who make it a business to pass upon the films before they are shown. If there are objectionable features they must be cut out before the picture is O. K.'d. This is seldom the case with the speaking play."

TRAFFIC COMPLETELY TIED UP BY THE STRIKE

Indianapolis, Nov. 3.—Union leaders point to the strike of the car men as one of the most successful in the international union's history. Traffic is completely tied up and not a local or interurban car has moved in the

city for over 24 hours.

It is declared that politicians of all parties have taken labor's side in the trouble and that tremendous pressure has been brought to bear on the authorities to remain neutral until after the election tomorrow, when it is expected that the cars will start under heavy police protection and the first real effort made to break the strike.

An autopsy on the body of Isaac Fleisher, the young strikebreaker killed in yesterday's rioting at the car barns, showed that he had been shot from behind. Except that his home is supposed to be in Philadelphia, nothing is known about

Fleisher.

Three men have been wounded by glancing bullets fired at the ground by policemen, and a score have been slightly injured by flying bricks.

TRAIN WRECKED-ONE WILL DIE

LaCrosse, Wis., Nov. 3.—Engineer T. J. Pratt is in the hospital, dying from injuries received in wreck of a Burlington train, which was huried from the tracks while traveling at a high rate of speed. That more persons were not injured or killed is considered marvelous.

The wreck was the result of a landslide on an /overhanging bluff at Genoa, Wis. One huge boulder lodged between the double tracks and the engine of the train was thrown bodily off the track, while the four coaches followed.

DENY MONOPOLY CHARGE

St. Paul, Nov. 3.—In answer to the governor's briefs which denounce the International Harvester Company as a trust that could use its immense wealth to drive competitors out of the field, the company declared that it has benefitted the public by giving farmers better machines at the same price, and in no instance has a competitor been forced to the wall.

The Harvester Company intends to offer the testimony of 228 farmers, 823 local implement dealers and more than 100 competitors to disap-

prove the monopoly charge.

PICKING UP SOME LUCK

"How did your Cousin Jack get his hand burt?"

"Got run into by an automobile."
"How was that, then?"

"Picking up a horseshoe for luck!"

WEATHER FORECAST

Partly cloudy, cooler weather tonight and Tuesday; lowest temperature tonight about 38 degrees; moderate westerly winds tonight becoming northwesterly Tuesday, Temperature Sunday—Highest, 53; lowest, 47.
