MOTHER OF BOY ACCUSED OF GIRL'S MURDER NEAR DEATH

Olney, Ill., Aug. 1.—Another death may result from the "air bubble" death mystery, which has already claimed the life of 17-year old Elizabeth Ratcliffe, Indiana farmer girl. Mrs. Emma Hinterliter, mother of Roy, who is accused of the girl's murder, has completely collapsed and reports from her home in Wabash county today are that her reason is in danger. Since the arrest of her son, she had grieved constantly, protesting his innocence and for most of the time has refused food.

Efforts were again made by Hinterliter's wealthy relatives to secure his release on bail, that his further

imprisonment at this time will result in his mother's death or insanity.
