An improvement is noticeable in the stock market this week. Altogether \$9,542 shares of stock were sold on the exchange which brought \$51,925.48, or almost an average of 60 cents a share.

Reports from the Grand Central that the vein has been entered on the 300 level and that the ore chutes are developed by the wing will be tapped within ten days caused the stock to advance to \$5.80 today, after selling around \$5.75 for some time past.

Bullion-Beck closes the week a little softer, while Mercur continues to gain strength.

Lower Mammoth recorded an advance to \$2 during the week. It has declined to around \$4 1/2, which is stronger than it was at the beginning of the week.

Mammoth, after hanging around \$2 and \$2.03 for some time past, today advanced to \$2.12, while May Day, which could have been bought for \$7 on Monday, sold up to \$11.2 today on the curb.

Sunbeam is much weaker today. Ontario is hardly as firm as it was a few days ago, but Golden Eagle has gained strength owing to the probability that the erection of a mill will be decided upon at the meeting of the stockholders next week.

Joe Bowers, with a few men working on the 450 level shows itself a little weaker. Northern Light has gained a little during the week, as has Petro, but Daisy shows a falling off now that the cyanide shipment has arrived.

PREPARING FOR ACTIVE CAMPAIGN.

Number of Parties Will Prospect on Antelope Island This Year.

At least three of the rich producers of Godiva Hill, said to have been blocked by the refusal of Jesse Knight of Antelope Island, to sell the White Butte and Uncle Sam mines, says the Tintic Miner.

WEEK'S CYANIDE RECEIPTS.

Value Reported to be Looking First Class—Paying Expenses—Jesse Knight's Refusal.

Eureka, March 9.—Arrangements are now in progress for the resumption of operations at the Bullion-Beck mill. The mill, which is a cyanide plant, has been idle since the first of the year, and as soon as possible will be transferred into a combination of a similar pattern to that of the Eureka Hill company.

APPLICATIONS FOR PATENT.

Applications for patent were filed in the land office this week as follows: By the Concor Gold & Copper Mining company, R. E. McConaughy, agent, for the Buckeye lode claim in West Mountain district, containing 67.299 acres.

SILVER QUEEN AND PRIMROSE.

It is reported from Salt Lake, says the Tintic Miner, that the differences formerly existing between the Silver Queen and Primrose mining companies have been amicably settled, and that the property of the former company will pass into the hands of the Primrose, in exchange for which the stockholders divide 100,000 shares of Primrose stock.

The Mammoth of Tintic had a car of ore on today's market. The Conklin sampler reported 14 cars of ore from Tintic today. Eight cars of ore were on the market today from the Swanssea of Tintic.

CONSOLIDATION BLOCKED.

Jesse Knight Reported to Have Refused \$750,000 for Two Mines. A deal which, had it succeeded, would have resulted in the consolidation of at

least three of the rich producers of Godiva Hill, said to have been blocked by the refusal of Jesse Knight of Antelope Island, to sell the White Butte and Uncle Sam mines, says the Tintic Miner.

The record of both the Humber and Uncle Sam mines is one of phenomenal richness, and as yet neither of them has been worked to any great depth. Mr. Knight's disposition seems to be to buy rather than to sell. He is heavily interested in many promising properties in the district, among which may be mentioned the old Northern Spy in Spy Hollow, the Black Jack and Trail which lies between the mouth of White Butte Creek and the Rising Sun and Bull Domingo, on the southeast slope of Domingo mountain, below Diamond.
