

QUAINT EARLY SEASON WRAPS

The new spring wraps are short and full. Most of them now are made of soft taffeta although later you will see many of embroidered crepe and block printed linen.

These little wraps are very simple and have no shape to speak of. They come a little below the waist.

The one pictured is of shirred black taffeta trimmed with cords and tassels.

The hat worn with this little wrap is of black jet with black tulle trimmings. The frock is of white linen, black printed in shades of green.

LAIDLAW GO WEST FOR THE
SUFFRAGE FIGHT

Butte, Mont.—Montana suffragists are to have the support of the New York social leader, Mrs. James Lees Laidlaw, in the furious fight for woman suffrage now being waged in this state. Mrs. Laidlaw is not coming into the West alone—her husband, as ardent a suffragist as herself comes with her and he will take part in the "votes-for-women" campaign here.
