

CHICAGO HOLDS RECORD FOR AUTO DEATHS FIGURES SHOW WINDY CITY WORST OFF

New York, Sept. 25.—More people have been killed and injured by automobiles on streets of American cities during this year than in all the Zeppelin raids on England. Chicago is the leader with more than 200 deaths between Jan. 1 and Sept. 1. New York runs second.

These figures, compiled on reports from a score of cities, are based upon police records, which show a constantly growing death list as a result of automobile accidents, despite improved traffic laws.

In the cities from which reports were available, figures up to Sept. 1 show that a total of 1,040 persons have been killed and more than 8,000 injured. Only partial lists of injured were received and it is possible that the complete toll would show almost double this number.

In Zeppelin raids on England to date about 368 have been killed and 870 wounded in two years.

Police reports show 158 persons killed and 4,484 injured on the streets of New York up to Sept. 1.

Chicago records show 205 killed, while Philadelphia reports 88.

In Detroit 63 were killed and 2,715 injured up to Sept. 1, as compared with 31 killed and 2,005 injured during the same period last year. Los Angeles reports 57 killed and Columbus, O., 40.

In many cities heavy penalties are being inflicted for driving a car while intoxicated and other remedial measures are being considered.

Reports of fatalities and injuries in cities other than those already mentioned follow:

San Francisco, 38; St. Louis, 37 killed; Cleveland, 30; state of Iowa, 30 killed, 400 injured; Des Moines, 15 killed; Denver, 26 killed, 524 injured; Milwaukee, 21 killed; Washington, 19; Portland and Seattle, 8 each; St. Paul and Minneapolis, 7; Dallas, 5 killed, 37 injured; Topeka, Kan., 5;
