ALD. BLOCK CALLED THE TURN —ARNOLD IS SELECTED

True to the prediction of Ald. Block, Blon J. Arnold, member of the board of supervising engineers was tentatively selected as one of three engineers who are going to spend \$200,000 of the people's money to bring in plans for a subway.

Arnold's name was the first discussed of the list of 60 engineers of national reputation which is being gleaned by the sub-committee of the local transportation body.

"I most certainly will oppose Arnold's appointment to the job," said Ald. Buck. "And I'm sure that other members of the city council will have something to say before they let this suave gentleman, who talks with his eyeglasses, spend \$200,000 for a re-

port which will recognize the millions of dollars' worth of watered stocks in the 'L' and street car companies."

COUPLE OF CON MEN CAUGHT— SAFELOWERS ESCAPE

Two con men who fleeced a farmer out of \$45 by matching pennies were granted an immediate hearing by Judge Burke yesterday and held to the grand jury on \$10,000 bonds.

They are the first victims of the war on crooks which is being pushed by Capt. Hunt of the detective bureau.

Safeblowers got away with \$1,000 in a building three blocks away from Capt. Hunt's office yesterday.

A lot of film footage is wasted while movie actors take down and hang up telephone receivers.
