The special committee recommended to McCormick changes which James Minnick, secretary of the special committee, says are the minimum requirements necessary to properly take care of tuberculosis cases.

COUNTY ARCHITECT SCHMIDT MAY LOSE FAT FEES

The Democratic majority on the County Board is planning to save almost \$100,000 a year by making the county architect's job a salaried one and abolishing the fees.

It is said that Richard Schmidt, who was appointed county architect by President McCormick, has made \$75,881 in seven months on the job and stands a good chance of making \$78,532 on pending construction work.

The plan to abolish the fees will probably be fought by McCormick and the Progressive members of the board, but the legal right of the majority to place the job on a salary basis is sustained by State's Attorney Hoyne.

The new finance committee held its first meeting yesterday. Commissioner Frank Ragen announced that with the new committee there would be no more star chamber sessions and the public would know everything that was going on.

TEACHERS WANT BETTER PAY

The Chicago Teachers' Federation has started a campaign for a general increase in salaries for teachers in elementary schools. A special committee has been appointed for this purpose. The increase, according to

the schedule, will mean an annual expenditure of \$1,000,000 by 1916.

The schedule calls for an average increase of \$100 a year for the 5,000 elementary school teachers. A minimum of \$750 and a maximum of \$1,500 is asked. At the present time it is \$650 and \$1,200.

According to Miss Margaret Haley, business agent of the Teachers' Federation Mrs. Young has committed herself to an increase of pay for elementary teachers.
