

## OUTBURSTS OF EVERETT TRUE

### WHAT DO YOU MEAN MACARONI?

Because an Italian nobleman of epicurean taste gave his food such "spooney" names as "darlings" and "dearest darlings," those slippery little tubes of flour paste are called "macaroni."

It seems that this nobleman's cook invented a new dish which he didn't name. When his master tasted the succulent but squirmy sticks of paste served to him, he smacked his lips and exclaimed "Cari!" which means "the darlings"; the second mouthful was so good that he sighed "Ma-

car!" which means "the dearest darlings," and when the last tube slid down his throat he ejaculated "Macaroni!" or "what darlings." The cook no longer worried about a name. His new invention was called "macaroni."

An attractive feature of the new waists is that the backs are as pretty as the fronts. All waists have the loose blouse effect and are fitted in very slightly under the arms. A fine quality of white French voile is the material usually used.
