the purchase.

Circus men who attended the sale attributed the show's failure to the fact that it has recently not been up to its former standard.

HIGH COST OF SCIENCE

Springfield, Ill., Aug. 22.—Statement from Prof. A. R. Crook, curator of state museum, shows high cost of living is nothing compared to high cost of science.

Collection in museum is worth \$121,955. 11,000 bits of stone labeled "Invertebrate fossils" are listed at \$20,000. Same value is placed on 453 "type fossils."

Eggs have gone up in price. 152 on exhibition are listed at \$1,000.

"I trust your worship will excuse me this time," said an habitual drunkard at the police court; "it is my misfortune—I am a child of genius." "And what is your age?" questioned the magistrate. "Forty-two years." "Then it is time you were weaned. You'll have to do fourteen days away from the bottle."
