

live through a humble existence on account of the war? Or is our country's prosperity but for men like Armour, Rockefeller, J. P. Morgan and few others?

We cannot say that our country is prosperous with but a few individuals getting the spoils of it and having the rest of the people look on and dearly paying for it.

We cannot forever be proud with someone else's pleasure and think ourselves happy unless there is a thing which would bring us to the point of happiness, and only then we can participate in their joy. But still there are some of us who follow the line of the mudralsers and help them laud their own prosperity.

We cannot claim anything before it is in our possession, and that is what Wall street and its candidates are trying to make us do. A vote for the Socialist candidate means less loudness for this prosperity, but still bring a letter future for the worker.

THE PROPOSED ILLEGITIMATE LAW.—May The Great Architect of this universe bless the women who dared to purpose a law to legalize all children born in Illinois. Inasmuch as the Creator did not curse the innocent-born babes, the legislators, church trust and grown-up fools called human beings have no right to pronounce a curse on them.

They are blasphemers when they do. I would rather hear humans curse their Maker right to His face, for it would be much more manly. To curse nature is to "take God's name in vain."

But here! Over 60 per cent of all illegitimates are by married men, so this law will not be free from class legislation unless the married men legalize all their children as well as the single men, comprising 40 per cent. There is only one way to do this and that is to divorce the husband for 24 hours and remarry him at once to the illegitimate mother,

thus legalizing the poor, cursed child and enabling the mother to say she is the legal mother.

Now if the first wife still wants him back then divorce him again next day and remarry him again, thus protecting all his children. If the wife does not want him back then leave him with the illegitimate and have him put up enough money to support his children and his divorced wife he is not living with.

Those ladies meant well when they advocated sending him over the road for bigamy. But this is all wrong. It is shoving a dagger through the hearts of all the children and two wives in order to punish the father. It is robbing two sets of children and their mothers of support. Let him support and acknowledge his own flesh and blood.

Everybody is out to punish men these days. Is the first wife absolutely innocent? Was she cold, extravagant, mean in any way? Did she drive him out to love some other woman? If she is in any way guilty then I claim she is also the mother, figuratively speaking, of that innocent, illegitimate child. Then, again, is the mother of the illegal child entirely guiltless?

Did her charms cause Adam to fall a second time? When God's chosen Jacob fell four times, all at once, when the divine David fell hundreds of times and Christ's forerunner, Solomon, fell over a thousand times, is it wrong for white human beings to fall only twice, when the white race is fast running out or being destroyed?

I say, save all men who have nerve and stamina enough to have and support children.—Allen Steven.

BE FAIR.—Being a constant reader of The Day Book, would like to state for the benefit of the person who wrote the article "Opposed to Wilson" in Public Forum of the 30th inst. that Roman Catholics always have been as good American citizens
