

be your tool and you will soon see the "machine" move straight forward.—Chell.

ANSWERING ERIC HANSEN.—

Your friend's opinion is the opinion of the average fellows. They don't think a thing of handing out a line of talk and the girls know it. Do you wonder why a girl never believes what a fellow tells her? But I would not advise you to take his advice, anyway.

If a girl cares anything about a fellow she would not care if he owned a Ford or a wheelbarrow. For a girl knows that a fellow about 25 has hardly had time to own an automobile or be a superintendent.

Fellows don't want sensible girls. They want frumped-up baby dolls. Go to a dance and see all the sensible girls decorating chairs while the doped up dames have every dance.

That is why a sensible girl stays home, stays home rather than go out at the price of her dignity. Or else maybe she gets tired being sensible and lonesome and lets go the ropes. Do you wonder why they are hard to find? Because they are not in demand.—Madora Fleck.

WOULD CAUSE DOG TO CRY.—

We have not the time nor inclination to agree nor disagree with eminent authorities when it is a question of living on \$7.50 a week. We know that application of common sense is nowhere more needed than in the proper nourishment of the body, since only so can we demonstrate that we are led and guided by a knowledge superior to those tendencies that belong only to the lower or brute nature.

Such a combination of foods for meals would be sufficient to cause a yellow dog to cry out: "How long, oh Lord, how long?" Such combinations cause gastric dyspepsia, hypochondriasis—but, hold on. I'm off my base; I mean stomach, liver, kidney trouble—and are one of the principal

causes that produce the thorn in the flesh, and cause endless trouble similar to that of the Orpet and Lambert case.

We dare not disagree with recognized authorities, even if this is assumed to be a free country, but we do know that dying of \$7.50 per week would be more appropriate.—Yatha Ahu.

BECOME A LEADER.—

Become a leader! And to do this you must demonstrate what you believe in. Today you are kicking about conditions, and unless you do something at once to change conditions you will be kicking the same tomorrow.

Business system of profit monopoly runs government, politics, church and state. Then if you would have this be different, help us build a different business system, using Webster's cafeteria plan as a start, to which we can build gradually into every line of business.

How can you find a better chance to become a leader?—Roy Jefferson.

TYPES OF GIRLS. —

There are girls that have the same idea about young men that Mr. Hansen has of young women, though it seems they are as hard to find as needles in a haystack.

Your type appeals to all sensible and refined young women, and the man who told you that girls want lies is sadly deceiving himself.

It is not too idealistic to demand points which you name, as many have them, and more, although I have never yet met a young man who possesses as many.

The type of girls you prefer do not invade public dance halls, cheap cabarets, etc. No, indeed! If they cannot have suitable companions for wholesome and simple pleasures, they'll rather go without.—A. G.
